

Teaching about Drugs, Alcohol, and Tobacco

In accordance with applicable law, the district shall provide age-appropriate, developmentally based drug and alcohol education and prevention programs from early childhood (preschool) through grade 12.

The drug and alcohol education program shall address the legal, social, and health consequences of drug and alcohol use. It shall include special instruction as to the effects upon the human system; the emotional, psychological, and social dangers of such use with emphasis on non-use by school-age children; and the illegal aspects of such use. The program also shall include information about effective techniques for resisting peer pressure to use illicit drugs or alcohol.

The objectives of this program, as stated below, are rooted in the Board's belief that prevention requires education and that the most important aspect of the policies and guidelines of the district should be the education of each individual to the dangers of drugs, alcohol, and tobacco.

1. To create an awareness of the total drug problem-prevention, education, treatment, rehabilitation, and law enforcement on the local, state, national, and international levels.
2. To relate the use of drugs and alcohol to physical, mental, social, and emotional practices.
3. To encourage the individual to adopt an appropriate attitude toward pain, stress, and discomfort.
4. To develop the student's ability to make intelligent choices based on facts and to develop the courage to stand by one's own convictions.
5. To understand the need for seeking professional advice in dealing with problems related to physical and mental health.
6. To understand the personal, social, and economic problems causing the misuse of drugs and alcohol.
7. To develop an interest in preventing illegal use of drugs in the community.

The curriculum, instructional materials, and strategies used in this program shall be recommended by the superintendent and approved by the Board.

To the extent funds are available, each school is encouraged to operate and maintain an educational program to assist students in avoiding and discontinuing use of tobacco.
