

SUBJECT LEARNING JOURNEY

Our intent is.... Within our Design Technology Department (DT, Food and Textiles), students are able to blend the creative and the practical using ingredients and materials to solve genuine, relevant problems within different contexts whilst considering their own and others' needs, wants and values. We encourage the development of high skills and resilience in a safe environment, allowing students to demonstrate commitment and act on feedback.

IMPACT

What is the impact of studying our subject?

In Food Studies we empower students to enable them to independently follow recipes; to be able to substitute ingredients and cooking methods as appropriate, demonstrating an understanding of ingredients, dietary needs and food choices.
