2.1 Resolution in Support of Robles-Wong v. California, Litigation Challenging the State's School Finance System
(Prepared by Superintendent)

WHEREAS, education is a fundamental right of every child in California; and

WHEREAS, California's constitution requires a public school system that prepares students to become informed citizens and productive members of society; and

WHEREAS, California has set clear requirements for what schools are expected to teach and what students are expected to learn; and

WHEREAS, the State has an obligation to maintain and support a school finance system that provides districts and county offices of education the resources necessary to meet these requirements; and

WHEREAS, California's school finance system is unsound, unstable, insufficient, and thus unconstitutional; and

WHEREAS, the State's school finance system prevents the San Bernardino City Unified School District from providing all of the education programs and services our students need to become proficient in the State's academic standards and to obtain a well-rounded education; and

WHEREAS, as a result of the broken school finance system, students are being denied the opportunity to master the required education program; and

WHEREAS, severe budget cuts over the last several years have made a dire situation worse by forcing districts to increase class size, lay off teachers, eliminate many programs necessary to support student learning and well-being; and

WHEREAS, the lawsuit, *Robles-Wong v. California*, filed on May 20, 2010 in Alameda County seeks to remedy the broken school finance system by (1) declaring it unconstitutional and (2) requiring State lawmakers to uphold their constitutional duty to design and implement a school finance system that provides all students equal access to the required education program; and

WHEREAS, filing this lawsuit was a last resort—the Governor and lawmakers have known for some time that the current school finance system is harming students, schools and districts, and they have done nothing to remedy the crisis; and

WHEREAS, the San Bernardino City Unified School District believes it is imperative to provide a sound, stable, and sufficient school finance system so that all children have equal educational opportunities;

NOW, THEREFORE, BE IT RESOLVED that the San Bernardino City Unified School District strongly supports *Robles-Wong v. California*, the litigation challenging the State’s school finance system.

2.2 California Jobs Budget
(Prepared by the Communications Department)

WHEREAS California is facing a \$17.9 billion general fund shortfall that threatens to compromise the quality of public education in the state; and

WHEREAS due to the state’s deficit, \$4.3 billion in Proposition 98 funding for schools and childcare programs will be cut and over 430,000 private sector, school, and local government jobs are threatened in other state budget proposals; and

WHEREAS the California Jobs Budget, introduced by Assembly Speaker John A. Pérez, could resolve the state’s budget deficit by creating and saving jobs and closing the deficit; and

WHEREAS the California Jobs Budget includes a \$10.1 billion jobs and economic stability fund that saves jobs, protects public school funding, and rejects the \$4.3 billion in Proposition 98 cuts found in other budget proposals; and

Board of Education Meeting
July 6, 2010

WHEREAS the California Jobs Budget fully supports the state’s constitutional requirement to fund Prop 98 and ensures that \$3.8 billion would be repaid to local school districts;

THEREFORE BE IT RESOLVED that the members of the Board of Education of the San Bernardino City Unified School District supports the California Jobs Budget as proposed.

SESSION THREE –Public Hearing

Board of Education Meeting
July 6, 2010

4.1 Project Labor Agreement
(Prepared by Superintendent's Office)

At the December 1, 2009 Board of Education meeting, members of the Inland Congregations United for Change (ICUC) asked the District to consider engaging in a Project Labor Agreement (PLA) for our building program. At the Board's request, the Facilities/Operations Department presented a report on the effect a PLA would have on the District at the regular meeting on March 16, 2010. After hearing the report, the Board requested additional information on the advantages and disadvantages of becoming a PLA District. Dr. Arturo Delgado held two meetings with those in favor of and those opposed to the District establishing a PLA, and he will present his findings to the Board of Education.

SESSION FIVE - Administrative Reports

5.0 *Administrative Reports*

5.1 School Improvement Grant Schools
(Prepared by Superintendent)

On May 25, 2010, the Board took action to select the Restart Plan as an intervention model for six School Improvement Grant (SIG) schools. Since that date, the State has indicated that they will prioritize the way they fund the school grants based on the model that they are most interested in seeing developed. We are hearing that the Restart Plan (charter schools) will not be one of their preferred choices.

The Turnaround model is one of their priorities. Although this model requires that we replace up to 50 percent of the teaching staff at the school, all but one of our schools designated as a Restart model qualify to be redesignated as Turnaround schools, based on the number of teachers that have left due to the early retirement incentive given to them this year.

At this time, the Board will be asked if they are satisfied that we can move forward with the change.

It is recommended that the following resolution be adopted:

BE IT RESOLVED that the Board of Education approves redesignating the Turnaround Plan as an intervention model for Davidson Elementary School, Hunt Elementary School, Rio Vista Elementary School, Wilson Elementary School, Shandin Hills Middle School, and/or Pacific High School.

5.2 International Baccalaureate Program – Approval for Change in Board Policy
6141.4 Instruction (First Reading)
(Prepared by Curriculum/Instruction & Accountability Division)

The International Baccalaureate (IB) Program through its Middle Years Program (MYP) and Diploma Program (DP) has been a tremendous asset to our District over the past many years, preparing high-achieving students for further studies in colleges and universities both at home and abroad. Recently, the IB Organization directed San Bernardino City Unified School District *to create a clear pathway supported by policy that not only allows, but encourages students to complete all five years of the MYP...submit a policy and other evidence that would be communicated within the school and parent communities which would demonstrate how this issue will be resolved.* The change in policy marks a need based on the accreditation requirements from the IB Organization. As Chavez and Cajon have partnered in writing a planned proposal together, the IB Organization denotes them as one school and requires a clear articulation for students who enter the MYP at Chavez Middle School to be able to complete the balance of the MYP in high school. Since MYP for grades 9-10 is offered at both Arroyo Valley High School and Cajon High School, both of these schools allow students the option to complete the MYP. Without action to present to the IB Organization that illustrates our ability to have students finish the MYP, there is potential for the MYP not to be authorized as such.

BP 6141.4 Instruction

International Baccalaureate Program

The Board of Education recognizes the value of diverse academic offerings, and it encourages schools to explore opportunities for meeting the needs of all our students. Programs developed and sponsored by the International Baccalaureate Organization (IBO) provide one set of options. The Board directs the Superintendent or designees to create regulations that would guide interested schools in the application for implementing such a program. The criteria and process must be clear and obtainable for each school community that wishes to pursue an IB program. Toward that end, the Board recognizes that sufficient human and budgetary resources must be available to allow successful implementation of approved programs.

Introduction

Founded in 1968 and currently implemented in well over 100 countries, the IBO offers a set of three "distinctive yet complementary" programs for students in grades K-12. The Primary Years Program (PYP) serves grades K-5; the Middle Years Program (MYP) serves grades 6-10; and the Diploma Program serves grades 11-12. Although the specific objectives and approaches of each program vary in order to accommodate the developmental needs of particular age groups, at the heart of the overall IB philosophy is the belief that students learn best when they are actively engaged in mastery of content and acquisition of skills relevant to their lives as individuals and as members of a global community.

The International Baccalaureate Mission Statement

Board of Education Meeting
July 6, 2010

“The International Baccalaureate aims to develop inquiring, knowledgeable and caring young people who help to create a better and more peaceful world through intercultural understanding and respect.

To this end the organization works with schools, governments and international organizations to develop challenging programmes of international education and rigorous assessment.

These programmes encourage students across the world to become active, compassionate and lifelong learners who understand that other people, with their differences, can also be right.”

Instructional Model

- Inquiry-based instruction emphasizing critical thinking and fostering independence in learners
- Interrelatedness of skills and integrated approaches to learning in the content areas
- Culminating projects and criterion-referenced assessments
- Internationalism (including the study of foreign language) and multicultural perspectives
- Community-based projects and service-oriented experiences

Relationship of Programs

The IBO itself describes the three programs as "distinctive yet complementary." No one program is a necessary prerequisite to any other, nor does successful completion of one guarantee automatic entry into another. The relationship among the three programs may be understood as a pyramid. PYP occupies the base, offering a program suitable for all elementary students of widely ranging abilities; MYP sits in the middle, offering greater academic challenges for motivated students; the Diploma program is at the apex of the pyramid, offering a rigorous pre-university course of study leading to externally assessed examinations and the potential for college credit.

The Board agrees that articulation among staff at the three programs is crucial, and further recognizes that adequate staff development and training is required to successfully implement the programs and assure continued authorization by the IBO.
