Re: Out of Endorsement Teacher Plans (2022-23)

OSPI requires that school districts keep support plans on file for teachers who may be teaching one or more classes outside of their endorsement area(s). WAC 181-82-110 states that these plans must be approved by the school board.

This memo serves as the approval request to the School Board for the current Out of Endorsement plans of Support that have been developed between the teachers and their principals. The Human Resources Department has also signed off and approved all plans.

If you would like to see the support plans that are current for teachers in the District, they can be found on the School Board Page of the KSD Staff Intranet by clicking on the link below and searching under the title of "Out of Endorsement Plans":

<http://education.ksd.org/SchoolBoard/Pages/default.aspx>

RECOMMENDATION: Approve the Out of Endorsement Plans of Support developed by the KSD via principals and teachers.

RE: **Highly Capable (Hi-Cap) Program Plan**

Washington's Highly Capable Program is a component of the state's program of basic education. School districts provide instruction, activities, and services that accelerate learning for young learners identified as Highly Capable. Districts must define an educational program for Highly Capable students, and comply with specific program-related provisions that, integrated as a whole across the K–12 continuum, will deliver a comprehensive and equitable education for Highly Capable students.

Each year, districts must complete a comprehensive program plan and present it for OSPI and Board approval. The Board approved the 2021-2022 Highly Capable Plan on November 17, 2021. This year, OSPI has been very behind on their processes, and we just received approval and are now submitting for Board approval.

Attached is the 2022-23 Hi-Cap grants application, and below is a summary of KSD's Hi-Cap program and details regarding our current program evaluation efforts.

Recommendation:

The Board approves the 2022-23 Highly Capable Program Plan as presented.

Summary of KSD's Hi-Cap Program and Program Evaluation Efforts

Kennewick's elementary Highly-Capable (Hi-Cap) program is organized into four distinct delivery models:

- 1) **Kennewick's Opportunities for the Gifted (KOG):** Comprised of three self-contained portable classrooms located at Vista Elementary with a current enrollment of 58 students:

- a. Third Grade, 16 students, Teacher – Kim Estes
- b. Fourth Grade, 25 students, Teacher – April Samples
- c. Fifth Grade, 17 students, Teacher – Debbie Devine

KOG is a magnet program that pulls students from the entire district, with transportation provided. Students are identified through the CogAT, NWEA MAP assessments in reading and math, and our state's Smarter Balance Assessment. Students scoring in the top ten percent on CogAT and MAP and at the highest rating (4) on the SBA assessments may qualify. Kennewick does not use a committee to determine qualifications.

- 2) **Cluster Small Groups:** Four Kennewick elementary schools are staffed with a half time teacher who assess students referred by teachers or parents because of high performance on district assessments and overall classroom performance. Students qualify if they score at the top 10%ile on the CogAT and possess MAP scores in the top 10%ile as well. They are pulled out for mainly math with one school pulling one group out for reading. These four schools have the lowest free/reduced percentage rates which range 16% to 36%:

- a. Cottonwood Elementary, Math, 10 students, Teacher – Amy Springen
- b. Cottonwood Elementary, Reading, 12 students, Teacher – Amy Springen
- c. Amon Creek Elementary, Math, 17 students, Teacher – Amy Springen
- d. Sage Crest Elementary, Math, 25 students, Teacher – Kathy Kern
- e. Ridge View Elementary, Math, 19 students, Teacher – Kathy Kern

- 3) **Hi-Cap Cluster Classrooms:** In addition to pulling students into small Hi-Cap groups at the second and third grade levels, one Cluster school, Amon Creek Elementary, created two Hi-Cap classrooms where all identified students are grouped in self-contained classrooms all year. Qualifying requirements are similar to the previous two models; however, students in the next upper 10% band (80% to 90%) on the MAP can qualify with top scores on the SBA. This elementary has a free/reduced percentage of 22% and is our largest elementary with 743 students enrolled.

- a. Fourth Grade Classroom, 27 students, Teacher – Rachel Kelly

 Kennewick, WA 99336

b. Fifth Grade Classroom, 25 students, Teacher – Rebecca Melone

4) Young Scholars After School STEM program: Thirteen of our elementary schools identify Hi-Cap students by administering Pearson’s non-verbal NNAT3 to all second graders. These students are then invited to participate in an afterschool STEM program that typically operates once each week for approximately one hour. One teacher in each school receives extra-pay to facilitate testing in October and prepare and facilitate extension activities in science, math, and technology. These schools are the most impacted by poverty with a free/reduced range of 93% to 57%. (The following information is currently being collected and will be updated as we receive it) :

- a. Amistad, Teacher – Stephanie Pearson
- b. Canyon View, 16 students, Teacher – Andrea Kurkjian
- c. Cascade, 11 students, Teacher – Tara Metz
- d. Eastgate, Teacher – Morgan Gamboa
- e. Edison, Teacher – Mark Chandler
- f. Fuerza, 33 students, Teacher – Freddy Arroyo
- g. Hawthorne, 8 students, Teacher – Jeff Pieros
- h. Lincoln, Teacher – Chandra Karlberg
- i. Southgate, 7 students, Teacher – Lindsey Davis
- j. Sunset View, 11 students, Teacher – Suzy Armstrong
- k. Vista, 12 students, Teacher – Karen Brutzman
- l. Washington, 7 students, Teacher – Katie Pratt
- m. Westgate, 14 students, Teacher – Mark Russell and Taylor Mearns

Total served in elementary hi-cap: 346

Total 2nd to 5th grade elementary students: 5634

Percentage of KSD elementary students identified/served in hi-cap: 6%

On an annual basis, OSPI requires school boards to approve the district Hi-Cap plans. Last year when asked to approve our Hi-Cap plan, Board members asked for more information and specifically in the areas of screening and participation numbers. Concerns about equity of access between our low and high free/reduced schools were expressed.

With support from Hanover Research, we are currently conducting a program review to help identify KSD program strengths and growth areas. The program review is designed to help us answer the following questions:

- Do the four delivery models support accelerated student growth?
- Is access to hi-cap services equitable from school to school? Are they aligned with other like districts within our state?
- Are all Hi-Cap students in the Kennewick School District being identified?
- Are parents of Hi-Cap students satisfied with the level of growth and engagement of their children within each of our models?
- Are elementary staff satisfied with the quality and quantity of activities offered within the Young Scholar program?
- How does the academic growth of our Hi-Cap students compare between our models?
- How does KSD's elementary Hi-Cap program compare to like-districts within our state?
- Are elementary principals aware of Washington state Hi-Cap program requirements?
- What is the satisfaction of our intermediate Hi-Cap students who have participated one or more years in one of our Hi-Cap models?
- What are best strategies to maximize growth for our Hi-Cap students?
- Do academic growth levels differ between push-in and pull-out delivery models?
- How do other like-districts screen elementary students to identify Hi-Cap students?

B. Variety and Continuum of Program Services [WAC 392-170-078](#) | [080](#)

Instructions

CEDARS gifted values identifies **four primary structures** for HCP service delivery:

- **General education** classroom-based services and programs, CEDARS Gifted Value 32
- **Unique HCP Services/Programs**, CEDARS Gifted Value 33
- **Acceleration** Services/Programs, CEDARS Gifted Value 34
- **Non-Traditional** Services/Programs, CEDARS Gifted Value 35

For each service delivery option or options you provide identify the **instructional strategies and curricular modifications** teachers integrate to meet the needs of their Highly Capable students.

ALERT: Instructional programming and the delivery of HCP services must be **in place at every grade level** in your district. Highly Capable students remain in the program until their enrollment in your district ends.

Complete the Gifted Value Tables

For each Gifted Value identify:

1. Program options by grade level. If K12 is marked, do not check any of the individual grade level boxes for the measure.
2. Instructional strategies and curricular modifications.

Equitable Identification of Low-Income Students [RCW 28A.185.020](#)

Update as needed how you address equitable identification of low-income students as required by law [RCW 28A.185.020](#).

1. Identify person(s) responsible for developing and implementing LEA equitable identification plan to address low-income students.

Kevin Pierce

2. LEAs may find systemic barriers to identifying low-income students, such as: limited communication about referral process, testing outside school day, reliance on standardized testing only, no routine review of existing data, communication in English only, "cut off" scores on standardized tests, lack of information by school front office staff, and others.

OSPI suggests the following possible actions to reduce barriers to identifying low-income students: screen all students at certain grade level(s) to "screen in" students who may be overlooked, look for above-grade-level WaKIDS indicators, assess rapid growth over time with WaKIDS or ELPA21, test during school day in home school, review IEPs for students with disabilities for indicators of giftedness (twice exceptional), inform staff of gifted indicators and solicit referrals by staff, use alternative assessments for English learners, routinely review all relevant data for any new student, include referral information in enrollment packets, reach out to families by native language speaker.

Please update actions your LEA takes to prioritize equitable identification of low-income students, and the LEA's process to implement during the 2022-23 identification cycle.

Universal screening for all second graders in Title 1 schools each fall. Look for rapid growth over time with WIDA and early exits. Screen for above-grade-level on WaKIDS in the fall.

Criteria for Identification [RCW 28A.300.770](#)

Explain how you address criteria for identification as required by [RCW 28A.300.770](#).

3. **Update actions your LEA takes to address these criteria in your identification policy and procedures, and the LEA's process to implement during 2021-22 identification cycle.**

LEAs must have identification procedures for Highly Capable programs that are clearly stated and implemented using the following criteria:

- a. Districts must use **multiple objective criteria** to identify students who are among the most Highly Capable. Multiple pathways for qualifications must be available and **no single criterion may disqualify a student from identification**.
- b. Highly Capable selection decisions must be based on consideration of **criteria benchmarked on local norms**, but local norms may not be used as a more restrictive criterion than national norms.
- c. **Subjective measures such as teacher recommendations or report card grades may not be used to screen out a student from assessment.** These data points may

be used alongside other criteria during selection to support identification, but may not be used to disqualify a student from being identified.

d. To the extent practicable, **screening and assessments must be given in the native language** of the student. If native language screening and assessments are not available, a **nonverbal screening and assessment** must be used.

a. Student profiles that take into consideration academic achievement as identified through state and district assessments; cognitive achievement as measured by the CogAT and NNAT assessments; teacher rating scales of gifted behaviors for students who are borderline on the CogAT assessments.

b. Identification of students based on the overview of student profiles and assessment results for the district tests, State tests, and Cognitive tests; exceptions are made for local norms by district and school.

c. Teacher anecdotal records are only one small part of the student's overall profile to support the MDT's decision to select for the program.

d. NNAT will be used for all students in Title 1 schools. NNAT is a non-verbal assessment that will help identify the creative and cognitive abilities of students not yet proficient academically. We have a special Young Scholars program that reaches the strengths of this student profile.

Legislative Page Program

April 12, 2023

Legislative Page Program

- The Washington State Legislature has one of the finest page programs in the country. Each year, hundreds of students from across Washington State have the opportunity to take part in the legislative process and observe the Legislature and other branches of state government in action.
- Pages are sponsored by legislators and serve for one week during the legislative session, which runs January-April in odd numbered years and January-March in even numbered years.
- Pages spend their week learning about the legislative process while distributing materials throughout the Capitol Campus, assisting offices, delivering messages, working on the House or Senate Floor, and presenting the colors at the opening of the day's legislative session. Pages also spend time each day in Page School learning about all aspects of state government and legislative process.

Legislative Page Program

Requirements:

- Have parent or guardian permission
- Receive a recommendation from a teacher and their principal
- Be at least 14 years of age and have not reached their 17th birthday

Benefits:

- Pages earn a stipend of \$50 per day and can also earn community service hours
- “In all honesty before coming here, I had no interest in government or politics. After this fantastic experience, I can actually see myself doing something here in the capitol. The Page School hearings were definitely my favorite part...It was such a cool experience sitting in the chairs and speaking into the microphones. I really felt like my vote made a big difference; it seemed as though I was doing something important. I really enjoyed the opportunity of being both the chair and a committee member...and being able to verbalize my opinion...I loved it.”

Scholarship Program

Gina Grant Bull Memorial Legislative Page Scholarship Program

- During her lifetime, Gina Grant Bull served the state of Washington in both the Legislature and at the community level. In every role, from Legislative Assistant to House Page Supervisor to teacher to coach, Gina went out of her way to make everyone feel welcomed and a valued member of the institutional family.
- The Page Program and the pages held a special place in Gina's heart. Her mission, before she unexpectedly passed away in 2016, was to extend this opportunity to all students in Washington State regardless of economic status. This scholarship honors her service and dedication.
- This goal of this scholarship is to encourage all students, regardless of income level, to participate in the Page Program by helping offset the expense of traveling to and staying in Olympia for the week. By reducing the financial burden and raising awareness of the program, the legislature hopes to make participation in this great educational opportunity economically feasible for more students across Washington State.
- The scholarship uses the Federal Free and Reduced-Priced Lunch Qualifications to assess need. Applicants must supply a copy of the letter of approval issued by the school district after the Free and Reduced Lunch application is processed.
- Applying for the scholarship will not help or hurt the applicant's acceptance into the program. Scholarship applications must be received no later than one month prior to paging.

Applications for the 2023 Page Program Are Closed

Since prior to our statehood in 1889, students from across Washington have come to Olympia to serve as pages for the Washington State Legislature during the legislative session. Each week, the House and Senate provide pages the opportunity to take part in the legislative process and observe the Legislature and other branches of state government in action. The pages, who are between 14-16 years old, help deliver documents and provide assistance the chamber during floor sessions, all while attending the Legislative Page School. Paging presents students with a unique educational opportunity to participate in the legislative process.

The Washington State Legislature is proud to offer one of the finest page programs in the nation. To learn more about the role of a page, view our [Day in the Life of a Page video!](#)

Applications open November 1st each year. When applying, potential pages can select which weeks they are available to work.
