## Solar Walkway Information Meeting

1 message

---

April 4, 2023

Dear DCS Families, Students, and Staff,

In 2021, we began a conversation with the DHS Green Schools Club about a project involving a [Solar Walkway](#) at the DCS Bus Hub. Soon after, we began a silent fundraising phase and some generous donors have provided us with a significant starting point to begin the bid process to build a [solar walkway](#) and field for our schools.

**We're hosting a Solar Walkway Information Meeting on Thursday, April 6th at 7:00 p.m. in the Mill Creek Cafeteria for anyone interested in learning more.**

The [Solar Walkway](#) is student-driven and backed by Dexter Community Schools educators and the Board of Education. Dexter High School Science Teacher & Instructional Coach Beau Kimmey commented: "The installation of a solar array in the bus loop, a project fostered with student input and ideas, exhibits Dexter Community Schools' dedication to place-based education where student-led initiatives come to life. The installation will serve as an artifact of civic connection between student-led initiatives, the school district, and the greater community working collaboratively to solve real-world problems."

Thank you for your continued support and Go Dreads!

Sincerely,

Christopher Timmis, EdD

Superintendent
