WHEREAS SB 1580 would require a pupil identified as limited English proficient and who is either literate in his or her primary language to take the standards-based achievement test in his or her primary language as soon as the primary language test is available; and

WHEREAS SB 1580 would require the State Department of Education to develop by July 1, 2007, a modified version of the California high school exit exam for pupils who are English language learners.

SESSION FOUR - Public Hearing

4.0 Public Hearing

- 4.1 Public Hearing Regarding the Consideration and Adoption of a Second Urgency Resolution for an Increase in Statutory School Facility Fees Imposed on New Residential and Commercial/Industrial Construction Pursuant to Education Code Section 17620 and Government Code Section 65995
(Prepared by Facilities/Operations Division)

San Bernardino City Unified School District (“District”) Staff believes that the facts set forth in the fee justification studies entitled, “Residential Development School Fee Justification Study for San Bernardino City Unified School District” and “Commercial/Industrial Development School Fee Justification Study for San Bernardino City Unified School District”(“Studies”), prepared by David Taussig & Associates as of February 2006, are reflective of the average student generation rates, amount of future development and costs of school facilities to accommodate the students generated from such development. Based on the facility cost impacts to the District for the average new home and for commercial/industrial construction as set forth in the Studies, it appears that the District may collect the maximum Statutory School Fees in the amounts of \$2.63 per square foot for residential construction within the District and \$0.42 per square foot for commercial/industrial construction within the District.

It is appropriate at this time to conduct a Public Hearing.

Conduct Public Hearing

It is recommended that the following resolution be adopted:

SECOND URGENCY RESOLUTION OF THE SAN BERNARDINO CITY UNIFIED SCHOOL DISTRICT APPROVING AN INCREASE IN STATUTORY SCHOOL FACILITY FEES IMPOSED ON NEW RESIDENTIAL AND COMMERCIAL/ INDUSTRIAL CONSTRUCTION PURSUANT TO EDUCATION CODE SECTION 17620 AND GOVERNMENT CODE SECTION 65995

WHEREAS, on February 21, 2006, the Board of Education (“Board”) of the San Bernardino City Unified School District (“District”) adopted a resolution increasing the District’s statutory school facilities fees (“Level 1 Fees”) to \$2.63 per square foot of assessable space for residential development and \$0.42 per square foot of chargeable covered and enclosed space for all commercial/industrial construction categories (“Commercial/Industrial Fees”) (collectively, “Statutory School Facility Fees”); and

WHEREAS, although Education Code Section 17621(a) provides that an increase in Statutory School Facility Fees shall not take effect until sixty (60) days after Board action

Board of Education Meeting
March 21, 2006

increasing the Statutory School Facility Fees, Education Code Section 17621(b) allows the District to adopt an urgency measure, upon a four-fifths (4/5ths) vote, as an interim authorization for an increase in school facilities fees, where necessary, to respond to a current and immediate threat to the public health, welfare or safety; and

WHEREAS, on February 21, 2006, the Board of the District adopted an urgency measure, upon four-fifths (4/5ths) vote, pursuant to Education Code Section 17621(b) as an interim authorization for an increase in school facilities fees, to respond to a current and immediate threat to the public health, welfare or safety; and

WHEREAS, the District's school facilities are currently overcrowded, and the current Statutory School Facility Fees collected by the District are insufficient to fund the total cost for new school facilities per residential unit and State funding to make up the shortfall is not likely, thereby creating a threat to the public health, welfare or safety; and

WHEREAS, an immediate increase in the Statutory School Facility Fees is necessary to more adequately house new students to be generated from new construction and to avoid such threat to the public health, safety or welfare.

NOW, THEREFORE, BE IT RESOLVED THAT THE SAN BERNARDINO CITY UNIFIED SCHOOL DISTRICT DOES HEREBY RESOLVE, DETERMINE AND ORDER AS FOLLOWS:

Section 1. That this Board finds that a current and immediate threat to the public health, welfare, and safety exists and that without an interim authorization to increase Statutory School Facility Fees, building permits for new residential units would be issued without the District having sufficient funds to provide facilities to accommodate students generated by these new units, resulting in inadequate or nonexistent school facilities for those students, with resulting harm.

Section 2. That the second interim urgency authorization increasing the District's Statutory School Facility Fees shall take effect immediately and is valid for thirty (30) days.

STUDENT TRANSFER – INTERNATIONAL BACCALAUREATE

1. High school students seeking to transfer to Cajon High School for the purpose of participation in the International Baccalaureate (IB) Program shall be selected on the basis of this policy. 2. Not more than ten (10) transfers per year shall be granted from any single high school under this policy. No unfilled transfer shall be carried forward to future school years. All students granted transfers shall meet academic standards set by the Superintendent and shall be enrolled in a program leading to a full diploma. **Exceptions will be considered for students who attend an IB Middle Years Program for two or more years and meet all other IB transfer criteria.**
3. The Superintendent shall initiate the development of a set of criteria for eligibility for transfer under the provisions of this policy and transfer procedures shall:
 - a. Identify students likely to be successful in the IB Program.

Board of Education Meeting
March 21, 2006

- b. Determine the selection process to be used in the event that the number of applicants meeting the requirement of Section 3a exceeds the number allocated in Section 2. *
- c. Develop application forms, application deadlines and dates by which students shall be notified whether their application for transfer has been approved or rejected.
 - (1) In the event of a student transferring into the District too late to meet the deadline for applying, the deadline may be set-aside in the case where the incoming student has been in an IB Program in another school outside our District.
 - (2) A student whose application for transfer is not granted may appeal to a person or persons named by the Superintendent. Appeals shall be limited to contention that the academic criteria was incorrectly evaluated; that rejection was based on erroneous student records, or that the application was rejected due to a missed deadline or some other procedural error, when the applicant had in substance met the procedural requirements. Appeals shall not be based on waiver of any point of academic criteria nor waiver of any procedural requirement, except as in 3c(1).

* A random sample selection process was chosen by the Board of Education. Eligibility criteria are on file in the Educational Services Division.

- 4. The administration shall annually review the effects of this policy and shall make a report to the Board of Education. Such report shall include:

6.3 Proposed International Baccalaureate Program Policy (Second Reading)
(Prepared by Educational Services Division)

INTERNATIONAL BACCALAUREATE PROGRAM

The Board of Education recognizes the value of diverse academic offerings, and it encourages schools to explore opportunities for meeting the needs of all our students. Programs developed and sponsored by the International Baccalaureate Organization (IBO) provide one set of options. The Board of Education directs the Superintendent or designees to create regulations that would guide interested schools in the application for implementing such a program. The criteria and process must be clear and obtainable for each school community that wishes to pursue an IB program. Toward that end, the Board of Education recognizes that sufficient human and budgetary resources must be available to allow successful implementation of approved programs.

Introduction:

Founded in 1968 and currently implemented in well over 100 countries, the IBO offers a set of three “distinctive yet complementary” programs for students in grades K-12. The Primary Years Program (PYP) serves grades K-5; the Middle Years Program (MYP) services grades 6-10; and the Diploma Program serves grades 11-12. Although the specific objectives and approaches of each program vary in order to accommodate the developmental needs of particular age groups, at the heart of the overall IB philosophy is the belief that students learn best when they are actively engaged in mastery of content and acquisition of skills relevant to their lives as individuals and as members of a global community.

The International Baccalaureate Mission Statement:

“Through comprehensive and balanced curricula coupled with challenging assessments, the International Baccalaureate Organization aims to assist schools in their endeavors to develop the individual talents of young people and teach them to relate the experience of the classroom to the realities of the world outside. Beyond intellectual rigor and high academic standards, strong emphasis is placed on the ideals of international understanding and responsible citizenship, to the end that IB students may become critical and compassionate thinkers, lifelong learners, and informed participants in local and world affairs, conscious of the shared humanity that binds all people together while respecting the variety of cultures and attitudes that makes for the richness of life.”

Instructional Model:

- Inquiry-based instruction emphasizing critical thinking and fostering independence in learners
- Interrelatedness of skills and integrated approaches to learning in the content areas
- Culminating projects and criterion-referenced assessments
- Internationalism (including the study of foreign language) and multicultural perspectives

Board of Education Meeting
March 21, 2006

- Community-based projects and service-oriented experiences

Relationship of Programs:

The IBO itself describes the three programs as “distinctive yet complementary.” No one program is a necessary prerequisite to any other, nor does successful completion of one guarantee automatic entry into another. The relationship among the three programs may be understood as a pyramid. PYP occupies the base, offering a program suitable for all elementary students of widely ranging abilities; MYP sits in the middle, offering greater academic challenges for motivated students; the Diploma program is at the apex of the pyramid, offering a rigorous pre-university course of study leading to externally assessed examinations and the potential for college credit.

The Board of Education agrees that articulation among staff at the three programs is crucial, and further recognizes that adequate staff development and training is required to successfully implement the programs and assure continued authorization by the IBO.

- 6.4 Proposed Targeted Instructional Improvement Policy – English Learner Students (First Reading)
(Prepared by Educational Services Division)

TARGETED INSTRUCTIONAL IMPROVEMENT POLICY - ENGLISH LEARNER STUDENTS

In order to meet the academic needs of English learner students, the San Bernardino City Unified School District will provide every English learner an effective, quality, research-based, instructional program, and equitable educational experiences designed to empower them to become well-prepared, contributing members of a global society.

The goals of the Targeted Instructional Improvement Policy-English Learner Students have been aligned with the District’s Local Educational Agency Plan and the Blueprint for Success. The goals are: to develop fluency in English in each student as effectively and efficiently as possible; to develop high levels of proficiency in English and Spanish in ABE and Dual Immersion programs; to provide equal opportunity for academic achievement and to ensure that each student meets or exceeds grade-level California content standards; to increase students’ positive self-image; and promote cultural sensitivity and awareness.

Measurable outcomes

- Increase the percentage of English learners making progress in learning English - Annual Measurable Achievement Objective (AMAO 1)
- Increase the percentage of English learners attaining English proficiency (AMAO 2)

Board of Education Meeting
March 21, 2006

- Increase the number of English learners attaining proficient or above on the California Standards Test in English language arts and math (AMAO 3)
- Reclassify 10 percent of English learners annually

Student Identification and Initial Assessment

As part of the District's enrollment process, a Home Language Survey Card will be completed to identify students who have a primary language other than English.

Where there is an indication on the Home Language Survey Card of a primary language other than English, the student will be assessed at the Language Assessment Center in English and in primary language to the degree instruments are available. Parents will be provided an explanation of assessment results, program options, and services available for English learners.

Educational Program Options and Services (K-12)

- A. Structured English Immersion (SEI) - English learners with less than reasonable fluency (Beginner, Early Intermediate, Intermediate) will be first placed in this setting, unless a Parental Exception Waiver has been requested and granted for an Alternative Course of Study program. Students receive nearly all instruction in English in addition to daily English Language Development (ELD). Students can be placed in SEI classrooms for up to three years. English learners at all English language proficiency levels must receive ELD instruction by proficiency level with appropriately credentialed teachers until reclassified Fluent English Proficient (R-FEP).
- B. English Language Mainstream – English learners having reasonable fluency (Early Advanced and Advanced) will be placed in this program and receive instruction, overwhelming in English. ELD instruction will continue to be provided until the District reclassification criteria is met. English learners at all English language proficiency levels must receive ELD instruction by proficiency level with appropriately credentialed teachers until R-FEP.

- C. Alternative Courses of Study - English learners at any proficiency level whose parents waive their children into an alternative course of study program will receive instruction in English and primary language through an effective quality research-based instructional program. English learners at all levels of English language proficiency must receive (ELD) instruction by proficiency level with appropriately credentialed teachers until R-FEP
- a. Alternative Bilingual Education (ABE)
- i. Approved Parental Exception Waivers are required annually for all English learners enrolled in the ABE program. Parental Exception Waivers may be requested at the school site and the Language Assessment Center. The District has established procedures for granting Parental Exception Waivers and a parent appeal process for Grades K-12.
- ii. English learners in an ABE program will initially receive instruction overwhelmingly in English for a period of not less than 30 calendar days.
- b. Dual Immersion
- i. English learners and English-only students will receive instruction in English and primary language to become bilingual/biliterate/bicultural. Approved Parental Exception Waivers are required annually for all English learners enrolled in the Dual Immersion program. Parental Exception Waivers may be requested at the school site and the Language Assessment Center. The District has established procedures for granting Parental Exception Waivers and a parent appeal process for Grades K-12.
- ii. English learners in a Dual Immersion program will initially receive instruction overwhelmingly in English for a period of not less than 30 calendar days.

Student Progress Benchmarks, Advancements, and Reclassification

A. Student Progress Benchmarks

The academic progress that English learners make will be assessed and reported to parents on a regular basis as determined by district, state, and federal requirements.

B. Advancement

Parents are notified, on a regular basis, of their child's progress and when their language proficiency level advances. The five levels of English language proficiency are: Beginning, Early Intermediate, Intermediate, Early Advanced, and Advanced.

C. Reclassification

English learners will reclassify to Fluent English Proficient (R-FEP) when they meet District criteria for reclassification, which is aligned to federal and state requirements and includes standardized assessment of listening and speaking, reading, and writing through the California English Language Development Test (CELDT) and California Standards Test (CST), teacher evaluation, and parent consultation.

Students who have been reclassified are monitored semi-annually for two years as required by district, state, and federal requirements.

Qualified Staffing and Professional Growth

- A. All teachers working with English learners will meet state certification requirements. Teachers must have a California Teachers of English Learners (CTEL), its equivalent, or be in training for the appropriate certificate/credential in order to provide a high quality instructional program for English learners.
- B. Teachers assigned to Alternative Bilingual Education and Dual Immersion programs must have a Bilingual Cross-Cultural Language and Academic Development certificate/credential (BCLAD), its equivalent, or be in training towards that authorization.
- C. In order to build professional capacity, administrators, teachers, and support staff will attend professional development inservices offered by the District or other organizations/agencies related to the instruction of English learners. Staff development will be sustained, ongoing, and build upon other staff development efforts.

Evaluation and Accountability

- A. All research-based instructional approaches and educational program options will be based on state standards and District criteria and will include a process for monitoring and evaluating to determine program effectiveness and student achievement.
- B. In collaboration with administrative staff, the English Learner Programs department will continuously monitor student progress made in the content areas and towards meeting District advancement and reclassification requirements.
- C. The District will develop criteria and a process to demonstrate implementation and results for each English learner program option for the purpose of improving academic achievement. An annual evaluation report will be presented to the Board of Education and to the District English Learners Advisory Committee (DELAC) including recommendations for program improvement.

Parent Communication and Involvement

- A. Parents of English learners will be informed of changes to their child's programs and services. As mentioned previously, parents will be informed, on a regular basis, about their child's academic and language achievement.
- B. Every school having 21 or more English learners will have a functioning English Learner Advisory Committee (ELAC), with a representative elected to the DELAC. In addition, as required by State guidelines, when a district has 51 or more English learners, a functioning DELAC will be established. Training on ELAC and DELAC responsibilities will be planned and provided to committee members in collaboration with other departments as appropriate.
- C. Schools having 15 percent or more of their student population having a primary language other than English will send home all notices, reports, statements, or records pertaining to the student in English and the parents' primary language.

- 11.5 Adoption of a Resolution Approving the San Bernardino City Unified School District's School Facilities Needs Analysis, Adopting Alternative School Fees in Compliance with Government Code Sections 65995.5, 65995.6 and 65995.7
(Prepared by Facilities/Operations Division)

With the adoption of SB 50 and Proposition 1A in 1998, school districts that meet certain requirements have the option of adopting alternative school fees (“Alternative School Fees”),

Board of Education Meeting
March 21, 2006

also known as Level 2 Fees and Level 3 Fees, in accordance with Government Code Sections 65995.5, 65995.6 and 65995.7. (All further references are to the Government Code, unless indicated.) In general, Alternative School Fees, which are calculated for an individual school district, apply solely to residential construction within that school district and are in excess of the Level 1 Fee authorized by the State Allocation Board (“SAB”). Alternative School Fees are calculated per square foot of assessable space (“Assessable Space”) of new residential construction in the District as defined in Section 65995(b)(1). The Level 2 Fee, which amount is intended to represent fifty percent (50%) of a school district’s school facility costs, applies when the SAB is apportioning State Funding to school districts in California. The Level 3 Fee, on the other hand, is intended to represent one hundred percent (100%) of a school district’s school facility costs.

In order to impose Alternative School Fees, the District must prepare and adopt a School Facilities Needs Analysis (“SFNA”). Therefore, pursuant to Section 65995.5(b), the District has caused David Taussig & Associates to prepare a 2006 SFNA, (“2006 SFNA”) on behalf of the San Bernardino City Unified School District (“District”).

In compliance with Section 65995.6(a), the 2006 SFNA includes projections of the number of unhoused elementary, middle, and high school pupils generated by various types of new residential units in each category of pupils enrolled in the District. The projection of unhoused pupils is based on the historical generation rates of new residential units constructed during the previous five years that are of a similar type of unit to those anticipated to be constructed either in the District or the city or county in which the District is located, and relevant planning agency information, such as multi-phased development projects, that may modify the historical figures. In accordance with Section 65995.6, the 2006 SFNA also contains a calculation of existing school building capacity, calculated pursuant to Education Code Section 17071.10. The existing school building capacity has been recalculated pursuant to Section 65995.6(a).

Pursuant to the 2006 SFNA, the Level 2 Fee amount has been calculated as \$5.24 per square foot of assessable space for new residential construction within the District. The Level 3 Fee amount has been calculated as \$10.47 per square foot of assessable space for new residential construction; however, the Level 3 Fee has been suspended as set forth in Section 65995.7(a)(2).

The 2006 SFNA must be adopted by resolution following a public hearing conducted by the Board. The Board conducted a public hearing and received public comments relating to the adoption of the SFNA on March 7, 2006. The 2006 SFNA has been on file and available for public review at the District’s offices since February 3, 2006. Pursuant to Section 65352.2(c), prior to the completion of the 2006 SFNA, the Board caused notice and any relevant and available information relating to the potential expansion of existing school sites or the necessity to acquire additional school sites, including a notice of the preparation of the 2006 SFNA and offered to meet to discuss this information, to the planning commission(s) or agency(ies) of the cities and counties with land use jurisdiction within the District. In addition, the 2006 SFNA was provided to the local agencies responsible for land use planning within the District for review and comment during the thirty (30) day public review period. Notice of the time and place of the

public hearing, including the location and procedure for viewing a copy of the 2006 SFNA was also published in at least one newspaper of general circulation within the District's jurisdiction not less than thirty (30) days prior to the public hearing. A copy of the 2006 SFNA was mailed not less than thirty (30) days prior to the public hearing to any person who made a written request therefor forty-five (45) days prior to the public hearing.

It is recommended that the following resolution be adopted:

NOW THEREFORE, THE BOARD OF EDUCATION OF THE SAN BERNARDINO CITY UNIFIED SCHOOL DISTRICT DOES HEREBY RESOLVE, DETERMINE, AND ORDER AS FOLLOWS:

Section 1. That the Board does hereby find and determine that the foregoing recitals and determinations are true and correct, including not by way of limitation, its adoption of and/or responses to both written and oral comments received by the District, if any.

Board of Education Meeting
March 21, 2006

Section 2. That the Board does hereby find and determine that the 2006 SFNA meets all applicable legal requirements, and it hereby adopts each of the findings set forth in the 2006 SFNA.

Section 3. That a District Representative made a timely application to the SAB for new construction funding for which it is eligible.

Section 4. That the District received notification from the SAB that the District meets the eligibility requirements for new construction funding pursuant to the provisions of the SFP.

Section 5. That for purposes of Government Code Section 65995.5(b)(3): (i) the District has issued debt or incurred obligations for capital outlay in an amount equivalent to at least thirty percent (30%) of its local bonding capacity, (ii) at least twenty percent (20%) of the teaching stations within the District are relocatable classrooms, (iii) a substantial enrollment of the District's students are on a multi-track, year-round calendar, and (iv) the District has placed at least one general obligation bond measure on the ballot in the last four years and received at least 50% plus one of the votes cast.

Section 6. That the District has caused to be prepared the 2006 SFNA, which is on file at the District office address and incorporated herein by this reference, which complies with all applicable statutory requirements, including the provisions of Government Code Section 65995.6.

Section 7. That the Board hereby approves and adopts the 2006 SFNA for the purpose of establishing ASFF as to future new residential construction within the District, subject to the suspension of Level 3 Fees as set forth in Government Code Section 65995.7(a)(2).

Section 8. That the Board finds that the purpose of the ASFF imposed upon residential construction are to fund the additional School Facilities to serve the students generated by the residential construction upon which the ASFF are imposed as provided in the 2006 SFNA and applicable law.

Section 9. That the Board finds that the ASFF are hereby established as applicable to the extent set forth herein, and will be used to fund those School Facilities described in the 2006 SFNA, and such fees that these School Facilities are to serve the students generated by the new residential construction within the District as provided in the 2006 SFNA.

Section 10. That the Board finds that there is a roughly proportional, reasonable relationship between the use of the ASFF and the new residential construction within the District because the ASFF imposed on new residential construction by this Resolution will be used to fund School Facilities which will be used to serve the students generated by such new residential construction in accordance with applicable law as set forth in the 2006 SFNA, and such fees are less than an estimated actual cost of the School Facilities estimated to result from the new residential construction as set forth in the 2006 SFNA.

Section 11. That the Board finds that there is a roughly proportional, reasonable relationship between the new residential construction upon which the ASFF are imposed, and the need for additional School Facilities in the District because new students will be generated from new residential construction within the District, and the District does not have sufficient capacity in the existing School Facilities to accommodate these students.

Section 12. That the Board finds that the amount of the ASFF imposed on new residential construction as set forth in this Resolution is roughly proportional and reasonably related to, and does not exceed the cost of, providing the School Facilities required to serve the students generated by such new residential construction within the District.

Section 13. That the Board finds that a separate fund ("Fund") of the District and two (2) or more sub-funds ("Sub-Funds") have been created or are authorized to be established for all monies received by the District for the deposit of Level 1 Fees, Level 2 Fees and Level 3 Fees (if applicable) imposed on residential construction within the District, as well as Commercial/Industrial Fees and mitigation payments ("Mitigation Payments") collected by the District and that said Fund and Sub-Funds at all times have been separately maintained, except for temporary investments, with other funds of the District as authorized by applicable law.

Section 14. That the Board finds that the monies of the separate Fund or the separate Sub-Funds, described in Section 13, consisting of the proceeds of Level 1 Fees, Level 2 Fees and Level 3 Fees (if applicable), Commercial/Industrial Fees and Mitigation Payments have been imposed for the purposes of constructing those School Facilities necessitated by new residential construction and as further set forth in the 2006 SFNA, and thus, these monies may be expended for all those purposes permitted by applicable law.

Section 15. That the 2006 SFNA determines the need for new School Facilities for unhoused pupils that are attributable to projected enrollment growth from the construction of new residential units over the next five (5) years, based on relevant planning agency information and the historical generation rates of new residential units constructed during the previous five (5) years that are of a similar type of unit to those anticipated to be constructed within the District, and/or the County.

Section 16. That the Board has identified and considered, and/or subtracted, as set forth in the 2006 SFNA, the following information in determining amounts of the Level 2 Fees and Level 3 Fees:

- (a) any surplus property owned by the District that can be used as a school site or that is available for sale to finance school facilities pursuant to Government Code Section 65995.6(b)(1);
- (b) the extent to which projected enrollment growth may be accommodated by excess capacity in existing school facilities pursuant to Government Code Section 65995.6(b)(2);

Board of Education Meeting
March 21, 2006

(c) local sources other than fees, charges, dedications, or other requirements imposed on residential construction available to finance the construction of school facilities needed to accommodate any growth in enrollment attributable to the construction of new residential units pursuant to Government Code Section 65995.6(b)(3); and

(d) the full amount of local funds the Board has dedicated to facilities necessitated by new construction, including fees, charges, dedications or other requirements imposed on commercial or industrial construction pursuant to Government Code Section 65995.5(c)(2).

Section 17. That the Board has calculated, as set forth in the 2006 SFNA, the maximum square foot fees, charges, or dedications to be established as ASFF that may be collected in accordance with the provisions of Government Code Sections 65995.5(c) and 65995.7(a).

Section 18. That notice and relevant and available information relating to the potential expansion of existing school sites or the necessity to acquire additional school sites, including notice of a proposed meeting regarding such information, was provided to City and County planning officials or agencies with land use jurisdiction within the District prior to the completion of the 2006 SFNA.

Section 19. That the 2006 SFNA in its final form has been made available to the public for a period of not less than thirty (30) days, and that the District has made itself available to meet with any affected city or county to discuss the preparation of the 2006 SFNA, pursuant to the requirements of Government Code Section 65352.2.

Section 20. That the public has had the opportunity to review and comment on the 2006 SFNA, and the Board has responded to both written and oral comments it has received, if any, regarding the 2006 SFNA.

Section 21. That in responding to written comments pursuant to Government Code Section 65995.6(c), the Board does hereby adopt any and/or all such response(s) made by District staff and/or its consultants as its own response(s), and/or adopts such response(s) as modified by the Board at the public hearing.

Section 22. That notice of the time and place of the public hearing to adopt the 2006 SFNA (“Hearing”), including the location and procedure for viewing or requesting a copy of the proposed 2006 SFNA has been published in at least one newspaper of general circulation within the jurisdiction of the District at least thirty (30) days prior to the Hearing.

Section 23. That the District has caused to be mailed a copy of the 2006 SFNA not less than thirty (30) days prior to the Hearing to any person who made a written request forty-five (45) days prior to the Hearing.

March 21, 2006

Section 24. That the 2006 SFNA has been provided to all local agencies responsible for land use planning for review and comment in compliance with Government Code Section 65995.6(c).

Section 25. That the Board conducted the required public hearing on March 7, 2006, at which time all persons desiring to be heard on all matters pertaining to the 2006 SFNA were heard, and at which time, the Board requested that responses to comments received be presented for the Board's consideration at the March 21, 2006 Board meeting.

Section 26. That the Board hereby adopts ASFF and establishes the ASFF on new residential construction projects within the District in the following amounts:

(c) However, these amounts shall not be imposed on any construction project used exclusively for housing senior citizens, as described in Civil Code Section 51.3, or as described in subsection (k) of Section 1569.2 of the Health and Safety Code or paragraph 9 of subdivision (d) of Section 15432 of the Government Code or any mobile home or manufactured home that is located within a mobilehome park, subdivision, cooperative or condominium for mobilehomes limited to older persons as defined by the Federal Fair Housing Amendments of 1988. Additionally, Level 3 Fees shall not be levied by the District until authorized by Government Code Section 65995.7(a)(2).

Section 27. That ASFF, upon adoption and during the effective period thereof, are applicable to residential construction in lieu of Level 1 Fees in accordance with applicable law, except that Level 3 Fees are suspended pursuant to Government Code Section 65995.7(a)(2).

new residential construction is subject to the ASFF increased pursuant to this Resolution, and requesting that no building permit or approval for occupancy be issued by any of these entities for any new residential construction project, mobilehome or manufactured home subject to the ASFF absent a certificate of compliance (“Certificate of Compliance”) from this District demonstrating compliance of such project with the requirements of the ASFF, nor that any building permit be issued for any nonresidential construction absent a certification from this District of compliance with the requirements of the applicable ASFF.

Section 30. That the Superintendent, or designee, is authorized to cause a Certificate of Compliance to be issued for each construction project, mobilehome and manufactured home for which there is compliance with the requirement for payment of the ASFF in the amounts specified by this Resolution. In the event a Certificate of Compliance is issued for the payment of ASFF for a construction project, mobilehome or manufactured home, and it is later determined that the statement or other representation made by an authorized party concerning the construction project as to square footage is untrue or in the event the zoning is declared invalid, then such Certificate of Compliance shall automatically terminate, and the appropriate City or County shall be so notified.

Section 31. That regarding the timely provision of a Certificate of Compliance by the District for residential construction, although not required by applicable law, the Board hereby determines that the 2006 SFNA is a proposed construction plan for purposes of requiring payment of ASFF prior to the issuance of any building permit for new residential construction in accordance with Government Code Section 66007, and that all ASFF are appropriated for the purpose of accomplishing such construction plan.

Section 32. That no statement or provision set forth in this Resolution, or referred to therein shall be construed to repeal any preexisting fee or mitigation amount previously imposed by the District on any residential or nonresidential construction.

Section 33. That if any portion or provision this Resolution is held to be invalid, the remaining provisions of this Resolution are intended to be and shall remain valid.

Section 34. That if the Level 2 Fees and/or the Level 3 Fees are held to be invalid (other than the suspension under Government Code Section 65995.7(a)(2)), Statutory School Facility Fees, in amounts determined by applicable law at such time, are intended to be, and shall remain, in full force and effect.

Section 35. That the ASFF adopted by this Resolution shall take effect immediately upon such adoption and shall be effective for a maximum of one year, subject to the suspension of Level 3 Fees as set forth in Government Code Section 65995.7(a)(2).
