**The New English School is committed to safeguarding and promoting the welfare of our students and expects all staff and visitors to share this commitment.**

## **1. Introduction**

This policy provides an overview of the Primary and Secondary Departments security procedures as well as access to the appropriate school nurse.

## **2. Policy Aims**

We aim to ensure a safe and sensible approach in order to:

- maximise opportunity
- minimise risk and
- continuously promote a culture of safeguarding amongst our workforce and school community

## **3. The school day - arriving and leaving the premises**

### **3.1 Parental Appointment**

- *Secondary Department:* Parents submit I.D. to the guard in return for a visitors badge. They are met by the teacher in the secondary office.
- *Primary Department:* Parents submit ID to the guard in return for a visitors badge. Parents to be met in the Primary Office.

It is in all our interests to be able to identify visitors, such as parents, and to be able to notify the guards of potential visitors. Email for appointments:

Secondary School Staff Appointments: [ndoleh@neskt.org](mailto:ndoleh@neskt.org)

Primary School Staff Appointments: parents email the individual teacher

### **3.2 Before School – 8.00am**

- Students alone to enter through the main gate (Gate 1) EXCEPT KG students who enter through Gate 3, and are escorted to their classrooms by parents or ancillary staff. All Infant children are escorted to the gates by their bus driver. Each bus driver acknowledges arrival at the school and delivery of the Infant children to the gate by signing a register each day.

### **3.3 Visitors throughout the day**

- Adults, parents or visitors who need to enter e.g. to attend a teacher appointment or to collect a student from the nurse should enter via the main gate (Gate 1) where they should deposit their Civil ID card in return for a visitor's badge. This badge **must** be worn by visitors at all times.
- Without prior arrangements – i.e. informing school no later than 8.20am on the day – we will **not** fetch children from classes except in direct emergencies or unavoidable medical appointments.

### **3.4 Students to be collected from the nurse**

- Parents deposit ID with the guard in return for a visitors badge, then proceed to the nurse's office.

### **3.5 End of day**

- Students who have not been collected will be placed under the supervision of teaching staff in the seated area close to the main gate. However, Infant Students who have not been collected on time are taken to the Infant Head Teachers office, and collected from there.
- All students are expected to be collected as soon as possible except in the case of co-curricular activities.

### **3.6 CCA Spectators**

- Parents coming to watch sporting fixtures should enter by the visitor's entrance via the guard's room to collect a visitor's badge which should be worn at all times.

## **4. Primary Department school day specifics**

- **8.00AM – 2.30PM**

- With events such as assemblies/sports day, parents will be asked if they wish to attend and will in return receive an invitation allowing them to enter.
- **1.00PM**
- KG children are collected from their classrooms. There is a list of named adults/siblings who are authorised to collect each child available in each class.
- **2.00pm**
- Reception children are collected from their classrooms. There is a list of named adults/siblings who are authorised to collect each child available in each class.
- **2.15 pm**
- Year 1 and Year 2 children are collected from their classrooms. There is a list of named adults/siblings who are authorised to collect each child available in each class.

Collection lists for all Infant classes are also kept in the Primary Office, and with the Infant Head Teacher.

- **2.30pm**
- Primary students (Years 3 – 6) will be taken down to the playground for collection. Staff will supervise the collection of students. In the case of any custody issues, designated persons are registered for collection.

## **5. Dealing with injured students and access to the school nurse**

- See Student Health Policy

## **6. Chemistry Department - Safety Policy.**

The department specifically considers these points to be of greatest importance:

- Students must be issued with a set of laboratory safety rules. Teachers should ensure that these rules are followed whenever practical work is undertaken. The safety rules should

be reinforced on a regular basis throughout their schooling and the students should be reminded of them as frequently as possible.

- All bottles of chemicals must carry safety hazard symbols so that students can be made aware of the hazards associated with the experiment.
- When teachers perform demonstrations it is essential that a safety screen is used to shield students from vigorous reactions.
- Students studying for AS and A2 level chemistry must wear a lab. coat and goggles at all times during practical. If they do not bring a lab. coat to school then they should not be permitted to engage in practical activity.
- It is essential that students should not enter a laboratory without a teacher being present, nor should they be left unattended during break detentions.
- A set of Haz-cards is stored in the departmental prep room for teacher and technician reference.
- In each lab water and carbon dioxide fire extinguishers are stored near to the teacher's desk. There is also a fire bucket near the door.
- The gas and water stopcocks are positioned by the teacher's desk.
- Hazardous waste bottles are provided, when required, in each laboratory. The technicians will advise teachers when this should be used, rather than the sinks/bins.
- Broken glass and sharp metal objects should be disposed of in the sharps bins present in each laboratory.
- The department has a large stone store cupboard with metal doors that should be used to store particularly flammable, or volatile reagents. These chemicals should be kept under lock and key at all times. Oxidising chemicals and reactive chemicals eg. Group I metals should not be stored in the same cupboard as flammable chemicals. A separate metal cabinet has been set aside for these chemicals.
- The school maids and ancillary staff have the responsibility of locking departmental doors after school hours. Please let them know when you are coming in or leaving so that they can lock up after you.

## **7. Physics Department - safety policy**

- No food or drink to be consumed or brought into the labs.
- Hair to be tied back where appropriate.

- No running in labs.
- Bags to be placed in a safe place avoiding obstructing access points.
- No throwing objects.
- Do not interfere with gas taps or electricity points.
- Follow all teacher instructions carefully.
- Pay full attention to all safety instructions to do with practical activities.
- If any accident happens alert the teacher immediately.

## **8. Biology Department - safety policy**

- Teachers and technicians have a general duty to take reasonable care for the health and safety of themselves, of other members of staff and of pupils.
- They have specific duties:
  - to be familiar with this health and safety policy, its updates, the texts to which it refers and any Appendices.
  - They must cooperate with the employer's instructions, observe the requirements of this policy and fulfill any special responsibilities it gives them.
  - They must cooperate with colleagues in their specific health & safety duties.
  - They have a duty to report to local management any failure of equipment that has a health & safety function.
- Staff practice must set a good example to pupils and be consistent with pupil laboratory rules, e.g, over the wearing of eye protection.
- Staff must be familiar with emergency drills and with the location in each science room of:
  - the escape route
  - fire-fighting equipment
  - the eye wash station
  - the main gas cock

- the main electricity switch
  - the nearest spill kit.
- Laboratories must be left safe. Special arrangements must be made for equipment which has to be left running overnight and hazardous equipment which has to be left out.
  - In general, all gas taps should be completely turned off and all mains operated apparatus switched off. [At the end of the day, if practicable, gas should also be turned off at the laboratory main gas cock and electricity at the laboratory main switch.]
  - Eating, drinking and the application of cosmetics should not take place in laboratories, storage areas or preparation rooms unless an area in which it is safe to do so has been created. Pupils should not be allowed to drink from water bottles.
  - When staff are alone in the science department, nothing should be done which could lead to an accident requiring remedial measures. A teacher or technician must assess risks very carefully before conducting any practical operation in such circumstances.
  - In general, pupils must not be left unsupervised in a laboratory. Staff needing to leave a class briefly must assess the risks of doing so, perhaps arranging for temporary supervision by a neighboring member of staff.
  - Special arrangements may be needed for senior students doing project work, depending on the hazards involved, e.g, an experienced member of staff in an adjacent room.
  - Science laboratories, preparation rooms and stores must be locked by staff when not in use. Pupils must never be allowed into preparation rooms [unless 100% supervision can be guaranteed].
  - Technician are responsible for identifying areas of training and updating that they may need to fulfill their role in safe and effective manner. Technicians are always fully aware of any haz card/CLEAPSS requirements for each and every practical. They,then have responsibility of making teachers aware of these before they perform the practical.

## 9. Physical Education Risk Assessments

- extensive detail broken down by type of sporting activity.

<https://drive.google.com/drive/folders/1F1tOr8RbyG7gDfDFUR3-ca2le671VYj7>

## 10. Fire evacuation procedures

- This is displayed in all classrooms.
- At least one fire drill is completed with students and staff per year.

## 11. Risk Assessments

All trips more than walking distance from the school are granted Ministry Permission before the trip is organised.

For any trip risks must be evaluated and contingencies prepared to mitigate those risks identified. Procedures for booking trips must be followed as per the staff handbook.
