

# PYP Parent Connection!

Inquiry into your child's classroom!

## Welcome Back!

### Link IB World School's Mission Statement

Link IB World School, in a mutually respectful partnership with our community, strives to develop the whole child: their heart as well as their mind. Our vision is to create inquisitive, self-motivated, compassionate, lifelong learners who value knowledge, creativity, diversity and international mindedness. Through our inquiry based, transdisciplinary program, our students are empowered to become responsible learners, collaborative thinkers, risk takers, and creative problem solvers, possessing the desire to positively impact our ever-changing world.

### **How is IB different?**

The IB program strives to develop students who will build a better world through intercultural understanding and respect.

The IB program is different because they:

- Encourage all students to think critical and challenge assumptions.
- Encourage all students to consider both local and global contexts.
- Develop multilingual students.

### Learner Profiles

IB programs promote the education of the whole person, encompassing intellectual, personal, emotional and social growth through all areas of knowledge. By focusing on a combination of knowledge, skills, critical and creative thought and international-mindedness, the learner profiles show the profile of a lifelong learner.

## School Happenings!

"The Right to Peace" - Link Students Celebrate the 37th year of International Day of Peace

We are a World School and in such we participate and celebrate this day every year. Our hope is the continuity of spreading our words and thoughts of peace around the world. We hope that the celebration taught our community different ways to spread their own thoughts and words for peace.
