Winter Sports 2023

If you are looking for something to do this spring, think about joining the Napoleon Junior High Track and Field team. Track and Field is the only school sponsored spring sport offered at the Junior High and it offers a little something for everyone. Track events include sprinting and distance races, individual and team relay races, as well as hurdle races. For those of you that may not like to run, there are plenty of "field" events to choose from. Athletes can compete in throwing events such as the shot put and discus, as well as jumping events like the high jump and long jump. Practices usually begin in mid-march and the season ends in early May. Athletes can usually compete in Track and Field as well as Baseball or Softball. Listen to the morning announcements for information about when practices officially begin!
