- **Revenue Mid-Year Adjustments**
  - The State does a mid year adjustment when they distribute the 1-2% State aid hold back based on actual October counts.

- **FY23 Expense Adjustment**
  - Adjustment to reflect unanticipated dynamics during the first semester.
  - Update expense projections for the remainder of the year.

- **Investment Changes**
  - Incorporate new proposed investment into FY23 budget to address needs identified to support district initiatives.

- **FY23 Mid-Year Budget Amendment**
  - The mid-year budget amendment becomes the new official budget for the district replacing the preliminary budget.

FY23 Mid-Year Amendment Recap

- We are proposing adjustments to both revenue and expenses to better reflect what has happened in the first half of FY23 and what we expect for the second half.

- The enrollment growth of two consecutive years is helping sustain higher revenues for the district.

- We are investing in our hourly support professionals and teachers now.

- We are committed to lead a multi-year compensation effort and we have been actively managing revenue and expenses; we have built our fund balance to support this work.

- We are unable to incorporate any potential impact of new legislation at this point.
Update on Federal Recovery Fund Investments
We have been allocated 3 rounds of federal recovery funds since March of 2020. These funds are reimbursed by the state after submission of claims that meet the ESSER investment criteria established by the federal government.

Federal recovery expenditures have 3 levels of accountability for legal compliance with the grant:

- Tulsa Public Schools staff review
- Oklahoma State Department of Education review
- External independent auditors

Per federal guidance, all of these funds must be used to "prevent, prepare for, respond to, and recover from Coronavirus."

Federal Recovery Funding

- We are in the process of finalizing stimulus plans for FY24.
- Our plans thus far include:
  - *Ready. Set. Summer!* July 2023 and 2024
  - Air quality improvements
  - Network and support positions to advance work at schools
- We have plans to spend all of our dollars by the September 2024 deadline, and we are actively managing for external factors that might affect our ability to spend as planned.
Federal Recovery Funding

- We are seeing the positive impact of these additional resources on supporting students recover from the pandemic, and on keeping our students and families safe.

- Going forward, Federal recovery dollars will continue to be important on advancing recovery efforts, and will also enable launching important strategic initiatives to advance work towards achieving board goals.

- As investments are identified and prioritized, we are working to avoid creating any “funding cliffs” with stimulus dollars and are actively addressing structural deficits in the system to set us up for success post-stimulus.
