SAU Building Expendable Trust

Last year’s proposed use of this trust was to remove the bathtub in the SAU building and replace it with a hallway so that one office is not the egress for 5 other employees. The original estimate was \$15,000. Once the costing was finished, it was clear that we required more funding to complete the project. There were a couple of unanticipated challenges with plumbing and then the ever present post-Covid increase in labor and materials caused a need to request additional funding.

FY23 Request: Bathtub to Hallway – Estimated Additional Cost up to \$22,000

Current Balance:	\$88,982
To be added in FY23:	23,970
