Launch at Floyd Bennett Field (FBF), aims to reimagine what education looks like in service of a better world. This transformational learning campus is focused on solving the most pressing issues of our time: climate change and systemic racism.

On Better World Day, we will bring together the Launch community, our partner organizations, and elected officials from across the state of New York to create a space for visioning, collaboration, and innovation centered around imagining an experiential learning campus, on 1,000 acres of land in the middle of New York City. **YOUR VOICE IS CRITICAL - JOIN US!**
