

Orange County Public Schools

Orange County, Virginia

Community Flyers

Orange County Public Schools receives information from community organizations offering opportunities to participate in activities and events designed for children and families. In the past, hard copies of approved community flyers were sent home with students.

In an effort to reduce paper use and conserve resources, community flyers will no longer be sent home with students. The flyers will be posted on the district and school websites for student, parent, and community information.

The information posted is provided as a resource to the families and community of Orange County Public Schools. Orange County Public Schools does not sponsor or endorse the organizations providing the information. Please contact organizations directly with any questions.

If you are interested in posting an informational flyer, please refer to the Procedures for the Distribution of Information/Materials.
