

Springfield-Clark CTC provides high-quality, hands-on career technical education programs that help students become Career Ready, College Ready, and Life Ready. SCCTC, in collaboration with Clark State College, Ohio College Tech Prep, the University of Dayton, and the Ohio Academy of Science offers Future Ready Career Kits for students in Grades 1-8. Kits are hands-on activities that students can complete at home (or in the classroom) to give experience in STEM and other problem-solving skills. Kits are free and covered by Career Awareness dollars from the state of Ohio.

FUTURE READY CAREER KIT

AGRICULTURE: GROW N' GO SEEDS

AGRICULTURE

A million Americans are employed in this career field. Agriculture is often considered one of the backbones of the American economy. The Agriculture Career Field has lots of exciting careers for anyone interested in everything from growing plants and soil to raising and taking care of animals like cattle, pigs and chickens. If you want to go into Agriculture, you can study Veterinary Science, Forestry, & Park Management or learn about the science of growing food.

Jobs in the Agriculture Career Field include farmers, veterinarians, landscaping, marine biologists, environmental analysts, park rangers, golf course maintenance, zoologists, and so many more!

If you are interested in learning more about the opportunities you have in the Agriculture Career Field, visit the SCCTC website at:

KIT DESCRIPTION

This kit contains everything you need to grow your own Zombie plant and plant your own Alien seeds.

MATERIALS IN THIS KIT

- Zombie plant seeds (with Fun Activities card)
- Alien seeds
- 2 plant bowls
- Soil for plant bowls -- Add water and the soil expands. Remove from the bag to plant your seeds in the soil.
- Extra seeds if you want to plant in other places!

DIRECTIONS

Read the back of each seed kit for directions.

The first steps are:

1. Please soak at least 3-4 seeds in water before adding soil. Keep them in a warm environment as it says in the directions.
2. After Step 1, use the soil packets and make sure you add water to them. They will expand to fill the pot. Remove soil from the bag before planting seeds.

Alien seeds grow in about 1 week. Zombie seeds grow in about 2 weeks. Use the Fun Activities Card and pick at least 2 questions or experiments to answer for each packet of seeds.
