To: Kelley, John <jkelley@vernon-ct.gov>;

Hi John,

The Planning and zoning department informed me the shed can not be closer than 10 ft from the neighbor's property. The engineering department informed me they need a written approval from you first in order to proceed with the driveway portion. Therefore I intend to build the shed and driveway 11ft away from neighbors property line and 30ft from the street. See image below. The driveway would be behind my pool drawn in red arrows. Thank you
