## Overview & Resources

The School Performance Reports reflect the New Jersey Department of Education's (NJDOE) commitment to providing parents, students, and school communities with a large variety of information about each school and district. These reports can be used as a tool to help evaluate whether all students have equitable access to high quality education. We encourage you to use these reports to:

- **Learn** more about the school and the district
- **Start conversations** with school community members and ask questions
- **Engage** with school communities to identify where schools are doing well and where they can improve

**Important Notes for 2021-22 Reports:** The 2021-22 School Performance Reports include nearly all data that was previously reported prior to the COVID-19 pandemic, such as assessment results and accountability data. However, the 2021-22 reports will not include student growth as measured by median student growth percentiles (MSGPs) because individual student growth percentiles (SGPs) were not calculated for the 2021-22 school year due to lack of prior test results for the 2019-20 and 2020-21 school years. The student growth section of the reports will include a link to an alternate measure of academic progress that will be used for accountability determinations for the 2021-22 school year. As data over the last three years was impacted by the pandemic in various ways, the NJDOE recommends caution in comparing data from year to year.

**School Performance Report Resources:** The NJDOE has several resource documents that can help you understand and use the School Performance Reports, which can also be found under the "Resource Documents" link at the top of the page:

- One-page guides to help start conversations for [administrators](#), [educators](#), [elementary](#), and [middle and high school families](#)
- [Reference Guide](#) with details on all the data in these reports
- [Frequently Asked Questions](#)
- [Understanding Adjusted Cohort Graduation Rates](#)
- [Understanding Student Growth Percentiles](#)
- [Data Privacy Rules](#) (why you see \*s and N's in the reports)

Let the NJDOE know how we can improve future reports by taking our [feedback survey](#). Contact [reportcard@doe.nj.gov](mailto:reportcard@doe.nj.gov) with any questions about the reports

## Demographics

Enrollment data reflects enrollment reported at the end of the school year and only includes students attending the school. Students that attend programs at other schools or outside of the district are not included in enrollment counts and percentages.

### Enrollment Trends by Grade

This table shows the number of students enrolled by grade for the past three school years. Any students enrolled outside of the grades offered will be included in the total enrollment.

Grade	2019-20	2020-21	2021-22
9	431	453	449
10	464	419	432
11	444	433	388
12	432	435	404
<b>Total</b>	<b>1,771</b>	<b>1,740</b>	<b>1,673</b>

### Enrollment Trends by Student Group

This table shows the percentage of students by student group for the past three school years. 2019-20 was the first year that data was collected for non-binary/undesigned gender and, as a result, data may not be a true representation of the student population. Additionally, to protect student privacy, gender percentages for 2019-20 are rounded to the nearest 0.5 and percentages for 2020-21 and 2021-22 may show a range, depending on the overall school population size.

Student Group	2019-20	2020-21	2021-22
Female	49.5%	48.0%	48.0%
Male	50.5%	52.0%	52.0%
Non-Binary/Undesignated Gender	<1%	≤1%	≤1%
Economically Disadvantaged Students	34.3%	25.2%	26.5%
Students with Disabilities	15.4%	15.7%	15.8%
English Learners	2.6%	2.8%	3.4%
Homeless Students	0.2%	0.1%	0.0%
Students in Foster Care	0.1%	0.1%	0.0%
Military-Connected Students	0.2%	0.2%	0.3%
Migrant Students	0.0%	0.0%	0.0%

### Enrollment by Racial and Ethnic Group

This table shows the percentage of students by racial and ethnic group for the past three school years.

Racial And Ethnic Group	2019-20	2020-21	2021-22
White	39.3%	38.2%	38.3%
Hispanic	22.6%	24.4%	24.3%
Black or African American	17.6%	16.6%	16.3%
Asian	17.5%	17.7%	17.4%
Native Hawaiian or Pacific Islander	0.3%	0.2%	0.2%
American Indian or Alaska Native	0.3%	0.3%	0.5%
Two Or More Races	2.3%	2.6%	3.0%

## Demographics

Enrollment data reflects enrollment reported at the end of the school year and only includes students attending the school. Students that attend programs at other schools or outside of the district are not included in enrollment counts and percentages.

### Enrollment Trends by Full and Shared Time Status

This table shows the number of full and shared time students for the last three years. The full time equivalent is the number of full time students plus half the number of shared time students.

Enrollment Status	2019-20	2020-21	2021-22
Full Time Students	1,770	1,740	1,673
Shared Time Students	1	0	0
Full Time Equivalent	1,770	1,740	1,673

## Demographics

Enrollment data reflects enrollment reported at the end of the school year and only includes students attending the school. Students that attend programs at other schools or outside of the district are not included in enrollment counts and percentages.

### Enrollment by Home Language

This table shows the percentage of students by primary home language. Only the top 5 languages with at least 1% of students are shown, and students with other home languages are included in the Other Languages total. To see this data in a table, click the Table View option below the chart.

## Academic Achievement

This section of the reports includes results on statewide assessments, including the New Jersey Student Learning Assessment (NJSLA), the Dynamic Learning Maps (DLM), and the ACCESS for ELLs assessment. For more information about New Jersey's statewide assessments, see the [NJDOE's Assessment page](#).

**Important Note for 2021-22:** NJSLA data is not available for 2019-20 or 2020-21 due to federal waivers and assessment cancellations and DLM and ACCESS for ELLs data is not available for 2019-20. As data over the last three years was impacted by the pandemic in various ways, the NJDOE recommends caution in comparing data from year to year.

### English Language Arts and Mathematics Performance Trends

These graphs show trends in the Proficiency Rate for Federal Accountability over the last three years. The data includes the results of students taking both the New Jersey Student Learning Assessment (NJSLA) and the DLM alternate assessment for English language arts (ELA) and mathematics. The Proficiency Rate for Federal Accountability measures the percentage of students that met or exceeded expectations on the assessments (NJSLA or DLM) with an adjustment made if the participation rate is below 95% to ensure reporting on at least 95% of students. Students that were enrolled for less than half a school year are excluded from performance results. The table below provides participation rates, proficiency rates, annual targets and status in meeting the targets, and statewide proficiency rates.

**Important note for 2021-22:** Due to the cancellation of statewide assessments in 2019-20 and 2020-21, statewide assessment results are not available for the 2019-20 and 2020-21 school years.

**ELA Proficiency Rate for Federal Accountability**

**Math Proficiency Rate for Federal Accountability**

Performance Measure	2019-20 ELA	2020-21 ELA	2021-22 ELA	2019-20 Math	2020-21 Math	2021-22 Math

This section of the reports includes results on statewide assessments, including the New Jersey Student Learning Assessment (NJSLA), the Dynamic Learning Maps (DLM), and the ACCESS for ELLs assessment. For more information about New Jersey's statewide assessments, see the [NJDOE's Assessment page](#).

**Important Note for 2021-22:** NJSLA data is not available for 2019-20 or 2020-21 due to federal waivers and assessment cancellations and DLM and ACCESS for ELLs data is not available for 2019-20. As data over the last three years was impacted by the pandemic in various ways, the NJDOE recommends caution in comparing data from year to year.

### English Language Arts Assessment - Participation and Performance

This table shows performance on statewide assessments for English language arts (ELA) both overall and by student group. It includes the results of students taking both the NJSLA and DLM assessments. NJSLA results include only students in grades 3 through 9. Students that were enrolled for less than half a school year are excluded from performance results. Student are considered to have met or exceeded expectations if they score at Level 4 or 5 on the NJSLA assessment or at Level 3 or 4 on the DLM assessment.

This table shows both the percentage of students that met or exceeded expectations and a proficiency rate used for federal accountability. The proficiency rate for federal accountability will be lower if the participation rate is below 95%. This table also shows progress towards meeting the state's long term goal of 80% proficiency by 2032. Annual targets are specific to each subgroup, school, and district and represent the expected proficiency needed to stay on track to meet the state's long term goal. Student groups where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see the [NJDOE Accountability page](#). More information and additional data can also be found on the [NJDOE Academic Achievement page](#).

## Academic Achievement

### Mathematics Assessment - Participation and Performance

This table shows performance on statewide assessments for mathematics both overall and by student group. It includes the results of students taking both the NJSLA and DLM assessments. NJSLA results include students taking end-of-grade assessments in grades 3 through 8, as well as end-of-course assessments (Algebra I, Geometry, Algebra II) in middle school and high school. High school mathematics assessment results include all results for Algebra I and Geometry and/or Algebra II results only for students who took Algebra I in middle school and who are enrolled in their first high school mathematics course that corresponds to an end-of-course assessment. Students that were enrolled for less than half a school year are excluded from performance results. Student are considered to have met or exceeded expectations if they score at Level 4 or 5 on the NJSLA assessment or at Level 3 or 4 on the DLM assessment.

This table shows both the percentage of students that met or exceeded expectations and a proficiency rate used for federal accountability. ## Academic Achievement

This section of the reports includes results on statewide assessments, including the New Jersey Student Learning Assessment (NJSLA), the Dynamic Learning Maps (DLM), and the ACCESS for ELLs assessment. For more information about New Jersey's statewide assessments, see the [NJDOE's Assessment page](#).

**Important Note for 2021-22:** NJSLA data is not available for 2019-20 or 2020-21 due to federal waivers and assessment cancellations and DLM and ACCESS for ELLs data is not available for 2019-20. As data over the last three years was impacted by the pandemic in various ways, the NJDOE recommends caution in comparing data from year to year.

### Mathematics Assessment – Performance Trends

This graph shows the percentage of students who met or exceeded expectations on each grade level or end-of-course exam on the New Jersey Student Learning Assessment (NJSLA) for Mathematics for the past three years.

**Important note for 2021-22:** Due to the cancellation of statewide assessments in 2019-20 and 2020-21, statewide assessment results are not available for the 2019-20 and 2020-21 school years. Additionally, end-of-course assessment results for Geometry and Algebra II for 2018-19 and prior years included all students in middle school and grades 9 and 10. The requirements for high school testing changed in 2021-22 so that students are only required to take the NJSLA once in high school. Therefore, 2021-22 data for Geometry and Algebra II may not be comparable to data from 2018-19.

† Grade level results do not include students who took the Algebra I, Geometry, or Algebra II end of course tests.

### English Language Proficiency Test - Participation and Performance

This table shows, by years in district, the number of English learner students taking the ACCESS for ELLs 2.0 Assessment for English language proficiency and the percentage of students tested that received an overall score of 4.5 or above. Students must receive a score of 4.5 or higher to be considered for proficient status.

Years in District	# Students Tested	% Students with Overall Score Below 4.5	% Students with Overall Score 4.5 or Above
0-2	23	*	*
3-4	17	*	*
5 or more	*	*	*

### English Language Progress to Proficiency

This table shows the percentage of English Learners who demonstrated the expected amount of growth on the ACCESS for ELLs 2.0 Assessment for English Language proficiency. A student's expected growth is based on the student's initial year proficiency level and student growth expectations are increased by equal intervals each year so that the student meets the proficiency cut score of 4.5 within five years. The table shows the annual target for the percentage of students making expected growth and whether that target was met.

Student Group	Percent of English learners making expected growth to proficiency	Annual Target	Met Target?
Schoolwide/English Learners	18.2%	22.5%	Met Target†

† Target was met within one standard deviation.

## Academic Achievement

The New Jersey Student Learning Assessment for Science (NJSLA-S) measures student proficiency with the New Jersey Student Learning Standards for Science. All students in grades 5, 8, and 11 take the NJSLA-Science assessment. Students receive a score of Level 1, 2, 3, or 4 where levels 3 and 4 represent proficiency. Visit the [NJSLA-Science website](#) for more information about NJSLA-S. These results do not include students that took the Dynamic Learning Maps (DLM) Science assessment. Visit the [assessment reports page](#) for DLM results.

### NJSLA Science Assessment: Grade 11 Summary

This table shows how students performed on the NJSLA Science assessment. Students scoring at Level 3 or 4 are considered proficient.

**Important note for 2021-22 Reports:** Due to the cancellation of statewide assessments in 2019-20 and 2020-21, statewide assessment results for NJSLA Science are not available for the 2019-20 and 2020-21 school years.

## College and Career Readiness

Information about participation and performance on the PSAT, SAT, and ACT exams comes directly from College Board and ACT.

**Important Note for 2021-22:** As data over the last three years was impacted by the pandemic in various ways, the NJDOE recommends caution in comparing data from year to year.

### PSAT, SAT, & ACT - Participation

This table shows information about participation on the PSAT, SAT, and ACT exams. PSAT participation is the percentage of 10th and 11th graders that took the PSAT 10 or PSAT NMSQT exam during the 2021-22 school year. SAT and ACT participation rates show the percentage of 12th graders that have taken the SAT or ACT this year or in prior years.

Participation Type	School Participation Rate	State Participation Rate
10th and 11th graders taking PSAT 10/NMSQT in 2021-2022	20.9%	77.7%
12th graders taking SAT in 2021-2022 or prior years	51.0%	60.8%
12th graders taking ACT in 2021-2022 or prior years	2.5%	8.8%

### PSAT, SAT, & ACT - Performance

This table shows how students performed on the PSAT, SAT, and ACT tests by subject area. The table includes average test scores, college readiness benchmarks, and the percentage of students that scored at or above these benchmarks. Benchmarks were defined by College Board and ACT and students that score at or above these benchmarks have a high chance of success in credit-bearing college courses.

Participation Type	School Average Score	State Average Score	College Readiness Benchmarks	School - Students Scores at or above Benchmark	State - Students Scores at or above Benchmark
PSAT 10/NMSQT - Reading and Writing	511	474	Grade 10: 430 Grade 11: 460	80.0%	61.0%
PSAT 10/NMSQT - Math	498	464	Grade 10: 480 Grade 11: 510	55.0%	36.0%
SAT - Reading and Writing	534	538	480	71.0%	68.0%
SAT - Math	533	532	530	49.0%	49.0%
ACT - Reading	25	25	22	70.0%	67.0%
ACT - English	24	25	18	80.0%	81.0%
ACT - Math	23	24	22	70.0%	62.0%
ACT - Science	23	24	23	60.0%	59.0%

## College and Career Readiness

Students in high schools begin to demonstrate college readiness behaviors long before they actually graduate from high school. These include participating in advanced course work such as **Advanced Placement (AP)** or **International Baccalaureate (IB)** courses and exams and **dual enrollment** courses where high school students can enroll in college courses for credit.

### AP/IB Coursework – Participation and Performance

This chart shows the percentage of 11th and 12th graders who enrolled in one or more AP or IB courses, who took one or more AP or IB exams, and who had one or more exams with an AP score of 3 or higher or IB score of 4 or higher.

#### Students enrolled in one or more AP or IB course

#### Students taking one or more AP or IB exam

#### Students with one or more exams with a score of at least 3 on AP exams or 4 on IB exam

### Dual Enrollment Coursework - Participation

This graph shows the percentage of 11th and 12th graders who were enrolled in at least one dual enrollment course during the school year. Dual enrollment courses allow high school students to enroll in college courses for credit prior to their high school graduation.

## College and Career Readiness

Students in high schools begin to demonstrate college readiness behaviors long before they actually graduate from high school. These include participating in advanced course work such as **Advanced Placement (AP)** or **International Baccalaureate (IB)** courses and exams and **dual enrollment** courses where high school students can enroll in college courses for credit.

### AP/IB and Dual Enrollment Participation by Student Group

This table shows the percentage of 11th and 12th graders who were enrolled in one or more AP or IB and dual enrollment courses, with a comparison to the state.

### AP/ IB Courses Offered

This table shows the list of AP/IB Courses that were offered by the school or for which students took the corresponding AP/IB exam along with the number of students enrolled and the number of students taking the exam. Students do not need to take a course to take the exam and not all students enrolled in a course take the exam. The last two rows show the total number of exams taken and the number of exams with AP scores of 3 or higher or IB scores of 4 or higher. Students who take multiple examples are counted more than once in the last two rows.

### Career and Technical Education Participation

The graphs below show the percentage of students in grades 9 through 12 who were enrolled in courses in approved Career and Technical Education (CTE) programs. Students enrolled in shared-time Career and Technical Education programs in a county vocational school district are included in the percentages for both the county vocational school and their sending school.

#### CTE Participants

(completed only one course in an approved CTE program)

#### CTE Concentrators

(completed two or more courses in a single approved CTE program and/or completed the entire CTE program)

### Structured Learning Experiences Participation

The graph below shows the percentage of students in grades 9 through 12 who participated in Structured Learning Experiences (SLEs) during the school year. SLEs include work-based learning (WBL) programs. Examples of WBL experiences include job shadowing, school-based enterprise, community service, service learning, volunteering, completion of all six New Jersey Safe Schools Program Online Topical Courses during the fall semester of the 2021-2022 school year, internships, cooperative education experiences and apprenticeships. Depending on the type of WBL experience, these may be paid or unpaid.

For additional information about students in approved career and technical education (CTE) programs/programs of study who participated in WBL experiences during the school year, see the new WBL Participation by Career Cluster table.

### Work-Based Learning Participation by Career Cluster

This table shows the number of students in an approved CTE program/program of study in grades 9 through 12 who participated in a work-based learning experience during the school year. Work-based learning can include career exploration (e.g. community service, job shadowing, school-based enterprise, service learning, volunteering or the New Jersey Safe Schools Program Online Topical Courses completed during the fall semester of the 2021-2022 school year), career preparation (e.g. cooperative education experience or paid/unpaid internships), or career training (e.g. pre-apprenticeship/apprenticeship registered with the USDOL-OA). This table only includes students enrolled in an approved CTE program/program of study. See the Structured Learning Experiences table for information on all high school students (both CTE and non-CTE).

### Industry-Valued Credentials by Career Cluster

This table shows by Career Cluster the number of students enrolled in approved Career and Technical Education programs, the number of students that earned one or more industry-valued credential, and the total number of credentials earned. Students are only enrolled in one career cluster, but they may earn credentials in multiple clusters or earn multiple credentials within one cluster. Career Clusters without approved credentials are grayed out. Career Cluster rows will be hidden if no students were enrolled and no credentials were earned. The last row provides unique counts of students enrolled and students earning one or more credentials across all clusters.

## Graduation/ Postsecondary

Graduation rates are calculated based on the adjusted cohort graduation rate calculation. Beginning in the 2021-22 school year, the NJDOE was required to make changes to the methodology used to calculate the adjusted cohort graduation rate for federal reporting and accountability purposes. The United States Department of Education (USED) determined that the NJDOE must only include students who receive a diploma that is fully aligned with the state's standards, meaning they have met the state's graduation assessment requirements, course requirements, and local attendance requirements. This means that students who did not meet some or all graduation requirements because of modifications or exemptions in their Individualized Education Programs (IEPs) may not be counted as graduates in the calculations of the adjusted cohort graduation rate used for federal reporting and accountability purposes. It is important to note that this is only a change to how graduation rates are calculated for federal reporting. It does not affect requirements to earn a diploma or the type of diploma that the state awards to students with disabilities.

As a result of these changes, the NJDOE began calculating two versions of the adjusted cohort graduation rate starting with 2021 graduation rates. The "federal version" aligns with ESSA requirements and USED guidance and will be used for federal reporting and ESSA school accountability only. The "state version" continues to use the same methodology used prior to 2021 and reflects all students who received a state-endorsed diploma.

For the "federal version" of the 2022 graduation rates, students with disabilities who did not meet either the state course requirements, local attendance requirements, and/or state graduation assessment requirements for graduation because of a modification or exemption in their IEP were not included in the graduates count (the numerator), but they will remain in the adjusted cohort (the denominator). Because graduation assessment requirements were waived for 2021 graduates, the "federal version" of the 2021 graduation rate only excludes students with disabilities who did not meet either the state course requirements and/or local attendance requirements.

In this section of the reports, the Graduation Rate Trends and Progress charts and Graduation Cohort Profiles (4-Year, 5-Year, and 6-Year), as well as the graduation rates reported in the Summary Reports, reflect the "state version" of the graduation rate. The Federal Graduation Rates and Accountability Graduation Rates tables reflect the "federal version" of the graduation rate. More information and links to graduation resources can be found on the [NJDOE Graduation Rate page](#).

### Graduation Rate Trends and Progress

These graphs show the 4-year and 5-year adjusted cohort graduation rates for the most recent three cohorts of students. These charts and tables are based on the state graduation rate, which reflects all students who receive a state-endorsed diploma.

The "federal version" aligns with ESSA requirements and USED guidance and will be used for federal reporting and ESSA school accountability only. The "state version" continues to use the same methodology used prior to 2021 and reflects all students who received a state-endorsed diploma.

For the "federal version" of the 2022 graduation rates, students with disabilities who did not meet either the state course requirements, local attendance requirements, and/or state graduation assessment requirements for graduation because of a modification or exemption in their IEP were not included in the graduates count (the numerator), but they will remain in the adjusted cohort (the denominator). Because graduation assessment requirements were waived for 2021 graduates, the "federal version" of the 2021 graduation rate only excludes students with disabilities who did not meet either the state course requirements and/or local attendance requirements.

In this section of the reports, the Graduation Rate Trends and Progress charts and Graduation Cohort Profiles (4-Year, 5-Year, and 6-Year), as well as the graduation rates reported in the Summary Reports, reflect the "state version" of the graduation rate. The Federal Graduation Rates and Accountability Graduation Rates tables reflect the "federal version" of the graduation rate. ### Cohort 2021 5-Year Graduation Cohort Profile

This table shows the percentage of students in the 2021 cohort who graduated, who are still enrolled ("Continuing Students"), or who dropped out of school or are no longer enrolled ("Non-Continuing Students") within five years of entering high school, both overall and by student group. This table is based on the state version of the graduation rate, which reflects all students who received a state-endorsed diploma.

## Graduation/ Postsecondary

Graduation rates are calculated based on the adjusted cohort graduation rate calculation. Beginning in the 2021-22 school year, the NJDOE was required to make changes to the methodology used to calculate the adjusted cohort graduation rate for federal reporting and accountability purposes. The United States Department of Education (USED) determined that the NJDOE must only include students who receive a diploma that is fully aligned with the state's standards, meaning they have met the state's graduation assessment requirements, course requirements, and local attendance requirements. This means that students who did not meet some or all graduation requirements because of modifications or exemptions in their Individualized Education Programs (IEPs) may not be counted as graduates in the calculations of the adjusted cohort graduation rate used for federal reporting and accountability purposes. It is important to note that this is only a change to how graduation rates are calculated for federal reporting. It does not affect requirements to earn a diploma or the type of diploma that the state awards to students with disabilities.

As a result of these changes, the NJDOE began calculating two versions of the adjusted cohort graduation rate starting with 2021 graduation rates. The "federal version" aligns with ESSA requirements and USED guidance and will be used for federal reporting and ESSA school accountability only. The "state version" continues to use the same methodology used prior to 2021 and reflects all students who received a state-endorsed diploma.

### Federal Graduation Rates

This table shows the federal version of the 2022 4-year and 2021 5-year graduation rates. For 2022, students with disabilities who did not meet either the state course requirements, local attendance requirements, and/or state graduation assessment requirements for graduation because of a modification or exemption in their IEP were not included in the graduates count (the numerator) but were included in the adjusted cohort (the denominator). For accountability purposes, graduation data from the prior school year is used, so these graduation rates will be used when the NJDOE runs the accountability system for the 2022-23 school year (along with 2022-23 assessment, growth, and chronic absenteeism data) and will be included in the accountability profiles in fall 2023.

### Accountability Graduation Rates

This table shows Cohort 2021 4-year and Cohort 2020 5-year graduation rates both overall and by student group. For accountability and annual targets, graduation data from the prior year is used. These graduation rates are the "federal version" of the graduation rate for 2021, which means that students with disabilities who did not meet either the state course requirements and/or local attendance requirements are not included as graduates (the numerator), but they are included in the adjusted cohort (the denominator).

### Graduation Pathways

This table shows the percentage of Cohort 2022 graduates who met the [high school graduation assessment requirements](#) through each type of graduation pathway for both English Language Arts (ELA) and Math.

**Important Note for 2021-22 Reports:** Administrations of both state and national assessments were cancelled over the last two years, so caution should be used when comparing pathways for 2022 graduates with prior years.

Graduation Pathway	ELA Graduation Pathway	Math Graduation Pathway
Statewide Assessment	42.6%	49.1%

## Graduation/ Postsecondary

Information about students enrolling in colleges and universities after graduation is collected from the [National Student Clearinghouse](#), which collects data from at least 95% of higher education institutions nationwide.

**Important Note for 2021-22:** As data over the last three years was impacted by the pandemic in various ways, the NJDOE recommends caution in comparing data from year to year.

### Postsecondary Enrollment Rate Trends

The graph and table below show the percentage of graduates that have enrolled in 2-year and 4-year institutions within 16 months of graduating from high school for the last three years.

## Climate and Environment

Student absences provide important information about a school's culture and climate. Research shows that absences impact a student's ability to succeed in school. The New Jersey Department of Education used input from New Jersey communities to select chronic absenteeism as its measure of school quality and student success for the ESSA accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, whether excused, unexcused, or for disciplinary action, is considered absent unless permitted by state statute or regulations. Students with fewer than 45 days in membership are excluded from attendance calculations.

**Important Note for 2021-22:** The NJDOE recommends caution in comparing the 2021-22 chronic absenteeism rates with the rates from 2020-21 and rates prior to 2019-20 as the pandemic has impacted attendance rates over the last three years.

### Chronic Absenteeism

This table shows the number and percentage of students in grades K-12 both overall and by student group who were chronically absent during the school year. The last two columns show the chronic absenteeism state average for students in the grades offered and whether the rate for each student group was above the state average ("Not Met") or less than or equal to the state average ("Met").

## Climate and Environment

The New Jersey Department of Education collects data through the Student Safety Data System (SSDS). In addition to the data below, NJDOE is required, under ESSA, to report on the most recent, publicly-available Civil Rights Data Collection (CRDC) data, which can be found on the [NJDOE School Performance webpage](#). Please note that prior to school year 2017-2018, the CRDC and the State collection system, EVVRS, did not collect the same data elements. In an effort to better align the State system with the CRDC, the new Student Safety Data System (SSDS) collects all the required CRDC data elements. NJDOE is in the process of developing a reporting function for the SSDS which will allow LEAs to use the same data for both submissions.

**Important note for 2021-22:** The NJDOE recommends caution in comparing the 2021-22 student safety data with the data from 2020-21 and 2019-20 as the pandemic impacted the data from those years.

### Violence, Vandalism, HIB, and Substance Offenses

This table shows the number of incidents reported by type. A single incident may be counted under multiple incident types. The total unique incidents row provides an unduplicated count of incidents. The last row shows the rate of incidents for every 100 students enrolled.

Incident Type	Number of Incidents
Violence	38
Weapons	10
Vandalism	1
Substances	54
Harassment, Intimidation, Bullying (HIB)	20
Total Unique Incidents	122
Incidents Per 100 Students Enrolled	7.29

### Police Notifications

This table shows, by incident type, the number of cases where an incident led to police notification.

Incident Type	Incidents Reported to Police
Violence	17
Weapons	8
Vandalism	0
Substances	18
Harassment, Intimidation, Bullying (HIB)	1
Other Incidents Leading to Removal	7

## Climate and Environment

The New Jersey Department of Education collects data through the Student Safety Data System (SSDS). In addition to the data below, NJDOE is required, under ESSA, to report on the most recent, publicly-available Civil Rights Data Collection (CRDC) data, which can be found on the [NJDOE School Performance webpage](#). Please note that prior to school year 2017-2018, the CRDC and the State collection system, EVVRS, did not collect the same data elements. ### Harassment, Intimidation, and Bullying (HIB) Investigations

This table shows, by the nature of the incident, the number of alleged and confirmed Harassment, Intimidation, and Bullying (HIB) investigations. The nature of an incident is based on the protected categories listed below, and the nature of a single HIB investigation may include multiple categories. All confirmed incidents must have an identified nature.

HIB Nature (Protected Category)	HIB Alleged	HIB Confirmed	Total HIB Investigations
Race	3	1	4
Religion	0	0	0
Ancestry	0	1	1
Gender	0	1	1
Sexual Orientation	1	1	2
Disability	2	4	6
Other	5	15	20
No Identified Nature	31		31

### Student Disciplinary Removals

The first table shows, by removal type, the number and percentage of students who received disciplinary removals during the school year. Removal types include students receiving one or more in-school suspensions, one or more out-of-school suspensions, one or more suspension of any type, removal to another school or other educational program, expulsion with no further educational services, or arrest. The second table shows the total number of days missed due to out-of-school suspension for all students during the school year.

Removal Type	Number of Students	Percent of Students	School Days Missed due to Out-of-School Suspensions
In-School Suspensions	220	13.2%	1,084
Out-of-School Suspensions	192	11.5%	
Any Suspension	307	18.4%	
Removal to other education program	14	0.8%	
Expulsion	0	0.0%	
Arrest	*	*

## Climate and Environment

### School Day

This table shows the start and end times and length of school day for a typical student at this school. Instructional time is the amount of time that a typical student was engaged in instructional activities under the supervision of a certified teacher. Full time students attend this school for more than half of the school day and shared-time students attend the school for half of the school day or less.

Category	School
Typical Start Time	7:30 AM
Typical End Time	2:12 PM
Length of School Day	6 Hrs. 42 Mins.
Full Time - Instructional Time	5 Hrs. 22 Mins.
Shared Time - Instructional Time	4 Hrs. 37 Mins.

### Device Ratios

This table shows the student to device ratio, which is the number of students in grades PK-12 per device, including devices designated for instruction, testing, and remote learning. Devices are computers such as tablets, iPads, laptops and Chromebooks. The count includes only devices that meet nationally recommended specifications for online testing and digital learning in grades PreK through 12. This information comes from the elective NJTRAX survey and reflects data submitted as of October 2022, therefore data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device policy may appear to have a very low student to device ratio due to this policy decision.

School Year	Student to Device Ratio
2021-2022	1:1

### Student Access to Technology and Internet

In response to the COVID-19 pandemic, the NJDOE began collecting information on student device types, device owners, and internet connectivity during the 2020-2021 school year. [Additional reports about student access to technology and internet connectivity](#), as of the end of the 2021-2022 school year can be found on the NJDOE website.

## Staff

Staff data reflects teachers and administrators reported by districts at the beginning of the school year.

**Key terms for staff data:**

**Teachers:** All classroom teachers

**Administrators:** Principals, assistant principals, supervisors, coordinators, directors, and other central-office administrators, as well as superintendents and other district-level administrators.

**Experience:** Experience is based on information submitted by districts on all their staff members. For purposes of this report, the ESSA Educator Equity and federal reporting requirements, NJDOE has defined teachers as "inexperienced" if they have fewer than four years of prior experience in a given district. The tables below report on "experienced" teachers and administrators for federal reporting purposes.

**Out-of-Field:** A teacher is labeled "out-of-field" if they are potentially teaching outside their area of certification. This could occur if the teacher cannot be found in the NJDOE's certification system, if their job code does not match their certification, or if the teacher has an expired certificate.

### Teachers – Experience

This table shows information about the experience of teachers assigned to this school and across the state. No teachers in New Jersey are teaching under emergency or provisional credentials as defined by the United States Department of Education. The number of out-of-field teachers is the number of teachers who are potentially teaching outside of their area of certification.

Category	Teachers in School	Teachers in State
Total Number of teachers	137	118,773
Average years experience in public schools	9.9	12.5
Average years experience in district	9.9	11.3
Percentage of Teachers with 4 or more years experience in the district	79.6%	76.0%
Number of out-of-field teachers	0	2,937

### Administrators – Experience (District Level)

This table shows information about the experience of administrators assigned to this district and across the state.

Category	Admin. in District	Admin. in State
Total Number of administrators	35	9,578
Average years experience in public schools	14.6	16.5
Average years experience in district	14.6	12.6
Percentage of Administrators with 4 or more years experience in the district	91.4%	78.8%

### Staff Counts

This table shows the number of staff members assigned to the school, district, and state across several staff categories. The staff counts in this table reflect data submitted by districts to NJ SMART and reflect any teachers assigned and are not based on full-time equivalent (FTE). Additionally, some staff members may be assigned to the district only, but work in multiple schools in the district. In these cases, the table may show 0 staff members assigned to the school, even though there are district staff members working in the school.

Staff Category	School: Total Staff Members	District: Total Staff Members	State: Total Staff Members
Teachers	137	552	118,773
Administrators	5	35	9,578
Librarians/Media Specialists	1	7	1,212
Nurses	2	7	2,911
School Counselors	7	17	4,324
Child Study Team Members	5	34	9,115
School Psychologists	2	6	2,159
School Social Workers	1	6	2,487
Student Assistance Coordinators	1	2	372
School Safety Specialists	N	N	34

† In some districts, staff members in these roles who work in multiple schools may be assigned only to the district and not to individual schools. As a result, a School Ratio may show N, but there may be district assigned staff working in the school

†† Child Study Team members include school psychologists, school social workers, and learning disabilities teacher consultants also note that for the ratio compares Students with Disabilities instead of all students.

### Teachers and Administrators – Demographics

This table compares the percentage of students, teachers, and administrators by gender and by racial and ethnic group. 2019-20 was the first year that data was collected for non-binary/undesignated gender and, as a result, the data may not be a true representation of the student or staff population. Additionally, to protect student privacy, gender percentages for 2019-20 are rounded to the nearest 0.5 and percentages for 2020-21 and 2021-22 may show a range, depending on the overall school population size.

### Teachers and Administrators - Level of Education

This chart shows the highest level of education attained by teachers and administrators. The Bachelor's degree category may include other degrees/certificates such as a Specialist's degree. Administrators are required to have a Master's degree or higher.

### Teachers and Administrators - One-Year Retention (District Level)

This table shows the percentage of teachers and administrators assigned to this district in 2020-21 that were still assigned to this district in 2021-22. Staff who were not retained may have changed districts or no longer work for the state (including retirements).

## Per-Pupil Expenditures

### Per-Pupil Expenditures by Source

The table below summarizes the most recently available expenses for regular and special education students taught at schools in the district. The amounts include both actual personnel and actual non-personnel expenditures and include expenditures for instruction, support services, administration, operations and maintenance, and extra-curricular activities. An overall cost per pupil for a given school can be calculated by adding the Central Expenditures and the Expenditures Not Assigned to a School to the School Level Expenditures reported for that school. The Average Daily Enrollment (ADE\*\*) comes from the 2021-22 School Registry Summary (SRS).

For more information regarding this table please refer to the guidance for school level reporting, which is available on the NJDOE webpage [NJDOE webpage ESSA School Level Reporting Information](#). More in-depth information about district and charter school spending can be found in the [User Friendly Budget](#) and the [Comprehensive Annual Financial Report \(CAFR\) and Auditor Management Reports \(AMRs\)](#).

*Please be aware that the total district expenditures represented in these reports are taken from audited district financial data, but the subsequent allocation of these resources to specific schools is not audited or otherwise verified by the New Jersey Department of Education. If you have specific questions about the assignment (or lack of assignment) of school-level amounts, please contact the district for additional information.*

[Link to District Summary of 2021-22 School-Level Per Pupil Expenditures by Source](#)

An option to [download all school-level summaries by district](#) in one spreadsheet is also available. However, because districts have flexibility in how certain costs are allocated to individual schools, school-level costs should not be compared between schools in different districts.

## Accountability

**New Jersey's Every Student Succeeds Act (ESSA) Accountability System** New Jersey's school accountability system identifies schools that are in need of comprehensive and targeted support as required by the Every Student Succeeds Act (ESSA). Based on New Jersey's [approved ESSA state plan](#), NJDOE will identify schools in the following four federal categories every three years:

- **Comprehensive Support and Improvement (CSI): Overall Low Performing:**
  - Schools with a summative score in the bottom 5% of Title I schools.
- **Comprehensive Support and Improvement (CSI): Low Graduation Rate:**
  - High schools with a four-year graduation rate of 67% or less
- **Additional Targeted Support and Improvement: Low Performing Student Group (ATSI):**
  - Schools with one or more student group with a summative score that would be in the bottom 5% of Title I schools
- **Comprehensive Support and Improvement (CSI): Chronically Low Performing:**
  - Title I schools identified as Additional Targeted Support and Improvement; Low Performing Student Group (ATSI) that are identified for three or more consecutive years, i.e. ATSI schools that do not meet exit criteria.
  - The NJDOE has not yet identified schools in this category as no ATSI schools have been in status for three or more years.

Annually, NJDOE will identify schools in the following federal category:

- **Targeted Support and Improvement: Consistently Underperforming Student Group (TSI):**
  - Schools with one or more student groups that missed annual targets or standards for all indicators for two years in a row

For purposes of ESSA accountability, only schools and student groups with data for 20 or more students are included in calculations.

For more information about New Jersey's accountability system, how indicator and summative scores were calculated, how federal accountability status is determined, and [statewide progress toward long-term goals](#), see these [accountability resources](#).

**Important Note for 2021-2022:** Due to the COVID-19 pandemic, New Jersey received waivers from the United States Department of Education (USED) in both [March 2020](#) and [March 2021](#) that waived accountability-related requirements in the Elementary and Secondary Education Act (ESEA) for the 2019-2020 and 2020-2021 school years. These waivers removed the requirements to:

- Calculate indicator scores and summative scores for the 2019-2020 and 2020-2021 school years;
- Measure progress toward long-term goals and measures of interim progress for accountability indicators for the 2019-2020 and 2020-2021 school years; and
- Identify schools for comprehensive and targeted support and improvement during the 2020-2021 and 2021-2022 school years (based on 2019-2020 and 2020-2021 data, respectively).

As a result of these waivers, any school that was identified for comprehensive or targeted support and improvement during the 2019-20 school year will retain the same status for the 2021-22 and 2022-23 school years.

The NJDOE identified schools across four categories during the 2022-23 school year (based on 2021-22 data):

- CSI: Overall Low Performing;
- CSI: Low Graduation Rate;
- ATSI; and
- TSI.

For the TSI identification that occurred during the 2022-23 school year, status in meeting annual targets for the 2018-19 and 2021-22 school years were used since data was not available for two consecutive years.

Additionally, all schools that were previously identified were eligible to exit status at the end of the 2022-23 school year if the NJDOE's Exit Criteria were met.

The NJDOE received approval to make a one-time change to the identification timeline under the COVID-19 State Plan Addendum. Under the approved Addendum, the NJDOE will identify schools for CSI and ATSI status in both fall 2022 and fall 2023. Schools identified for CSI or ATSI status in fall 2022 will be eligible to exit status in fall 2023 if all exit criteria are met. Schools identified for TSI status will be eligible to exit annually if exit criteria are met.

## Accountability

### ESSA Accountability Status

The table below provides the school's federal school status for the 2023-24 school year, the category (or reason) for identification, the year the school is eligible to exit status, and, if applicable, the student groups identified for support. For additional information, the [NJDOE ESSA Accountability webpage](#) includes a list of all schools requiring comprehensive or targeted support and improvement with the amount of School Improvement Aid (SIA) funds received and information on exit criteria for identified schools.

Status for 2023-24 School Year	Not in Status
Category of Identification	n/a
Year Eligible to Exit Status	n/a
Student Group Status: White	
Student Group Status: Hispanic	
Student Group Status: Black or African American

Student Group Status: American Indian or Alaska Native	
Student Group Status: Two or More Races	
Student Group Status: Economically Disadvantaged Students	
Student Group Status: Students with Disabilities	
Student Group Status: English Learners	

† This flag is used if a school is identified for Comprehensive Support and Improvement, but one or more student groups met criteria for Targeted Support and Improvement.

### ESSA Accountability Progress

The table below shows performance on each of New Jersey's ESSA accountability indicators for the last three years.

**ELA and Math Proficiency:** Percentage of students who met or exceeded expectations on statewide assessments (NJSLA or DLM)

**ELA and Math Growth:** For 2021-22 only, this data shows the Relative School Improvement Measure (RSIM), which is based on aggregate scale score improvement on the statewide assessments in ELA and mathematics (NJSLA), when comparing prior year performance to 2021-22 performance. Schools are assigned a percentile rank based on their improvement as compared to schools with similar prior year performance. This is only measured for grades 3-8. The NJDOE plans to resume measuring growth by mSGP in 2022-23.

**Four- and five-year graduation rates:** The adjusted cohort graduation rate

**Progress toward English Language Proficiency:** The percentage of English Learners who demonstrated the expected amount of growth on the ACCESS for ELLs Assessment for English Language proficiency.

**Chronic absenteeism:** The percentage of students that were absent for 10% or more of the days enrolled during the school year.

**Important Note for 2021-22:** The NJDOE received federal waivers that waived certain assessment and accountability-related requirements for the 2019-20 and 2020-21 school years. As a result, proficiency, growth, and progress toward English language proficiency data is not available for 2019-20 or 2020-21 and chronic absenteeism data is not available for 2019-20. The growth measure used for 2021-22 is an alternate measure used because median student growth percentiles were not available for 2021-22. The NJDOE plans to resume reporting median student growth percentiles in 2022-23. As data over the last three years was impacted by the pandemic in various ways, the NJDOE recommends caution in comparing data from year to year.

ESSA Accountability Indicator	2019-20	2020-21	2021-22
ELA Proficiency			56.5%
Math Proficiency			13.6%
ELA Growth			
Math Growth			
4-Year Graduation Rate†	95.8%	94.3%	90.3%
5-Year Graduation Rate†	95.5%	96.9%	95.4%
Progress toward English Language Proficiency			18.2%
Chronic Absenteeism		14.2%	16.2%

† This table shows the most recent graduation rate for reference, but accountability calculations for a given year use the prior year's graduation rate.

## Accountability

### Accountability Summary by Student Group - 2021-22 School Year

The NJDOE is required under ESSA to identify schools for Targeted Support and Improvement (TSI) and Additional Targeted Support and Improvement (ATSI). Both TSI and ATSI identifications are based on how student groups within schools perform. Schools are identified for ATSI if they have at least one student group that has a summative score that would be in the bottom 5% of Title I schools if it was its own school. Schools are identified for TSI if they have at least one student group that missed annual targets or standards for all indicators for the 2021-22 school year. Only student groups that have data for at least 20 students are included in the accountability determinations.

In the table below, the first three columns show information on the identification for ATSI. It shows the summative score for each student group, the cut-off score that was used to identify schools for comprehensive support and improvement (CSI), and whether the school (and student groups) have been identified as requiring ATSI. The remaining columns in the table show whether the student group met annual targets or standards for all indicators for the 2021-22 school year. If at least one student group did not meet all targets and also did not meet all targets in the 2018-19 school year, then the school will be identified as requiring TSI.

For more information about accountability determinations, indicators, and annual targets, see the [NJDOE Accountability page](#).

## Narrative

This section allows schools and districts to share highlights, achievements, and other important information about programs, activities, and services that are offered in their own words. Please note that the narrative is optional, so only categories in which the district chose to share information will be displayed. If there are questions about the information provided in the narrative section, please contact the school or district directly.

### Highlights:

- Sayreville War Memorial High School includes grades 9-12. It has a 2021-2022 enrollment of 1710 students. Our graduates have been accepted to a number of well-known universities.
- SWMHS offers an extensive array of Advanced Placement (AP) courses and a rich comprehensive learning environment. Technology is current and infused into each classroom.
- The majority of SWMHS students participate in a wide variety of extra-curricular activities, including the arts, sports and clubs.

### Mission, Vision, Theme:

The Sayreville War Memorial High School community empowers students to navigate the challenges of an ever-evolving global society by providing a supportive and equitable learning environment which offers extensive course and extracurricular opportunities that allow students to discover their passions and maximize their individual potential.

### Awards, Recognition, Accomplishments:

Sayreville War Memorial High School is accredited by the Middle States Association of Colleges and Secondary Schools and the New Jersey Department of Education. Sayreville War Memorial High School was recognized as one of 2015 Newsweek "America's Top High Schools" Beating the Odds 2015: Top High Schools. Newsweek's "Beating the Odds" list seeks to identify schools that do an excellent job of preparing their students for college while also overcoming the obstacles posed by students at an economic disadvantage. Sayreville has been recognized and named a school that meets Newsweek's equity measure by helping low-income students score at or above average on state assessments. Special Olympics New Jersey and Special Olympics International declared Sayreville War Memorial School an official Special Olympics national banner Unified Champion School.

### School Safety:

At Sayreville War Memorial High School, our top priority is to ensure the safety and security of our students. The administration at SWMHS works closely with the Sayreville Police Department in coordination with our full time student resource officer and Director of Security. Our Director of Security works closely with the High School administration to coordinate school security training and drills. In addition, SWMHS has security guards, cafeteria monitors, and hallway monitors on staff. In 2019 SWMHS installed a vestibule at the main entrance and the use of metal detectors at both of our main entrances.

### Addressing the Impact of COVID-19:

From the very beginning of our experience with the COVID-19 pandemic, we have been so very proud of the way our staff, students, and community members have responded to this crisis. This pride and a sense of unity carries through in the SWMHS Restart Plan, which represents our best practices on how we opened our school in the fall of 2021 and transitioned to full in-person learning. Our plan provided quality in-person and online learning options, while taking all careful steps to protect the health of our students, staff, and community.

### Other Information:

SWMHS has a traditional eight period school day as well as six security guards and a Student Resource Officer and a Director of Security. Technology has been updated recently to provide our students with state-of-the-art technology to be used in each classroom. SWMHS communicates with their students through electronic means as well as Twitter and our electronic announcement board in front of the school. Educational and social experiences at SWMHS are intended to promote self-esteem, respect for individual differences, and develop an appreciation of the diversity which exists at SWMHS. To achieve these goals, students are challenged through numerous honors and Advanced Placement courses and a comprehensive curriculum, which offers a wide variety of college preparatory subjects as well as business and vocational components. Academic achievement at SWMHS is always recognized and celebrated.
