

## Board of Trustees Douglas County School District

## COMMUNITY

### COMMUNICATION WITH STAFF, PARENTS AND COMMUNITY

The Board recognizes the importance of communication with staff, parents and the community it serves. It also recognizes that the residents and taxpayers of Douglas County have a genuine interest in the operations and program of the District. Accordingly, the Board will periodically seek, and always welcomes, input from staff, parents and community members.

Representatives of the local press media are an important link in the communications chain between school and community. The maintenance of good working relationships with news media is essential to meeting those objectives of the public information program.

The release of publications, photographs, and the like depicting the accomplishments of the students and staff of the District may be approved at the discretion of the Administration.
