- 2.1 Bing S. Wong Kindergarten and Middle School Scholarship Awards
(Prepared by Human Resources Certificated Office)

The Bing S. Wong Scholarship Foundation was organized on September 18, 1963, as a nonprofit corporation. To date, the Foundation has awarded over \$600,000.00 to nearly 600 outstanding students from the San Bernardino City Unified School District. The Foundation has established programs where two kindergarten students from each elementary school and two seventh grade students from each middle school are recognized with scholarship savings accounts each year. The purpose of these awards is to encourage young students and their parents to start thinking about college at an early age. Students who receive the Kindergarten, Middle, and High School Bing Wong Scholarships are eligible for the Triple Crown Bonus which awards additional funds for college.

For 2007, 80 kindergartners and 16 middle school students have been selected as Bing Wong scholarship recipients and are eligible to open scholarship accounts to begin their preparation for funding higher education. Mr. Art Gallardo and Dr. Harold Vollkommer, who are members of the Bing S. Wong Scholarship Foundation, will make the scholarship award presentations.

- 2.2 In Recognition of Substitute Educators Day
(Prepared by the Communications Office)

WHEREAS substitute educators, who work in a variety of roles from clerical to instructional, are a vital part of the education profession, providing a balanced education for all students; and

Board of Education Meeting
November 6, 2007

WHEREAS the Board of Education of the San Bernardino City Unified School District joins others around the nation in recognizing Friday, November 16, 2007, as Substitute Educators Day; and

WHEREAS substitute educators provide a critical link in the education of public school children by serving as a bridge to provide continued quality education to students in the temporary absence of regular classroom educators; and

WHEREAS every year, the San Bernardino City Unified School District employs hundreds of substitute employees, whose assignments can range from brief to long term, but nonetheless are essential partners in the education process;

THEREFORE, BE IT RESOLVED that the Board of Education of the San Bernardino City Unified School District encourages all schools in the District to set aside Friday, November 16, 2007, to acknowledge the great contributions substitute employees make to our students and our schools each day.

4.1 Review of Charter Petition Element Amendments for Prime Academy of Excellence (PRIME) (Prepared by Student Services Division)

The San Bernardino City Unified School District Board of Education did not act on the approval of the charter petition for Prime Academy of Excellence on October 2, 2007. District staff found that the petition did not contain reasonable comprehensive descriptions of the entire element requirements stipulated in California Education Code sections 47605-47608. The Board of Education decided to allow the petitioner to amend those elements that were deficient and resubmit for Board review at the board meeting of November 6, 2007. The following are the District staff responses to the amended elements.

Element 1: The original petition findings indicated that the petitioner did not state how students would meet grade level standards and was not clear as to how the school would meet the needs of English learners. The program design appeared more appropriate for students in Grades 9-12.

Board of Education Meeting
November 6, 2007

The amendment to this element states that PRIME Academy shall use the California grade level standards of instruction as the basis for its instructional strategies and processes and curricular offerings shall address the grade level standards addressed by each activity. It states that the petitioner will adopt the District's interim assessment measures to determine that students are meeting grade level standards. The petitioner submitted a curriculum framework that describes the course work for high school students that would meet the high school graduation requirements and included the requirement of high school students passing the California High School Exit Exam to enable them to graduate from high school.

The amendment responded to the need to address English learners. It states that PRIME will adhere to the U.S. Department of Education Title 1, Part A of the Elementary and Secondary Act of 1965 as amended by the NCLB Act on the assessment and accountability for recently arrived and former limited English proficient students. The amendment states that English learners are included in the assessments of academic achievement in reading/language arts and mathematics and PRIME will provide them with appropriate accommodations. PRIME will be guided by the Office of English Language Acquisitions (OELA), National Clearinghouse for English Language Acquisition and Language Instruction Educational Programs (NCELA), which collects, analyzes, synthesizes, and disseminates information about language instruction educational programs for English learners and related programs.

Findings: The amendment adequately addresses how PRIME will assure that students meet grade level standards. The amendment does not clearly describe how the school would meet the needs of English learners. This amended Element 1 is not substantially complete.

Element 2: The original petition did not include how students would prepare and test for the California High School Exit Exam (CAHSEE).

The amended element states that PRIME will require that each student meet the District's requirements for high school graduation and pass the CAHSEE. To meet this CAHSEE requirement, CAHSEE test preparation shall be included in the English/language arts and mathematics curricular instructions in the classroom. It states that, in addition, two-week special review classes in these two curricular areas shall be offered periodically to all students to improve their knowledge base, enhance their test-taking skills, and strengthen their personal confidence.

Findings: This amendment meets the requirements for Element 2, but is limited in terms of the intervention and support planned to assist students in preparing for the test. Test preparation lessons in English/language arts and math classes and "two-week special review classes offered periodically" will not provide all students with needed academic support and instruction necessary to pass the CAHSEE.

Element 5: The original petition partially met this requirement. The petition had to describe the process to be used to provide for the inspection and/or monitoring of credentials.

Board of Education Meeting
November 6, 2007

The amended element states that PRIME will verify annually the validity of teaching credentials through the Commission's Online Verification System along with a hard copy of a credentialing certificate from the commission.

Findings: This amendment meets the requirement for Element 5.

Element 6: The original petition stated that PRIME will require each employee to furnish a criminal record summary, suggesting that this will be left to the employee. This does not meet the Department of Justice clearance requirements of Education Code section 44237. The petition did not state that employees will be required to submit a TB clearance certificate as a condition of employment, which is an Education Code requirement. The petition did not state compliance with National Safety Institute's playground safety regulations.

The amended element states that PRIME will require all employees as a condition of employment to have a fingerprint clearance certificate to meet the Department of Justice clearance requirements of Education Code section 44237 and a TB clearance certificate that the Education Code mandates. Licensed employees will be required to participate in the Nonviolent Crisis Intervention Program. PRIME will be in compliance with the National Safety Institute's playground safety regulations.

Findings: The amendment states that all employees will be required to have a "fingerprint clearance certificate." The amendment still does not clarify the process to be used to complete the Education Code requirement for fingerprinting. The amendment still does not address the procedures for ongoing TB clearance requirements (renewal every four years). The amended Element 6 does not meet the requirements.

Element 9: The original petition partially met this element requirement. The petition did not mention which system and process would be used to pay PRIME employees as well as vendors. The petition also did not mention their source of start-up funds for operating the program.

The amended element describes a process to be used to pay vendors and employees. It does not state which system it will use to pay their employees as well as their vendors. The sources of start-up funds for operating the program will come from philanthropic grants from grant-making foundations provided they are not contrary to the applicable law or the school's charter agreement and charter school block grant established by AB1115, which provides that "block grant funding may be used for any purpose determined by the governing body of the school."

Findings: A financial system was not described by the petitioner. This is an important requirement as the charter must adopt their budget in the same manner as the District to comply with the state's budget adoption timelines. The start-up funds for operating the program are tentative as the petitioner expects some of the funding to come from philanthropic grants. The requirements for Element 9 are not substantially met.

Board of Education Meeting
November 6, 2007

Element 10: The original petition stated that PRIME intends to establish its own suspension and expulsion policies. Suspensions and expulsions have to follow Californian Education Code section 48900.

The amended element states that PRIME will align its student discipline policies according to the provisions of Education Code section 48900.

Findings: The amendment meets the requirements for Element 10.

Element 12: The original petition stated that PRIME will provide written material that will include a section to inform parents or guardians of each student enrolled in PRIME that the students have no right to admissions in a particular school of any local education agency as a consequence of enrollment in PRIME, except to the extent that such right is extended by the local education agency.

The amended element states that PRIME recognizes the student's right to return to a District school or attend another charter school.

Findings: The amendment meets the requirements for Element 12.

Element 14: The original petition contained language that limits the District's ability to execute its responsibility for oversight. The procedure to resolve disputes was time consuming and the condition to engage a third party mediator would restrict the District's ability to take any action it deems necessary.

The amended element states that the language used to resolve disputes for a minimum of two and one-half months is purely procedural and does not negate the District's ability to take any action it deems appropriate under the law. The amendment refers to the last paragraph of Section A of the original Element 14, which categorically states that the District reserves the right to take any action it deems appropriate to ensure the safety of students.

Findings: The lengthy procedures stated in the original element make references to the terms of the charter "or other issue regarding PRIME." The amendment continues to use the language of the dispute process described in the original petition. The petition continues to restrict the District's oversight responsibilities. The District cannot approve the language in this element.

Conclusion: District staff does not recommend the approval of this petition as submitted. There are elements that are not sufficiently acceptable.

The District also recognizes the importance of involving our students in the health career pathways, which is the focus of the PRIME petition. Currently, the District offers the health career pathways at three high schools (Arroyo, San Geronio, and Pacific) and at the San Bernardino Adult School. The District has nine related courses that are offered within these programs: Introduction to Health Careers, Hospital Health Careers, Medical Assistant

Board of Education Meeting
November 6, 2007

(Administrative and Clinical), Medical Terminology, Introduction to Nursing Careers, Pharmacy Technician, Certified Nurses Assistant, and Sports Therapy and Fitness.

Through the San Bernardino County Superintendent of Schools Regional Occupational Program (ROP), additional health related courses are offered in surrounding school districts. ROP students will quite readily travel to surrounding areas to find courses that meet their career objectives and scheduling needs.

The variety and number of health career pathway courses offered in this community is substantial and the implications of adding additional programs are significant. Internship opportunities and obligations for "Community Classroom" hours are prevalent throughout the Health and Medical Career Pathway courses with 14 different courses requiring Community Classroom hours. The requirements for any given course range from 40 to 218 hours with an average of approximately 120 hours per course. This results in a substantial number of students seeking internship placements each year. Local clinics, medical offices, and hospitals have established limits to the number of interns they can and/or will accommodate at any given time. The provision of a new health careers charter school in this region would negatively impact access to the internship requirements for aspiring health career professionals already being served in San Bernardino.

It is recommended that the following resolution be adopted:

BE IT RESOLVED that the Board of Education adopts the District staff finding regarding the charter petition submitted by the Prime Academy of Excellence (PRIME).

It is further recommended that one of the following resolutions be adopted:

BE IT FURTHER RESOLVED that the Board of Education approves the charter petition submitted by Prime Academy of Excellence (PRIME).

Or

BE IT FURTHER RESOLVED that the Board of Education denies the charter petition of Prime Academy of Excellence (PRIME).
