Language & English as an Additional Language (EAL) Policy

This policy applies to the whole school including Boarding and the Early Years. The current version of any policy, procedure, protocol or guideline is the version held on the TASIS England website. It is the responsibility of all staff to ensure that they are following the current version.

Language and Learning at TASIS England
The TASIS England Language and EAL Policy communicates how language learning is valued, facilitated, acquired and promoted across our learning community. Our Language and EAL Policy influences our admissions policies, pedagogy and practice, provides an insight into how our school supports our internationally minded community of learners, the mission of the school, and the IB Learner Profile.

The policy is consistent with the stipulated principles and practices of the IB. This document outlines our school’s academic and linguistic goals and defines the academic programs and extracurricular language activities designed to help our students attain these goals.

TASIS England Mission Statement
The school’s purpose is to realize its mission. We believe that: every learner has the gift of innate curiosity that we can nurture into life-long learning; all our learners can develop the ability and confidence to flourish and become who they truly are; and building a vibrant, joyful, and healthy community of principled, open-minded, and compassionate individuals is why TASIS England exists.

The Importance of Language at TASIS England
- TASIS England believes in fostering an environment in which students’ language profiles are actively supported by the school’s culture in order to promote intercultural learning and linguistic understanding.
- TASIS England believes in providing a robust and evolving curriculum that supports the changing needs of students’ both in terms of maintaining languages they already know and developing knowledge and acquisition of new languages based on curricular needs and personal interest.
- TASIS England believes in developing new ways to enable students regardless of aptitude to apply their expanding linguistic acquisition to enriching activities both in and outside the classroom.
- TASIS England believes in tracking the evolving Language Profile of the students in each school section from year to year and adapting curriculum and learning support structures to accommodate these changing needs. It has established a Language Policy Committee composed of faculty in each school section to accomplish this. The committee meets throughout the academic year and is charged with updating the TASIS England Language and EAL Policy, which is published on the TASIS England website.

Language and Learning at TASIS England - Why We Have a Language Policy
TASIS England’s Language and EAL Policy addresses several connected needs of the school as a whole including:

Developing a common platform for ongoing conversations across divisions about the changing language profiles of our students and how we accommodate them in each division.
The various philosophies and practices represented in this document were all in existence but were published in discrete documents throughout the school. This committee has endeavored to unite these philosophies and practices into a cohesive whole to represent the Language culture of the entire school community.

The formation of the TASIS England Language and EAL Policy Committee in 2015 enabled members of these school sections to collaborate on a single vision and policy document that reflects how we identify, codify, and support students’ needs across the school. This Committee will meet annually to review the contents of this Language Policy document.
Articulating a scope and sequence of language development across each school section
Prior to 2017, the representation of the TASIS England curriculum was largely embedded in department/section-specific documentation without an explicit vertical/horizontal articulation. Through the Curriculum Development Project, initiated in 2018, each school section/department developed a coordinated written curriculum using a common framework for standards. As we develop this documented scope and sequence, the TASIS England Language and EAL Policy Committee can pay close attention to how the school addresses students’ language development on a curricular level in each division and department (not just language courses).

TASIS England’s EAL Department applied for membership of the World Class Instructional Design and Assessment (WIDA) International Consortium in 2018, an organization dedicated to the research, design and implementation of a high-quality, standards-based system for K-12 English language learners. The EAL department was attracted to WIDA after learning that it provides developmentally appropriate academic language standards and assessments that neatly coalesce with a K-12 American standards-based curriculum, and which are capable of complementing and supporting our schoolwide curriculum development aims.

Addressing the specific needs of the students in the school’s IB Diploma Program
The first 5-year review (2010) entailed the formation of a Language Policy Document; since that time, the IB has developed more explicit expectations and guidance documentation about how such a policy should be devised, supported, and represented. For our second 5-year review (2015), TASIS England formed a TASIS England Language Policy Committee in order to reflect on questions posed in these guidance documents and further develop its Language Philosophy and Policy—not only for the school’s IB Diploma Program but for the entire school. The committee sourced every relevant piece of documentation it could find in order to build upon the 2010 Policy Document in an effort to capture a more holistic yet explicit picture of the culture of language learning at the school. Within the IB Diploma Evaluation Report (December 2020) the visiting team stated: *Conversations with teachers show that they apply the language policy and that they provide students with support in this regard.*

Admissions Policies & Procedures

Language Assessments:
- Admissions Assessments.
  *Students with limited English language skills (CEFR - A1+) are accepted into the Upper School (see App. A).*
- Minimum Entry Requirements. The EAL department uses CEFR benchmark standards to help inform appropriate placement (see App. B).
- FL Level Placement Tests.

Lower School:
The Lower School is committed to inclusion and providing specific differentiated support to non-native English speakers when needed. Incoming non-native English speakers are assessed upon entry using WIDA Language Assessment Tools and assessed routinely according to the procedures set out in the TASIS England EAL Handbook.

Middle School:
The Middle School also initially assesses new and transitioning students using the WIDA language proficiency assessments and uses the assessment data to determine the level of EAL support and in-class differentiation and accommodations. The WIDA MODEL assessment is also administered in May each year to gauge individual progress. Students exiting the program are given the WIDA MODEL assessment test, which are also used to ensure that as students move on to the Upper School they are placed in the correct groups.
Upper School:
As part of the application process, all prospective non-native English speaking students from the age of thirteen (Grade 8) will be required to take the Oxford Online Placement Test. Alternatively, Admissions can request the applicants to provide evidence of English language proficiency in the form of a standardized test of English. The most popular and well-known standardized tests are the TOEFL iBT and IELTS, which are administered at test centers around the world, usually with no limit on when and how often they can be retaken. The Test Report Forms presented to Admissions upon completion must, however, be dated within the last twelve months; otherwise, applicants will be required to take either the Oxford Online Placement Test, which Admissions will assist in the administration of, or make their own arrangements to take a further TOEFL iBT or IELTS test at a test center in their country of residence. Admissions may also arrange a Skype or similar interview with applicants to assist with the building of an overall assessment of a candidate’s suitability for entry to TASIS England. The purpose of this data is to assist the EAL Department in making preliminary judgments as to whether or not EAL support will be required for the applying students at the point of entry into the Upper School.

The Upper School would not recommend a student whose level of English proficiency is below WIDA 2 (OOPT <19/CEFR <A2) to enroll in any of its high school educational programs, and so acceptance would likely be denied. This also extends to 11th grade applicants whose level of English upon application is below WIDA 3 (OOPT <40/CEFR <B1) and 12th grade applicants whose level of English upon application is below WIDA 4 (OOPT <59/CEFR <B2). See Upper School EAL Progression Pathways Flowchart and the Score Comparison Chart for further guidance and clarification (Apps A & B).

All language-related assessment data collected by Admissions will be shared with the relevant school section EAL specialist(s) to assist in determining the applicants’ English language proficiency levels and the potential need for EAL support. Their paperwork is stored in a system that identifies these students as speakers of other languages. Where possible, the prospective students meet sectional heads and the EAL Teacher(s) during their campus visit.

Identification and Placement

Upon acceptance to the Lower and Middle Schools
Upon arrival, parents receive communication from the Lower School EAL Teacher welcoming the family to the school and informing them that their child’s level of proficiency in English will be assessed to determine if there is a need for support in the Lower School. All new students who speak a different language at home will take the initial WIDA Screener assessment and may be observed in class, following a suitable settling-in period, usually within the first three weeks of school.

In the Middle School, students take the WIDA Screener assessment shortly before school starts. Based on the assessment results, students will either be placed on the relevant tier within the EAL program or will not qualify for the program due to their advanced level of English language proficiency. The parents receive communication informing them of the outcome of the assessment and whether or not their child qualifies for EAL support. See EAL Progression Pathways Flowcharts for further guidance and clarification.

Upon acceptance to the Upper School
All newly enrolled English language learners in the Upper School are required to take the WIDA Screener placement test, which is a paper-based test of English language proficiency administered on the school premises upon the students’ arrival and prior to Convocation. The outcome of this placement test will determine what level of EAL support, if any, the students will receive. Students who achieve WIDA proficiency scores of 5 or 6 will usually become fully mainstreamed. Students who present scores below 5 will be required to enroll in the Upper School’s EAL program and placed on the relevant tier, receiving sheltered classes of English, history and science, together with a class (or classes) of EAL appropriate to their proficiency level. The Upper School will waive the Foreign Language requirement for the time in which students remain with this schedule arrangement; however, this does not necessarily prohibit English language learners from taking a Foreign Language course as an elective. English
language learners applying to enroll in the full International Baccalaureate Diploma Program are not able to benefit from the English language support that the Upper School EAL program provides; however, they may have the option to take the Group 2 English B language acquisition course at a Higher Level, which is run by a teacher of EAL. English language learners wishing to pursue Advanced Placement (AP) courses will need to achieve a composite WIDA literacy score of 4, or higher, which is the current minimum English language entry requirement for these challenging college-level classes. Students taking Advanced Placement courses who score within the WIDA Level 4 band for Literacy must take either the EAL 3 or EAL 4 Advanced Composition & Grammar course to help them advance to at least the WIDA Level 5 band.

Transition Procedures

Lower to Middle School
At the end of the school year, a meeting with the Lower School and Middle School EAL Departments and Heads of Sections is held to discuss individual ELLs in the program. During this meeting, WIDA scores and the level of need are shared and discussed. As these students have already taken a WIDA Model assessment at the end of the school year, there is no need to re-assess them in Middle School in August.

Middle to Upper School
In May, a meeting between the Middle School EAL Specialist, Head of Middle School, Upper School EAL Specialist, and Upper School Academic Dean is held to discuss individual ELLs in the program. During this meeting, WIDA scores and the level of need are shared and discussed. As these students have already taken a WIDA Model assessment at the end of the school year, there is no need to re-assess them in Upper School in August.

EAL Monitoring & Reporting Procedures

Lower and Middle School Monitoring and Reporting Procedures
There are four stages of support within the Lower and Middle School EAL Programs. We offer Active Support (+), Active Support, Monitor (+), and Monitor based on the level of support needed. Please refer to the EAL Support in Lower and Middle School section for further information.

Active and Active (+)
Students that score within the WIDA Level 3 band or below overall are placed in the Active or Active (+) stages of the Lower and Middle School EAL programs, receiving a combination of in-class and pull-out support. The approaches are similar for Active and Active (+); however, the Active (+) designation recognizes WIDA levels 1 and 2 Middle School students whose native language employs a non-Latin/Roman script. The introduction of a new script in the Middle School years requires greater EAL support and time to progress in the reading and writing domains. In Middle School, students in either Active or Active (+) receive direct EAL instruction in place of a foreign language.

Monitor (+)
Students that score within the WIDA Level 4 band overall are placed in the Monitor (+) stage of the Lower School EAL program, receiving limited in-class support. Students that are new to the TASIS England Lower School who score within the Level 4 band for the initial assessment will be placed directly within the Monitor (+) stage of the program at the start of the academic year. Although the WIDA MODEL assessment is usually given to students at the end of the academic year, students demonstrating that they are functioning independently in class are able to take the WIDA MODEL assessment at transition points throughout the year should the Class Teacher and the EAL Teachers agree that the student is ready to transition to Monitor (+) status. Students that do not score within the Level 4 band will usually not transition to Monitor + status and they will continue with the support model in place.
TASIS England Language and EAL Policy

15 April 2023

An ELL with a WIDA level 3 or 4 in the Middle School, receives limited in-class support. Students in Sixth Grade take a Language Arts course with ample time for classwork support and additional language instruction. Students in Seventh or Eighth Grade take a foreign language and may be enrolled in the EAL class twice per week or may be pulled out of one of their specialist classes once or twice per week. At the beginning of the year, a language plan with long term objectives – which are set by the student, the core teachers, and the EAL teacher – is set up and is evaluated and evidenced at the end of each semester. The core teachers, with the support of the EAL teacher, take on most of the academic responsibilities. The Advisor is supported by the EAL teacher for any social or emotional concerns.

Monitor
Students who are being monitored do not receive in-class support. In order to move to Monitor status, these students must have a minimum of Level 4 in both the Reading and Writing sections of the WIDA assessments. Students remain on Monitor for a minimum of one full academic year. In Middle School, these students can use Study Hall time to get additional support as and when needed.

Lower School Reporting
All students receiving EAL Active Support will be provided with a narrative that accompanies the Grade Report at the end of each trimester. Students on the Monitor (+) stage of the program will have additional comments made by the EAL Teachers within the Grade Report. Students on Monitor do not receive EAL comments on their Grade Reports. Parents are formally invited to meet with the EAL Teacher around the time of Parent-Teacher Conferences in the month of November to discuss the progress of their child(ren) and as and when required throughout the academic year.

Middle School Reporting
English Language Learners receiving EAL Active Support receive quarterly EAL narratives, and students with Monitor (+) status will receive an EAL narrative each semester. Students on Monitor do not receive EAL reports unless the student is having difficulties progressing to the WIDA scale in a particular area. Similar to Lower School, parents are formally invited to meet with the EAL Teacher around the time of Parent-Teacher Conferences in the month of November and again in the Spring to discuss the progress of their child(ren).

Upper School Monitoring and Reporting Procedures

Grade Reports
TASIS England’s learning management system (LMS) provides an open gradebook that allows students and parents instant and continuous access to grades, grade comments and reports to track and monitor progress. At the end of the First and Third Quarter of the school year, Upper School teachers of all courses, including EAL and International Section classes, are required to write grade reports for their students, to which a generic curriculum note, and a detailed individualized student comment is added. This process is repeated at the end of the Second and Fourth Quarter of the school year, albeit without the detailed student comment. However, if a student is placed on academic monitoring or academic probation, an individualized comment must be added at these junctures.

Academic Monitoring & Probation
Teachers of students placed on academic monitoring or academic probation are expected to write quarterly reports and provide additional written comments on approximately three designated dates throughout each semester. These reports are entered into our school’s fully integrated database and shared with the student, parent, Advisor, Head of Upper School, Academic Dean, AP or IB Coordinator (if applicable), and the Upper School Learning Resource Coordinator. Students of EAL are not automatically placed on academic monitoring or academic probation; this added layer of monitoring is only applied in cases where teachers are more circumspect about a student’s academic progress and express concerns that deserve special attention.

TASIS England is committed to safeguarding and promoting the welfare of students and expects all staff and volunteers to share this commitment. It is our aim that all students fulfill their potential.
Parent-Teacher Conferences
The Upper School hosts its annual Parent-Teacher Conferences in the middle of the First Semester of the school year, during which time parents have the opportunity to book appointments and meet with their child(ren)’s teachers to discuss their progress. Given that most of the students enrolled in the Upper School EAL program are from overseas and live in the boarding residences, many of their parents may not be able to attend this particular event; however, parents can arrange a 30-minute conference at any point during the academic year that is attended by all their child(ren)’s teachers and Advisors and presided over by the Upper School Administration.

EAL Exit Criteria (Lower, Middle and Upper Schools)

Lower and Middle Schools
Students who have been monitored for a minimum of one full academic year may exit the program. In the Lower School, the decision is taken in conjunction with the EAL Teachers, the class teacher, the Head of Lower School and the Lower School Student Services Team (SST), if necessary. In the Middle School, the decision is made in collaboration with the EAL Teacher, Core Class Teachers and Head of Middle School.

Upper School
EAL student performance and work are closely monitored by the EAL teachers, the International Section teachers, the AP and IB Coordinators and the Academic Dean to determine whether the student demonstrates adequate English proficiency to become fully mainstreamed. Decisions for exiting English Language Learners from the EAL Program are typically based on some or all of the following:

- Formative and summative assessments (including the WIDA Screener & WIDA MODEL)
- Teacher recommendations
- Grade/Progress Reports
- Classroom observations
- Academic achievement

Successful completion of EAL 3 and/or EAL 4 Advanced Composition & Grammar, with a minimum composite score of 5 on the WIDA MODEL summative assessment taken at the end of the school year would typically result in an English Language Learner exiting the EAL Program and becoming fully mainstreamed in the following academic year.

There are rare occasions when an English Language Learner in the Upper School EAL Program transitions to a higher-level EAL course – or exits the EAL Program altogether – at the midpoint of the school year. This can occur when learners make significant advances in their English language development over a short space of time. Students that fall into this category may be asked to take the WIDA MODEL assessment under the supervision of their EAL Teacher prior to the end of the First Semester. If the outcome of this assessment indicates that such a move would be in the best interest of the learner and a Second Semester transition is supported by the learner’s current teachers, the Academic Dean will approve and carry out the necessary schedule alterations.

Assessment Accommodations

Lower School
EAL students may take the Lower School Writing Assessments and standardized assessments in the EAL room with additional breaks and appropriate accommodations, such as the use of an appropriate bilingual dictionary, having oral directions and questions read aloud and extended time. Accommodations depend on the needs of the individual student and are not limited to the aforementioned. Students in the Active Support phase of the program may be exempt from taking the standardized tests (or certain sections of these tests), until deemed ready by the class teacher, EAL Teachers, Head of Lower School and the Lower
TASIS England Language and EAL Policy

15 April 2023

School SST (if necessary). Students receiving Active Support and on Monitor + may benefit from alternative assessment methods for in-class assessments, these are revised for the following academic year in Lower School.

**Upper School**

For students enrolled in the College Preparatory Diploma Program, any modifications made to tests or testing conditions that allow candidates with limited English language ability to demonstrate their knowledge and skills in a testing situation is usually left to the discretion of the students’ teachers, since they know the skills, they are intending to measure and how this would affect the validity of the tests. For English language learners with learning disabilities, specific assessment accommodations and modifications will be recommended to the relevant subject teachers by the Upper School’s Learning Resource Specialists.

Formal requests for assessment access requirements by candidates of the International Baccalaureate Program, the Advanced Placement courses, and the ACT and SAT tests will need to be submitted to the relevant governing bodies, who will determine the appropriate supports, if approval is granted.

**Home Language Development**

English Language Learners are encouraged to use home language materials where appropriate, and students in the higher grades are encouraged to read the texts studied in class in their home language if the translated versions are available. Students have the option of using their home language for academic activities where appropriate and dual language writing is encouraged to enable students to access tasks and engage in higher level thinking. The Lower, Middle and Upper School libraries have a collection of foreign language books which are available to all students and specific texts are recommended to students to support their learning of particular units. There is also a growing collection of used foreign language books in the Upper School’s International Center.

The importance of maintaining and developing Home Language languages is transmitted to both parents and faculty through parent-teacher conferences, professional development sessions, meetings and workshops with parents of students in the EAL program.

School-supported Home Language Clubs may be run by suitable volunteers in the Lower & Middle School’s during recess, depending on interest. Where possible, Upper School students, who share a common Home Language, support students within the classroom during the school day as part of the Community Service Program (CSP) and CAS. The Language Ambassador Program is a Lower School initiative, whereby students who speak a different language at home are able to use these skills to promote their language and help others with a shared language within the community. Roles will involve liaising with new students who speak the same language, promoting their language in their class and at Lower School assemblies, contributing to visual displays promoting their language and representing their home language in diverse situations.

**WIDA and Assessment**

**WIDA English Language Development Standards**

WIDA has established five key English language development standards that represent the social and academic language students need to be successful in early childhood programs and Grades K-12: Social and Instructional Language, which incorporates proficiencies needed to deal with the general language of the classroom and the school; the Language of Language Arts; the Language of Mathematics; the Language of Science; and the Language of Social Studies. These standards promote academic language development across four core content areas and the role of all teachers as teachers of language and literacy. The English Language Development Standards also correspond with College and Career Readiness Standards (CCR), including Common Core Standards, Next Generation Science Standards, and other state content standards.

**WIDA Performance Definitions**

The WIDA ELD Standards divide the continuum of language development into six proficiency levels. These six levels are described by the WIDA Performance Definitions, which outline the progression of English language development.

At the given level of English language proficiency, learners will **process, understand, produce or use**:

| WIDA 6 Reaching | - specialized or technical language reflective of the content areas at grade level  
|                 | - a variety of sentence lengths of varying linguistic complexity in extended oral or written discourse as required by the specified grade level  
|                 | - oral or written communication in English comparable to English proficient peers |
| WIDA 5 Bridging | - specialized or technical language of the content areas  
|                 | - a variety of sentence lengths of varying linguistic complexity in extended oral or written discourse, including stories, essays or reports  
|                 | - oral or written language approaching comparability to that of English proficient peers when presented with grade level material |
| WIDA 4 Expanding | - specific and some technical language of the content areas  
|                   | - a variety of sentence lengths of varying linguistic complexity in oral discourse or multiple, related sentences or paragraphs  
|                   | - oral or written language with minimal phonological, syntactic or semantic errors that do not impede the overall meaning of the communication when presented with oral or written connected discourse with sensory graphic or interactive support |
| WIDA 3 Developing | - general and some specific language of the content areas  
|                  | - expanded sentences in oral interaction or written paragraphs  
|                  | - oral or written language with phonological, syntactic or semantic errors that may impede the communication, but retain much of its meaning, when presented with oral or written, narrative, or expository descriptions with sensory, graphic or interactive support. |
| WIDA 2 Beginning  | - general language related to the content areas  
|                  | - phrases or short sentences  
|                  | - oral or written language with phonological, syntactic, or semantic errors that often impede the meaning of the communication when presented with one-to-one multiple-step commands, directions, questions, or a series of statements with sensory, graphic or interactive support. |
| WIDA 1 Entering  | - pictorial or graphic representation of the language of the content area  
|                  | - words, phrases or chunks of language when presented with one-step commands, directions, WH-, choice or yes/no questions, or statements with sensory, graphic or interactive support  
|                  | - oral language with phonological, syntactic, or semantic errors that often impede meaning when presented with basic oral commands, direct questions, or simple statements with sensory, graphic or interactive support. |

**The WIDA Screener and The WIDA MODEL**

**WIDA Screener (Paper-based)**  
The WIDA Screener is an assessment that is built upon the English Language Development (ELD) Standards and designed to provide an initial measure of a student’s English language proficiency in Grades 1-12. The purpose of this assessment is to help the EAL Department make decisions about and identify a student as a candidate for our English language support services. The WIDA Screener is divided into five grade-level clusters: 1; 2-3; 4-6; 6-8; and 9-12. Each grade-level cluster has an Entry Task and four domain tests, one in each of the four language domains (Speaking, Writing, Listening, and Reading). The students usually complete the Entry Task first, which consists of a speaking and writing component. Once students complete the Entry Task, they will complete Path A. Path B is designed to address the needs of newcomer students and to allow those students at the beginning stages of English language development an opportunity to respond to a limited number of tasks appropriate to what they may be able to do. English Language Learners enrolled in the Upper School should have already reached a level of language proficiency that would rule out the Path B option, so the completion of the Entry Task is not necessary. See [WIDA Screener Interpretative Guide for Score Reports Grades 1-12](#) for further information related to the scoring of this test.

**WIDA MODEL (Paper-based & Online)**  
The WIDA MODEL Paper & Online are similar language proficiency tests to the WIDA Screener Paper, in so far as it provides opportunities for K-12 English Language Learners to demonstrate proficiency in speaking, writing, listening and reading. It is also divided into five grade-level clusters. The main difference in purpose is that it is typically used as an interim assessment that can be administered at any point during the school year to help determine if learners are on track with their English language development. We may also use the WIDA MODEL Paper scores to support recommendations for exiting students from our English language support services - or to reconfigure the level of English language support they receive. This is, however, inclusive of other criteria such as teacher recommendations and performance in content classes. See [WIDA MODEL Interpretative Guide for Score Reports Grades 1-12](#) for further information related to the scoring of this test.

TASIS England is committed to safeguarding and promoting the welfare of students and expects all staff and volunteers to share this commitment. It is our aim that all students fulfill their potential.
In the Upper School, all learners enrolled in a course of EAL will be required to take the WIDA MODEL Paper toward the end of the school year for the following reasons:

- The EAL department can analyze the data that the test scores yield in order to identify general patterns of language strengths and weaknesses that might inform a more effective pedagogical approach in future years.
- The WIDA MODEL Paper scores provide additional assessment data that helps teachers of the EAL, and International Section courses make informed decisions about appropriate course placement and schedule arrangements for the following academic year.
- The WIDA MODEL Paper scores assist the IB and AP coordinators in making determinations of suitability for student enrolment in the IB Diploma Program or in challenging Advanced Placement courses.
- The students will have the experience of taking a rigorous English language test, the result of which can give some indication of how they would likely fare in a standardized test of English. The EAL department’s score comparison chart (App. B) can be consulted if students wish to know how their WIDA MODEL Paper composite scores might compare to the loosely aligned band scores of TOEFL iBT, IELTS, and Cambridge English. This is of particular interest to our non-native English speakers who are thinking about, or who are in the process of, applying to university.

**EAL Department Responsibilities**

- **Lower School**
  - Liaise with Admissions and the Lower School Student Services Team to identify and assess EAL students.
  - Manage the administrative data associated with the EAL program.
  - Develop and update EAL learner profiles detailing linguistic, cultural, experiential and social & emotional assets in accordance with the WIDA Can Do Philosophy.
  - Establish the support model and schedule specific times for support in conjunction with the class teachers.
  - Provide Language Acquisition sessions for students in pull out sessions.
  - Support class teachers with the differentiation of activities for students and assist them with sourcing appropriate material or modifying material during established co-planning times.
  - Meet with class teachers regularly to discuss student progress, targets, accommodations and other issues.
  - Provide EAL students with regular feedback regarding their progress and encourage reflection on their own progress.
  - Work closely with the Middle and Upper School EAL teachers to secure and maintain excellent communication and continuity of practice.
  - Liaise with the Learning Resource Center (LRC) where a lack of progress suggests SEN.
  - Provide guidance and in-service training on in-class strategies to support EAL learners and suggest relevant professional development activities for faculty.
  - Liaise with the Lower School Librarian and class teachers regarding provision of books and where possible provide students with access to books in home language and culturally relevant texts.
  - Celebrate the cultural diversity of the school population by participating in multicultural activities and community events that promote international mindedness.
  - Conduct individual and group assessments towards the end of the academic year, using the WIDA Model assessment tool, the main purpose of which is to measure language proficiency growth.
  - Write narratives for students receiving Active Support to accompany Grade Reports.
  - Provide information in written form regarding WIDA assessments.
  - Host periodic meetings for parents of students in the EAL program to discuss pertinent issues.
  - Meet with parents to discuss student progress.
● Middle School
- Liaise with the Head of Middle School to identify and monitor EAL students.
- Manage the administrative data associated with the EAL program.
- Develop and update EAL learner profiles detailing linguistic, cultural, experiential and social & emotional assets in accordance with the WIDA Can Do Philosophy.
- Establish the support model and schedule specific times for support in conjunction with the core class teachers.
- Provide Language Acquisition sessions for students in pull out sessions.
- Support class teachers with the differentiation of activities for students and assist them with sourcing appropriate material or modifying material during established co-planning times.
- Meet with class teachers regularly to discuss student progress, targets, accommodations and other issues.
- Provide EAL students with regular feedback regarding their progress and encourage reflection on their own progress.
- Work closely with the Lower and Upper School EAL teachers to secure and maintain excellent communication and continuity of practice.
- Liaise with the Learning Resource Center (LRC) where a lack of progress suggests SEN.
- Provide guidance and in-service training on in-class strategies to support EAL learners and suggest relevant professional development activities for faculty.
- Liaise with the Middle School Librarian and class teachers regarding provision of books and where possible provide students with access to books in home language and culturally relevant texts.
- Celebrate the cultural diversity of the school population by participating in multicultural activities and community events that promote international mindedness.
- Conduct individual and group assessments towards the end of the academic year, using the WIDA Model assessment tool, the main purpose of which is to measure language proficiency growth.
- Write narratives for students receiving Active Support and, on the Monitor, (+) stage of the program to accompany Grade Reports.
- Provide information in written form regarding WIDA assessments.
- Host periodic meetings for parents of students in the EAL program to discuss pertinent issues.
- Meet with parents to discuss student progress.

● Upper School
- Identify students in need of EAL support upon entry into the school by conducting individual and group assessments using the WIDA Screener assessment tools.
- Develop and update EAL Learner Profiles detailing linguistic, cultural, experiential and social & emotional assets in accordance with the WIDA Can Do Philosophy.
- Design and deliver courses of EAL at WIDA levels 2-5 (CEFR A2 – C1) to multi-grade classes, using content-based instruction rooted in the principles of Communicative Language Teaching as a means of developing linguistic ability.
- Design and update rigorous unit plans to be built into the school’s curriculum mapping software that outline learning activities linked to appropriate WIDA language development standards.
- Make regular use of the school’s Learning Management System (LMS) and Google Classroom to post course-related information, homework assignments and deadlines, attendance records, e-learning resources, grade and comment entries, and quarterly grade reports.
- Attend parent-teacher conferences.
- Provide EAL students with regular feedback, both orally and through accurate and detailed marking, and ensure they regularly respond to feedback and reflect on their own progress.
- Advocate for English language learners by facilitating community involvement and empowerment, fostering intercultural understanding and aiding mainstream teachers of learners with diverse language backgrounds who may struggle to access content curriculum.
- Work closely with the Lower and Middle School EAL teachers, as well as the teachers of sheltered courses, to secure and maintain excellent communication and continuity of practice.
- Liaise with the Learning Resource Center (LRC) where a lack of progress suggests SEN.
- Provide guidance and in-service training on in-class strategies to support EAL learners and suggest relevant professional development activities for faculty.
- Assist the University & College Counselling Team by writing letters of recommendation at the request of students.
- Liaise with the Upper School Librarian regarding provision of books and where possible provide students with access to books in home language and culturally relevant texts.
- Celebrate the cultural diversity of the school population by participating in multicultural activities and community events that promote international mindedness.
- Conduct individual and group assessments using the WIDA Model assessment tool, the main purpose of which is to measure language proficiency growth.
EAL Learner Profiles and Language Plans

- **Learner Profiles**

  Green book icons are displayed on the LMS against the names of students identified as English Language Learners, so users will know that an EAL Learner Profile has been created for those students. The EAL department creates EAL Learner Profiles that are designed to capitalize on English Language Learners’ interests, strengths, and cultural and linguistic backgrounds to support language development and academic success. The EAL Learner Profiles can be easily accessed by class teachers, specialist teachers and the Student Support Teams on the school’s LMS homepage under the heading ‘Faculty Links’ and via a red link that reads, ‘TASIS EAL Learner Profiles 2020-21’. Teachers of English Language Learners can use the Profiles as planning tools to facilitate effective instructional strategies for differentiation and scaffolding.

**Language Plans**

In the Lower School, students receiving Active Support also have a Language Plan reflecting their trimester language objectives which are set by the EAL Teachers and the class teacher. These targets are reviewed at the end of each trimester with the classroom teacher and new targets are set. Students on Monitor (+) have a long-term objective which is reviewed at regular points throughout the academic year. Student progress for all students is reviewed at the end of each trimester and support adapted as necessary.

In the Middle School, students receiving Active Support also have a Language Plan reflecting their quarterly language objectives which are set by the EAL Teacher and the student. These targets are reviewed at the end of each quarter with the student and new targets are set. Students on Monitor Plus have a Semester long term objective which is reviewed at regular points throughout the academic year. This target is set by the student, EAL Teacher, and the Core Class Teachers. Student progress for all students is reviewed at the end of each semester and support adapted as necessary.

**Teacher Responsibilities (Whole School)**

Teachers of English language learners across the whole school are expected to use the WIDA Can Do Descriptors in conjunction with the EAL Learner Profiles as planning tools to facilitate effective instructional strategies for classroom differentiation and scaffolding. This is particularly important in the Upper School, where the push-in and pull-out models of support are not regularly applied and opportunities for the EAL specialists and mainstream teachers to collaborate are limited. The Can-Do Descriptors are based on the WIDA ELD standards and are presented in grade clusters but are also aligned to the WIDA Performance Definitions attached to each of the six proficiency levels. The Can-Do Descriptors give teachers a basic overview of what an English Language Learner should be able to do within all four language skill domains (speaking, listening, reading and writing), depending on their level of proficiency, and can be obtained from the school’s curriculum planning software, Atlas Rubicon. The EAL Learner Profiles can be easily accessed by teachers on the LMS class pages via embedded hyperlinks. Teachers can work with these tools independently and/or in collaboration with the available EAL specialists to implement effective support strategies as part of their ongoing unit planning. Teachers receive regular in-service guidance to help support English Language Learners in the mainstream classroom, as well as opportunities for training provided by outside agencies. At the beginning of the school year, teachers of English Language Learners are also provided with a set of Tips for Teachers of ELLs to help support English Language Learners in the mainstream classroom.

**Parental Involvement**

- **Lower School and Middle School**

  The Lower and Middle Schools strive to establish rich and enduring relationships with all parents and the EAL departments regularly organize parent meetings for the parents of students in the EAL program. These meetings provide opportunities for the parents to build relations with each other as well as with the EAL department. Meetings focus on explaining the program, basic
procedures within Lower and Middle School, questions and queries, how to support children at home with their schoolwork and reading as well as developing their home language further. Parents are encouraged to participate in the community life of the Lower School, embracing the mission of the school and promoting International mindedness.

- **Parent English Classes**

To ensure all parents feel part of the community, TASIS England provides English classes for parents who do not speak English as native language. The classes are aimed at building confidence in speaking and communicating in different social situations. We also want to ensure that families understand what is happening in our community. After the classes there is an opportunity to stay and socialize with other parents, in a fun and relaxing atmosphere. At the moment, classes are limited and subject to demand and availability.

**EAL Support in the Lower & Middle Schools**

A Lower and Middle School EAL Support program should ideally be designed to enhance the academic development of its young learners in several major areas of influence. In rough terms, the EAL program can be divided into support and language instruction facilitated by a combination of designated EAL classes and in-class support. Support is the help given to students in order to keep up with their mainstream subjects. Language instruction covers those EAL lessons where the intention is to develop the student’s English language proficiency.

- **Lower School EAL Support**

English Language Learners in the Lower School receive individualized support, determined by their needs in the classroom. Specialized support is provided for students in the Active Support phase of the program (WIDA levels 1, 2 and 3) either in a small group or individually. Support takes place in the form of specific sessions in the Lower School EAL Room and in-class support, depending on the needs of the student. Sessions in the EAL Room focus on the development of language skills by targeting specific areas of vocabulary and grammar in addition to supporting students with classroom-based activities that require additional time and support. In-class support focuses on making the content accessible to students and activities are scaffolded so that students can approach a task using the language skills that they have. In-class support sessions are planned regularly with the relevant classroom teachers focusing on the use of alternative materials and appropriate activities tailored to individual needs, including the use of home language materials. The classroom teacher and EAL teachers may co-plan and engage in co-teaching models, as appropriate. All students in Lower School will attend Foreign Language Instruction, with the exception of students who enter the program at a WIDA Level 1 and students in Grades 3 and 4 with a WIDA Level 1 or 2 (students in the Active Support phase of the program will not attend Foreign Language classes and will attend English Language Acquisition sessions). Additional Language Acquisition sessions are scheduled for these students during Foreign Language Instruction times. A student in Grade 3 or 4 who reaches a WIDA Level 3 proficiency level, is eligible to transition to Foreign Language at a transition point during the school year if this is deemed beneficial for the student. See Lower School EAL Progression Pathways Flowchart for further guidance.

- **Middle School EAL Support**

The Middle School EAL Program can be divided into four different levels of support, based on the student’s English language proficiency and native script:

**Active/Active (+) Support**

An English Language Learner with beginner level of English language proficiency will receive an intensive English course focusing on high frequency words and social interactions which takes place instead of Foreign Language classes. If additional support is
needed, the ELL can be excused from History and/or Science for a short period of time. When deemed ready by the EAL teacher, the student is eased into the History and Science class through pre-teaching and in-class support. In-class support may also be offered during English classes. In-class support sessions are planned regularly with the relevant core class teachers focusing on the use of alternative materials and appropriate activities tailored to individual needs, including the use of home language materials. The classroom teacher and EAL teacher may co-plan and engage in co-teaching models, as appropriate. The EAL lessons will continue during Foreign Language classes four times per week. The ELL receives a pass/fail grade unless they score 70% or more and they will not partake in any standardized tests like ERBs or Track My Progress. The EAL teacher takes on most of the academic responsibilities and supports the ELL’s Advisor for any social or emotional concerns. An individualized Language Plan is put in place and reviewed by the EAL Teacher and the student on a quarterly basis. This level of support is referred to as Active Support. ELLs for whom their native script is non-Latin, additional support is provided for phonics and handwriting in place of Science and/or History. This level of support is referred to as Active + Support.

Monitor (+) Support
An ELL with a WIDA level 3 or 4, receives in-class support during some History and Science classes. In-class support sessions are planned regularly with the relevant core class teachers focusing on the use of alternative materials and appropriate activities tailored to individual needs, including the use of home language materials. The classroom teacher and EAL teacher may co-plan and engage in co-teaching models, as appropriate. Students in Sixth Grade take a Language Arts course with ample time for homework support and additional language instruction. Students in Seventh or Eighth Grade take a foreign language and are enrolled in the EAL class twice per week. At the beginning of the year, a language plan with long term objectives - which are set by the student, the core teachers, and the EAL teacher - is set up and is evaluated and evidenced at the end of each semester. The core teachers, with the support of the EAL teacher, take on most of the academic responsibilities. The Advisor is supported by the EAL teacher for any social or emotional concerns. This level of support is referred to as Monitor (+).

Monitor Support
When the English Language Learners’ English proficiency level is at WIDA 5 with Reading and/or Writing on level 4 or above, they receive no scheduled EAL classes or in-class support. It is the student’s responsibility to meet with the EAL teacher when needed. This can be arranged during any Advisory time or Study Hall. The core teachers take on all academic responsibilities and the Advisor is responsible for any social or emotional concerns. This level of support is referred to as Monitor.

A meeting between the Middle School EAL Teacher, the Advisor, the Core Class Teachers, and Head of Middle School is held before an English Language Learner is moved from “Active Support” to “Monitor Plus” to “Monitor”. Alongside the student’s current WIDA level, current assessment, and attitude to learning are also taken into consideration. See Middle School EAL Progression Pathways Flowchart for further guidance (App A).

- Upper School EAL Support

The Upper School provides a four-tiered suite of English-as-an-Additional-Language courses as well as sheltered courses of English, history and science, designed to accelerate the academic language development of English Language Learners between the ages of 14 and 18. The courses are characterized as small, mixed-grade classes comprising multiple nationalities with an encouraging and positive approach to teaching.

Upper School EAL Course Allocation
After taking the WIDA Screener placement test at the very beginning of the school year, English Language Learners identified as requiring EAL support are placed in the appropriate level of the Upper School’s four-tiered EAL Program. Students taking EAL courses are not required to take a Foreign Language course but may be able to do so as an elective. Students placed in the EAL 1-3 courses are automatically placed in sheltered courses of history, science and English, in which appropriate language and
content learning objectives are integrated. Only students enrolled in an EAL course may take sheltered courses, although some students of EAL deemed prepared by their teachers often take mainstream courses, even when a sheltered course is available. This “blended schedule” arrangement typically applies to our more advanced learners in the EAL 3 and EAL 4 (Advanced Composition & Grammar) courses.

The sheltered courses are on par with their mainstream equivalents but make use of adapted material. They are intended to have fewer students in the classroom with teachers that are able to take into consideration the linguistic challenges encountered by those who are not yet proficient in English and make the necessary accommodations. The sheltered courses are also considered to be equivalent to mainstream courses for the purposes of departmental graduation requirements. Grades awarded in these courses are not weighted any differently than those in mainstream courses for Grade Point Average purposes. English language learners usually exit the EAL program and become fully mainstreamed once they have reached a high level of proficiency (WIDA 5+). Students enrolled in a course of EAL are expected to move at least one step along the continuum of WIDA’s six-point proficiency scale by the end of the academic year. Proficiency growth is measured using the WIDA Model assessment tool towards the end of the school year. See Upper School EAL Progression Pathways Flowchart for further guidance.

Graduation Requirement

TASIS England students must successfully complete a third-level proficiency Foreign Language or EAL course (EAL 3) by the end of their senior year in order to graduate with the College Preparatory Diploma.
Identification and Placement

The Lower and Middle School EAL Program

Lower and Middle School EAL at TASIS England

Children whose home language is not English receive specialized assistance in our Lower and Middle Schools. Once a child’s proficiency is assessed, our specialist English Language teacher uses two proven approaches to help children acquire and improve their skills in English.

Push-In

*Using this method, the specialist goes into the individual child’s class to assess his or her proficiency, to work with the classroom teacher to support learning, and to formulate ways to engage and encourage the child as he or she progresses. Lower School students respond particularly well to this method. The EAL Specialist will also work in small groups that may incorporate mainstream students and include language specific strategies and focus.*

Pull-Out

In this scenario, the child leaves his or her classroom and works with the specialist in a small group setting or one-on-one. This way, the English Language teacher can introduce and practice important aspects within the four modalities: listening, speaking, reading, and writing. Students who do not have a level of proficiency that allows them to take an additional foreign language (Spanish/ French), will receive specific English language instruction instead focusing on key vocabulary, language usage and grammar.

In the Middle School, support is provided through teacher differentiation, as well as push-in and pull-out support. Pull-out support is offered as a stand-alone class where students attend up to four times per week as a part of their middle school schedule. Classes are tailored to students’ individual English language needs.

The combination of these methods helps children build confidence as they learn to communicate in English. With the introduction of each learning module and activity, the child’s age, cognitive development, and baseline proficiency is considered, and frequent assessment is conducted to measure progress.

The Upper School EAL Program and International Section

College Preparatory Diploma Requirements

Graduation from TASIS England English requires 19 credits. The requirements reflect the School's commitment to a balanced college preparatory program and the fact that students should gradually take more responsibility for decisions about their academic program; they receive guidance each year at the time of course registration.

Total Credits required:19
Department Requirements

**English** 4 credits

**History** 3 credits
TASIS England students will take Ancient & Medieval World in Grade 9 and either Western Civilization or AP European History in Grade 10. In addition, all students who are not IB Diploma Candidates must earn a credit in US History.

**Foreign Language & EAL** 2 credits
Third-level proficiency in a modern foreign language or English-as-an-Additional Language (EAL). If a student has completed the second-level proficiency in Latin, a further two levels of a modern language will satisfy this requirement. Students must satisfactorily complete at least two levels in the same language in Grades 9–12.

**Mathematics** 3 credits
Algebra II is a required course

**Science** 3 credits
Must include three laboratory sciences

**Arts** 1 credit

**Humanities** 1 credit
Required in Grade 12; IB candidates in Grades 11/12

**Physical Education** 1 credit (not a college-preparatory credit) Required course in Grades 9 and 10

**Sports/Activities**
Students in Grades 9 through 12 are required to participate in the afternoon Sports/Activities Program a minimum of twice per week.

**College Guidance Course**
Students in Grades 9 through 12 are required to participate in this four-year College Guidance course.

**Community Service Program**
Students in Grades 9 through 12 complete a CSP assignment on or off campus
Students in Grades 9 and 10 must complete 10 hours
Students in Grades 11 and 12 must complete 20 hours IB Candidates: Creativity, Activity, Service (CAS) requirement

**American Civic Literacy Competency**
Normally completed through US History or IB TOK

Students attending TASIS England for more than two years must accumulate a total of 19 credits in college-preparatory courses in order to graduate.
**All Other English Language Programs Offered at TASIS England**

**Lower School**

**Early Years Language Arts**
**Focus:** Speaking, Understanding, Listening, Phonemic Awareness, Reading, and Writing  
Examples: expression opinions, narrating a poem, breaking down words into syllables, letter sounds, print awareness and use of illustrations, pencil grip, and practice of fine motor skills.

**Kindergarten Language Arts**
**Focus:** In Kindergarten, language arts instruction focuses on early phonemic awareness and reading skills. Students also build their foundation skills for writing, speaking, and listening.

**Grade 1 Language Arts**
**Focus:** In First Grade, language arts instruction builds on prior reading, writing, speaking, and listening skills to help students become independent readers and writers.

**Grade 2 Language Arts**
**Focus:** In Second Grade, students continue to build important reading, writing, speaking, and listening skills.

**Grade 3 Language Arts**
**Focus:** In Third Grade, students think, talk, and write about what they read in a variety of materials including articles, books, and electronic texts.

**Grade 4 Language Arts**
**Focus:** In Fourth Grade, students continue to build important reading, writing, speaking, and listening skills like analyzing narrative elements of text, understanding implied meaning in text, creating organized pieces of writing and developing informative and explanatory writing.
All Other English Language Programs Offered at TASIS England

Middle School English and Language Arts:

Grade 5 Language Arts
The reading curriculum offers a full range of vocabulary, comprehension, study skills, listening, and speaking activities. Children read stories, poems, plays, folktales, biographies, true-to-life narratives, and full-length novels. Our multiple-copies literature collection, the classroom library collections, and the school library collection are continuously maintained to encourage children to read about a broad spectrum of ethnic, social, and cultural situations and to help them understand the common humanity of the world community—past and present. Reading skills are strengthened and reinforced in all of the subject areas. Children are encouraged to read independently for their own enjoyment, in addition to daily home reading, book sharing, reading journals, and other book related projects.

To complement the reading curriculum, a full range of written and spoken communication skills, collectively described as language arts, are also taught. Spelling, composition, narrative and analytical writing, grammar, and vocabulary have a prominent place in the weekly schedule with the use of Scott Foresman’s Everyday Spelling and Write Source as text resources. The basic skills learned in language arts are applied and practiced in other subject areas. (For example, the skills of outlining and note taking would be used in history lessons.) Speaking and listening skills are reinforced, largely through oral presentations in class and at regular assemblies.

The fifth-grade places great emphasis on process writing and the identification and use of evidence to support their claims. The children write every day, if possible, and share their pieces—in all drafts—with peers and their teacher. Selected works may be published and shared with classmates. Mini lessons and editing work focus attention on grammar, spelling and punctuation skills. There is carry-over into other subject areas as children progress in their writing throughout the year.

Language Arts Grade 6
This course is for students who need support in basic reading and writing skills. Admittance to this course is made in consultation with parents and teachers after a careful study of previous academic performance in core subjects. Developing language skills, including reading, writing, listening, and oral presentation, is the focus. Course content includes reading and writing skills, grammar, spelling, and mechanics. Grading is more flexible than in other courses. Language Arts is taken in addition to English and takes the place of a Foreign Language.

English Grade 6
In addition to developing an appreciation for different genres of literature, this course covers the basic English skills of grammar, vocabulary development, writing and oral expression. The goals are to recognize, comprehend, and apply principles of language usage, and to raise the level of reading comprehension and literary analysis. Literature is studied and analyzed through class studies of core novels that offer variety and encourage cooperative learning. Previously taught writing skills are reviewed and reinforced. New skills are introduced with regard to grammar, punctuation, spelling, vocabulary development, sentence structure, paragraph and essay development, and research. Creative and expository writing are taught, and students practice the writing process as they learn more about creative writing and expository writing.

English, Grade 7
Seventh grade English deepens the student’s awareness of, appreciation for, and understanding of literature and strengthens the basic skills of grammar, spelling, vocabulary, oral expression, listening, and writing. Where possible, skills are developed through the literature, and a variety of techniques are used to foster individual comprehension, curiosity, critical thinking, imagination, sensitivity, cooperation, responsibility, and confidence. Course content includes reading (the study of novels, poetry, and plays);
writing (creative writing, essay writing, book reports); grammar (including basic parts of speech and usage taken from student generated work and errors whenever possible); vocabulary; speaking experience (through presentations, reading, drama, and discussion); listening skills (through our day-to-day interaction and peer conversation); and finally, study skills (through the formal evaluation process).

English Grade 8
The eighth grade English course is designed to further students’ appreciation of different genres of literature (novels, plays, poetry) and a variety of writing domains, in addition to mastery of, and practice in the basic skills of grammar, spelling, and acquiring vocabulary. Particular time and attention are paid to the craft of writing and composition (essay, analytical, creative, research, oratory), preparing students for Upper School and formal writing requirements. Course content, activities, and literature are chosen to engage and appropriately challenge the reader. Emphasis is placed on the drafting of writing, spelling, grammar, research, critical thinking, effective oral interaction.

All Other English Language Programs Offered at TASIS England

Upper School

Ninth Grade English
This course will give students a solid foundation in the study of language and literature that is necessary for success in future academic courses. It is also meant to spark curiosity and inspire students to make connections between literature and their own lives. Students are introduced to a variety of genres centered around the theme of the conflict between the individual and society. Through careful study of authors’ uses of language and genre, students will hone analytical skills as they address this theme and others that arise. Students will explore the nuances of writers’ use of language across genres such as dystopian fiction, realism, persuasive nonfiction, epic poetry, and vignettes. Students will develop their own original interpretations, forming and supporting their own arguments. Authors studied may include Ray Bradbury, Sue Monk Kidd, Homer, Sandra Cisneros, Janet Wong, and William Shakespeare. We will also explore the themes relationships between self and society as we analyze works by contemporary poets Rupi Kaur, Joy Harjo, and Cleo Wade whose status as Instagram-famous poets adds an extra layer to our discussion of the individual in a broader societal context.

Tenth Grade English
This course continues the study of language and literature begun in the Ninth Grade English by building on their study of literature in a global context. Students read texts that are connected by topics such as culture, identity and transformation, from a variety of genres and time periods. They are also exposed to different perspectives through their readings. Key texts are by authors such as Chimamanda Ngozi Adichie, Jhumpa Lahiri, Luka Lesson, Gene Luen Yang, and William Shakespeare. Key principles of written communication are reinforced and developed, with additional emphasis on organization and refinement of critical and analytical skills.

English 9/10 International
English 9/10 International is designed to meet the needs of ninth and tenth grade EAL students who are not yet mainstreamed in all their core academic classes, but who are working toward fluency and eventual integration into mainstream classes. The main focus of the course is the study of literature while meeting the needs of the non-native speaker of English. Texts studied are mostly unabridged and, amongst others, include authors such as Wiesel, Green, Bradbury, Haddon, and William Shakespeare for his sonnets. Students develop an increasing ability to read closely and critically and to respond actively to the literature by evaluating the works and formulating relevant questions and opinions. Students improve their academic writing skills through production of short essays and also through personal writing in response to the works studied. Vocabulary development, oral and listening skills, as well as reading and writing skills are all emphasized.
Eleventh Grade English
This course utilizes key American texts in order to explore the features of American Literature and how those features have changed and evolved over time. Emphasis is placed on key writers representing the literary genres of autobiography, realism, bildungsroman, modernism, historical fiction, and non-fiction. American writers include Maya Angelou, F. Scott Fitzgerald, J.D. Salinger, Quon Barry, Sylvia Plath, and Jonathan Krakauer. A key component of the course is developing students’ intellectual curiosity about literature. Students will develop an appreciation of writers’ methods and the effect of those methods on the meaning of the text. This will involve close text analysis, comparative essays, and character analysis as well as poetry paired with select texts. To deepen their understanding of writers’ methods, students use core texts as an inspiration for their own writing. The course also examines key issues in America today where the modern lens is paired with timeless texts.

English 11 International
International English classes are designed for the non-native speaker of English who is working towards fluency in the English language. This course aims to parallel regular Eleventh Grade English but in a “sheltered” way. The main focus of the course is the study of American literature. Students will develop an increased ability to read closely and critically, and to respond actively to the literature by evaluating the works and formulating questions and opinions about them. The course also encourages students to make connections between contemporary issues with classic texts. The students are expected to improve their language skills through the study and application of vocabulary and grammar, the practice of writing and speaking, and the improvement of reading comprehension. The students in this class range from EAL 2 to EAL 4.

Advanced Placement English Language and Composition
This course is designed to satisfy the needs of junior students of superior ability who wish to take the College Board AP Examination in English Language and Composition. As in the Eleventh Grade English, students study the key writers and literary movements in American Literature. They explore in depth major concepts and themes associated with a nation’s identity. They are grounded in the specific skills required for College Board examination, particularly through synthesis and rhetorical analysis essays. Students are expected to hone those communication skills that have been established in previous English courses: careful and active reading, principles of effective analysis, presentation techniques, and effective writing. Enrollment requires a “B+” average in previous and current English classes, teacher recommendation, and Department Head permission.

Twelfth Grade English
Grade 12 English focuses on British literature by authors such as Fowles, Shakespeare, Stevenson, Wilde, and Wodehouse. The course will challenge students to embark on a literary journey through critical interpretation of text and rigorous development of their writing skills in a variety of assessments that extend beyond the traditional essay. Students will also pursue collaborative and independent research using multiple resources. They will investigate the fundamental questions of the human quest for identity in a variety of texts, images and themes. Students are expected to demonstrate excellent skills in grammar, advanced vocabulary, and written and oral expression.

English 12 International
International English classes are designed for the non-native speaker of English who is working toward fluency in the English language. This course parallels regular Senior English while meeting the needs of non-native speakers of English. The main focus of the course is the study of British literature. As the main focus of the course is the study of literature, students will develop their ability to read closely and critically, and to respond actively to the literature by evaluating the words and formulating relevant questions and opinions about them. The students are also expected to improve their language skills through the study and application of vocabulary and grammar, the practice of writing and oral skills, and the improvement of reading comprehension. The students in the class range in EAL 3 to EAL 4.
Advanced Placement English Literature and Composition

This course is designed for senior students of superior ability who wish to take the College Board AP Examination in English Literature and Composition. Students meticulously explore major concepts and themes from marginalized voices in society. They are grounded in the specific skills required for the College Board examination, particularly through writing short, analytical essays on poetry, prose, and drama. Strong emphasis is placed on careful and close reading. Students are expected to conduct research, compile assiduous notes, establish their own points of view, and explore the parallels between the literature and their own lives. Enrollment requires a “B+” average in previous and current English classes, teacher recommendation, and Department Head permission.

IB Language A: Literature Year

English/German/Italian/Russian/Spanish HL/SL

The teaching and assessment of any Language A will be conducted in that language. Through the study of a wide range of literature, Language A: Literature encourages students to appreciate the artistry of literature while developing an ability to reflect critically on their reading. Works are studied in their literary and cultural contexts, through close study of individual texts and passages, and by considering a range of critical approaches. In view of the international nature of the IB and its commitment to intercultural understanding, the Language A: Literature course does not limit the study of works to the products of one culture, or the cultures covered by any one language. The study of works in translation is especially important in introducing students, through literature, to other cultural perspectives. The response to the study of literature is through oral and written communication, thus enabling students to develop and refine their command of language. Language A: Literature is a flexible course that allows teachers to choose works from prescribed lists of authors and to construct a course that suits the particular needs and interests of their students. Throughout the two-year course, students keep a learner portfolio consisting of activities in which they respond critically or creatively to the texts studied in class. Official assessments include an analysis of an “unseen” literary passage (2 unseen passages at HL), a comparative essay on two literary texts, an individual oral, and a literary essay on a chosen text (HL only).

IB Language A: Language and Literature

English HL/SL

The Language and Literature course is aimed at both native speakers of English and students whose first language is not English but who have a high level of proficiency in the language. The course concentrates on both the study of literature and language. Students explore how language develops in specific cultural contexts, how it impacts the world, and how language shapes both individual and group identity. Students look at language and mass communication, focusing on the way language is used in the media, which will include newspapers, magazines, the Internet, documentaries, song, and film. We concentrate especially on how mass media use language and image to inform, persuade, and entertain. Students also concentrate on the relationship between literature and issues at large, such as familial relationships, power, and identity. We consider the changing historical, cultural, and social contexts in which particular texts are written and received. We also focus on literature, but our emphasis is on the critical study of the text where we explore the literary works in detail. Throughout the two-year course, students keep a learner portfolio consisting of activities in which they respond critically or creatively to the texts studied in class. Official assessments include an analysis of an “unseen” non-literary passage (2 unseen passages at HL), a comparative essay on two literary texts, an individual oral, and an essay on a chosen text (HL only).

IB School-Supported, Self-Taught A: Literature (Home Language)

In cases where the student’s home language is not offered, a student may be allowed to study his or her particular Language A as a school-supported self-taught Language A: Literature course (SL only) with the support of an external tutor and under the supervision of a school-appointed teacher.
**Other [IB/AP/Upper, Middle and Lower School] Language Programs Offered at TASIS England**

**Upper School**

**IB Language B**

**French B/German B/ Spanish B: HL/SL German A: Literature Year 1**

Language B is a language course designed for students with some previous knowledge of the target language and may be studied at SL or HL. The focus of the Language B course is on language acquisition and intercultural understanding. This course explores the core topics of Identity, Experiences, Social Organizations, Human Ingenuity, and Sharing the Planet. The course emphasizes the use of language for active communication. HL students will broaden their understanding of cultures through the reading of two works of literature. SL and HL students will develop their strategies for reading and their skills of interpretation and analysis in preparation for a written task, using short stories and magazine or newspaper articles. Students continue to work on the development of oral and written expression in order to be able to express themselves accurately and resourcefully in the target language, using correct register and format for a variety of written text types which include: formal/informal letters, journal entries, articles, interviews, speeches, etc. Students will be assessed on their ability to:

1. Communicate clearly and effectively in a range of contexts and for a variety of situations.
2. Understand and use language appropriate to a range of interpersonal and/or intercultural contexts and audiences.
3. Understand and use language to express and respond to a range of ideas with fluency and accuracy.
4. Identify, organize, and present ideas on a range of topics.
5. Understand, analyze, and reflect upon a range of written, audio, visual, and audio-visual texts

**IB School-Supported, Self-Taught A: Literature (Home Language)**

In cases where the student’s home language is not offered, a student may be allowed to study his or her particular Language A as a school-supported self-taught Language A: Literature course (SL only) with the support of an external tutor and under the supervision of a school-appointed teacher.

**Upper School IB Diploma Group 2 Courses**

**Language ab initio**

**French/ Spanish: SL**

The Language ab initio course is organized into five themes.

- Identity
- Experiences
- Social Organizations
- Human Ingenuity
- Sharing the Planet

Each theme has a list of topics that provide the students with opportunities to practice and explore the language as well as to develop intercultural understanding. Through the development of receptive, productive, and interactive skills, students should be able to respond and interact appropriately in a defined range of everyday situations. Each language ab initio course has a language-specific syllabus (see the Language ab initio guide “Syllabus content”) that is used in conjunction with the guide. Language ab initio is available at SL only. There are five assessment objectives for the language ab initio course. Students will be assessed on their ability to:

1. Communicate clearly and effectively in a range of contexts and for a variety of situations.
2. Understand and use language appropriate to a range of interpersonal and/or intercultural contexts and audiences.
3. Understand and use language to express and respond to a range of ideas with fluency and accuracy.

TASIS England is committed to safeguarding and promoting the welfare of students and expects all staff and volunteers to share this commitment. It is our aim that all students fulfill their potential.
4. Identify, organize, and present ideas on a range of topics.
5. Understand, analyze, and reflect upon a range of written, audio, visual, and audio-visual texts

Non-IB Upper School Language Course offerings

French I

The French 1 course is a language learning course for beginners and is appropriate for students who have never studied French. All four skills of communication, reading, writing, speaking, and listening are taught concurrently. Topics of study include the French education system, leisure activities, the family, food, eating out, clothing, travel, sports, and seasonal activities. Developing a sound knowledge of basic grammar and an interest in French speaking people, their countries, and their cultures are essential components of this course. Cultural readings in the target language supplement material taught in each chapter. All classes are taught in French. Textbook: Bien Dit 1, Houghton Mifflin.

French II

The French II course allows the student to expand his or her knowledge of basic French. This course can be a step towards the TASIS England graduation requirement of French III, and/or towards further study with a view to AP or IB French B in later years. French II develops the student’s ability to communicate in everyday situations, such as talking about home, families and friends, school, sports, clothing, towns, travel, health, and preparing and eating food. All four language skills are developed simultaneously, and all classes are conducted in French. Cultural readings in the target language supplement material taught in each chapter. More complex grammar and contextualized vocabulary are introduced alongside the thematic topics in a comprehensive program that encourages meaningful, practical communication by immersing students in the language and culture of the Francophone world. Textbook: Bien Dit 2, Houghton Mifflin.

French III

The French III course allows the student to expand his or her knowledge of basic French and fulfils the departmental language requirement. This third-year course is designed to build upon the skills acquired by students in the second year. Level 3 allows the students to enlarge and refine their vocabulary and improve their ability to understand and respond to the spoken and written language. In addition, students are introduced to literary texts and continue to explore the culture of countries in which the languages are spoken. Students’ progress to French IV or IB French B Year 1 from this course. Textbook: Bien Dit 3, Houghton Mifflin.

French IV

This is an advanced course in which students continue their study of the more complex points of grammar and also begin to develop skills for reading literature. This course will enable students to develop a higher level of proficiency and to appreciate the rich cultural diversity of the Francophone world through the study of films, songs, and literature. The course is conducted entirely in the target language. Core themes explored are Identity, Experiences, Social Organization, Human Ingenuity, and Sharing the Planet. Skills in oral communication are developed through conversation, discussion, and in-class presentations, as well as radio and television broadcasts, articles, short stories, and a novel. Students have access to a wide range of authentic materials of different styles and registers. This course provides preparation for students who wish to continue their study of French by taking the AP French Language and Culture course. Textbooks: Le Français dans le Monde, Cambridge University Press; Une Fois pour toutes, Pearson; Le Petit Prince, St. Exupéry; Le Petit Nicolas, Sempé et Goscinny; and materials drawn from a variety of other texts. Open to students in Grades 10, 11, and 12 with the permission of the Head of the Modern Foreign Language Department. For enrollment in AP courses, students should maintain at least a “B” average in previous French Language courses.

AP French Language and Culture

Students who enroll in this course will possess a strong command of grammar and considerable competence in listening, reading, speaking, and writing. The course takes a holistic approach to language proficiency and studies structures in context. Students
TASIS England Language and EAL Policy

15 April 2023

TASIS England is committed to safeguarding and promoting the welfare of students and expects all staff and volunteers to share this commitment. It is our aim that all students fulfill their potential.

engage in an exploration of culture in both contemporary and historical contexts and develop their awareness and appreciation of cultural products (e.g., books, films and music), practices (patterns of interaction) and perspectives (values, attitudes). A variety of authentic texts will be used to allow students to respond confidently and convincingly to written and spoken materials and develop a true appreciation and awareness of Francophone peoples and cultures. The course is structured around six themes: Families in Different Societies, The Influence of Language and Culture on Identity, The Influences of Beauty and Art, How Science and Technology Affect our Lives, Factors that Impact the Quality of Life, and Environmental, Political & Societal Challenges. Students will learn to communicate in writing to a specific purpose and audience, using correct register and format for a persuasive essay and a formal email. Oral practice includes debates, presentations, and interactive activities, in preparation for a presentational oral assessment. Textbooks: Allons au Delà, (Pearson); Une Fois pour toutes (Pearson); Preparing for the French Language and Culture Exam (Pearson); selected works of Literature, Phosphore magazine.

Non-IB Upper School Language Course offerings

**Spanish**

**Spanish 1**

Spanish I is an introductory course which is intended for students with little or no prior experience in Spanish. All four language skills (reading, writing, listening, and speaking) are emphasized equally and developed simultaneously. Topics of study focus on practical everyday situations. Related to the topic of Identity, students will learn to describe physical and personality traits, explain how someone is feeling, identify family relationships, and talk about food and drink. Related to a theme of Experiences we discuss classes, the school day, hobbies, shopping, and domestic chores. Further topics covered range from the calendar and seasons to extending invitations to places around town. Developing a sound knowledge of basic grammar is an essential component of this course. A variety of readings, videos, and websites are used to supplement material taught in each chapter, and to promote an interest in the Ibero-Hispanic World. Textbook: Realidades 1, Prentice Hall.

**Spanish 2**

The Spanish II course allows a student to expand his or her knowledge of basic Spanish. It can be a step toward the TASIS England graduation requirement of Spanish III, or toward study with a view to take AP or IB Spanish B in later years. All of these require the ability to communicate about everyday situations, such as doing chores at home, talking about family members, taking a trip, and preparing and eating food. All four language skills are developed simultaneously, and all classes are conducted in Spanish. Cultural readings in the target language supplement material taught in each chapter. More complex grammar and thematic, contextualized vocabulary are introduced alongside the above topics in a comprehensive program that encourages meaningful, and practical communication by immersing students in the language and culture of the Ibero-Hispanic world. Textbook: Realidades 2, Prentice Hall.

**Spanish III**

At the third level, more advanced grammar concepts are explored, and the study of the four skill areas continues with increased emphasis on advanced reading and writing skills. Students are also encouraged to improve their listening and speaking skills through informal class discussions, oral presentations, and language laboratory exercises. Perfecting a solid grasp of grammar and expanding one’s knowledge of Spanish-speaking people as well as their cultures are requisite aims of this course. (Topics discussed include holidays and leisure time, art and theater, food and health, relationships, community service, technology, and careers.) Discussions, readings, listening comprehension exercises, oral presentations, and independent research are integral components of this course. Literary extracts are introduced, as well as cultural topics involving personal research and oral presentations. This is the level at which a student should reach proficiency in the language required by TASIS England for graduation. Textbook: Realidades 3, Prentice Hall.

**Spanish 4**

Students who enroll in this course should already have a fairly in-depth command of the language and possess considerable proficiency in listening, reading, speaking, and writing. A variety of authentic texts will be used to allow students to respond
confidently and convincingly to written and spoken materials and develop a true appreciation and awareness of Hispanic peoples and cultures. This course continues to explore Hispanic culture using a thematic approach (Multicultural Spain, Health, Education, Family, Global issues, Environment, etc.) Students will learn to communicate to a specific purpose and audience, using correct register and format for a variety of text types such as letters, journals, articles, dialogues, speeches, etc. Materials used include songs, literary texts, and news articles, as well as debate activities, research, and oral presentations. Textbooks: Español B (Pearson); Una vez más (Pearson); Cuadernos de gramática Española (Difusión) and a reading book: La lengua de las mariposas (Wayside)

**AP Spanish Language and Culture**

1 credit

Students who enroll in this course will possess a strong command of grammar and considerable competence in listening, reading, speaking, and writing. The course takes a holistic approach to language proficiency and studies structures in context. Students engage in an exploration of culture in both contemporary and historical contexts and develop their awareness and appreciation of cultural products (e.g., books, films, and music), practices (patterns of interaction) and perspectives (values, attitudes). A variety of authentic texts will be used to allow students to respond confidently and convincingly to written and spoken materials and develop a true appreciation and awareness of Hispanic peoples and cultures. The course is structured around six themes: Families in Different Societies, The Influence of Language and Culture on Identity, The Influences of Beauty and Art, How Science and Technology Affect our Lives, Factors that Impact the Quality of Life, and Environmental, Political & Societal Challenges. Students will learn to communicate to a specific purpose and audience, using correct register and format for a variety of texts such as emails, formal and informal letters, articles and persuasive essays. They will also participate in debates, guided dialogues, research projects, and oral presentations. Textbooks: Preparing for the AP Spanish Language and Culture Exam (Pearson); Una vez más (Pearson); Abriendo paso (OU).

**Mandarin I**

1 credit

A first-year course in elementary Mandarin, this course includes the study and practice of the basic skills of speaking, listening, reading, and writing with emphasis upon correct oral expression and aural comprehension. Students learn basic vocabulary words and sentence patterns. Students learn to understand and use the Mandarin phonetic system (pinyin), pronunciation, and tones. Students also learn to use the Chinese writing system (Chinese characters and computing typing). At the end of the year, students will have developed a beginner’s vocabulary which includes numbers, name, age, nationality, family, time, date, daily routines, and colours so that they can communicate at a basic level in the language. Cultural topics may include the history of the Chinese language and traditional Chinese festivals. Textbook: Easy Steps to Chinese 1 (Ma and Li).

**Mandarin II**

This course is a continuation course designed for students who already have the basics of Chinese learned either through taking Chinese I or through some other relevant experience. Building on the skills acquired in Chinese I, this course will help students improve their vocabulary, as well as enhance their listening, speaking, reading, and writing ability. This course introduces students to more complex sentence structures which students will learn to use comfortably in talking about school subjects, weather, hobbies, food, and drink. Additionally, the course will continue to integrate aspects of Chinese culture into the language learning experience. The class is conducted in Mandarin to the greatest degree possible to develop aural-oral competency. Textbook: Easy Steps to Chinese 2 (Ma and Li).

**Mandarin III**

This course is designed for students who have completed Chinese II or an equivalent course. This third-year course will help students to build vocabulary, improve speaking, comprehend complex topics, and encourage extensive conversation related to school life and everyday situations. Reading comprehension and writing skills will be emphasized in this course, and essay writing becomes an integral part of the course in preparation for more advanced study. Alongside the language acquisition components of this course, students will also have an introduction to various aspects of Chinese culture with a view to comparing that culture with the students’ home culture. Textbook: Easy Steps to Chinese 3 (Ma and Li).

TASIS England is committed to safeguarding and promoting the welfare of students and expects all staff and volunteers to share this commitment. It is our aim that all students fulfill their potential.
Mandarin IV
This course is for students who have completed the requirements for Mandarin 3. The course focuses on students’ communication skills through dialogues and texts about different topics in everyday life, such as appearance, occupations, personality, daily routine, domestic chores, pets, school, examinations, school events, cuisine, festivals, eating out, neighborhood, travel, and accidents. Students also learn to write paragraphs in Chinese sentence patterns with correct grammar and vocabulary. Through cultural comparisons and contrasts, students explore Chinese culture. Textbook: Easy Steps to Chinese 4 (Ma and Li).

Advanced Placement Chinese Language and Culture (Mandarin)
Students who enroll in this course will possess a strong command of grammar and considerable competence in listening, reading, speaking, and writing. The course takes a holistic approach to language proficiency and studies structures in context. Developing students’ awareness and appreciation of the elements of the culture of Chinese-speaking people is a pervasive theme throughout the AP Chinese Language and Culture course. The course engages students in an exploration of both contemporary and historical Chinese culture, aspects of contemporary Chinese society. The course focuses on six themes: Families in Different Societies, The Influence of Language and Culture on Identity, The Influences of Beauty and Art, How Science and Technology Affect our Lives, Factors that Impact the Quality of Life, and Environmental, Political & Societal Challenges. Because the course interweaves language and culture learning, this exploration occurs in Chinese. They also explore the realm of Chinese societal relationships, examining how individuals interact with family members, elders, and peers, and integrate this knowledge into their interpersonal communications. Students will learn to communicate to a specific purpose and audience, using correct register and format for a variety of texts such as emails, formal and informal letters, articles, and argumentative essays. They will also participate in debates, guided dialogues, research projects, and oral presentations. Textbooks: Harvest Intermediate Chinese 2nd Ed. (Xu, Chen, Wang, Zhu); Barron’s Guide to AP Chinese Language and Culture.

Lower School

Spanish for grades K-4
The objectives of this program are to develop an awareness of the cultures of Spanish-speaking countries and to introduce students to the language and its sound through a language acquisition style program. This instruction provides a firm foundation for the formal study of the language, which commences in the Middle School. Additionally, we hope to motivate students to pursue further language study.

Middle School

Middle School French and Spanish

French: 5th Grade - Introduction to French
The fifth-grade students have the opportunity to be exposed to the French language during the first semester. The main objectives of these lessons are: to present the concept of a second language; to introduce the language and culture of France (and other French speaking countries); and to provide a foundation for possible future learning in the language. Children benefit from becoming accustomed to listening and attuning to different language sounds from a very early stage in their lives. Thus, the emphasis of these lessons is on the speaking and listening skills. Students will be introduced to vocabulary and structures at a deliberately slow but steady pace. We will use songs, games, handouts and the internet to cover a wide variety of topics.

Spanish: 5th Grade – Exploration in Spanish
The Fifth-Grade students continue to explore the Spanish language, building on their exposure to Spanish in the Lower School. The emphasis of these lessons is on speaking and listening skills, exploring new vocabulary and topics using an introductory textbook along with recordings, games, videos, and other resources.
French or Spanish: Beginner, Intermediate, and Advanced (Sixth, Seventh, Eighth Grades)
Students shift from exposure and exploration of modern foreign language to acquisition of functional linguistic skills. Students are able to select from French or Spanish and placement into the Beginner, Intermediate, or Advanced level is made based on prior experience and progress in the language. Students’ progress through the three levels during Middle School, with flexibility for entrance in the program at the Intermediate or Advanced level, sometimes leading to Middle School students taking Upper School level courses by the Eighth grade, and very occasionally, the Seventh Grade.

The main goals of the French and Spanish courses are to enable students to build a strong foundation and to develop proficiency in the target language through a linguistic, communicative, and cultural approach to language learning. The target language is used almost exclusively in instruction and communication inside the classroom. The emphasis is placed on the development of listening, speaking, reading, and writing skills. Cross-cultural understanding is fostered, and a variety of methods and techniques are used in order to facilitate and develop the process of language acquisition for each student. Students acquire vocabulary in a wide array of topics, develop an understanding of the structure and conventions of the language, learn basic grammatical concepts, and develop an understanding of verb tenses and conjugation. Along with the use of text resources, frequent video programs, films, podcasts, games, websites, and cultural projects support the cultural component of the program.

Celebrating World Cultures and Fostering Intercultural Understanding at TASIS England

Below are examples of how the Lower School celebrates intercultural understanding. The aim is to offer students a platform to share their cultures, languages, and traditions. As TASIS England values the partnership between home and school, families often participate in these celebrations.

Lower School Celebration of European Day of Languages
An assembly takes place in the Lower School in September to introduce the European Day of Languages. Students learn some facts about popular languages and have the opportunity to learn greetings in these languages. This serves as a platform to introduce all of the languages spoken in the Lower School and all students who speak foreign languages wishing to participate are able to introduce themselves in their native language and teach the other students a simple greeting. This assembly takes place in the first trimester and serves to teach the students about the linguistic diversity in the Lower School.

Lower School Celebration of International Mother Tongue Day
All students who speak a language other than English at home are invited to teach their fellow students something in their native language such as a short song, a greeting or counting. These short assemblies help to promote the many languages our students speak and honor International Mother Tongue Day.

Lower School Celebration of World Day for Cultural Diversity
In recognition of the diversity of the Lower School population, the Lower School proposes to introduce an assembly to celebrate World Day for Cultural Diversity in May. Students from different cultures are encouraged to prepare a short video clip or presentation to share information about their culture, focusing on areas such as food, music, dance traditions, family celebrations and national dress.

The Lower School aims to have one assembly per trimester throughout the year to promote and celebrate cultural and linguistic diversity and awareness. The Lower School continues to look at ways in which intercultural understanding can continue to be highlighted.

Lower School Foreign Language Resources
Lower School Foreign Language Resources are available to students in the Lower School EAL Program and the Lower School Library has a variety of different books in world languages to be enjoyed by speakers of those languages. EAL students are encouraged to use these resources to help them during their transition period, however these resources are also available to sign out to take home. The Lower School recognizes the importance of maintaining the home language and aims to support bilingualism by providing materials that the students can read or listen to in their home language.

Lower School Language Ambassadors Program
The Lower School Language Ambassador Program encourages non-native English-speaking students to embrace and promote their language and culture as part of a student leadership initiative within the Lower School.

The Lower School continues to look at ways in which intercultural understanding can continue to be highlighted.

Middle School International Travel
Middle School students who are studying French or Spanish are offered the opportunity each spring to join an overseas culture and language trip to a French- or Spanish-speaking country. Activities are selected to promote the students’ use of the target language in real-life settings such as markets, restaurants, museums, tours, cooking classes, etc.
Middle School Foreign Language Resources
Foreign language books are available from the Middle School library and also from the Middle School EAL Classroom. The collection is continuously growing and incorporating new foreign languages resources. EAL students are encouraged to use these resources to help them during their transition period, however these resources are also available to sign out to take home. The Middle School recognizes the importance of maintaining the home language and aims to support bilingualism by providing materials that the students can read or listen to in their native language.

Middle School Town Meetings – e.g., World Languages Day, International Thanksgiving/Harvest Celebrations
The Middle School uses its weekly assemblies to recognize a variety of special topics, many of which promote international-mindedness and celebrate the diversity of our school, including language and culture. These vary from year to year, but regularly include a languages assembly in which students participate in their home language.

MUN - Model United Nations
The TASIS England Model United Nations (MUN) team is an extracurricular activity that allows students to role play as delegates to the United Nations and participate in simulated committees of the United Nations. The MUN group meets throughout the school year and attends Model UN conferences organized by universities or by UN affiliated organizations. Thousands of high school students from around the world participate in the conferences, which involve substantial research, public speaking, debate, writing skills, critical thinking, teamwork and collaboration, and leadership. These conferences are held in cities around the world, allowing the team to engage in additional educational activities as part of the travel experience.

The Upper School International Club
The Upper School International Club is an extracurricular activity designed to celebrate and share the variety of cultures that are present in the TASIS England Community. The group meets to share ideas for fundraising, and in the past has sponsored children around the world, most recently in Guatemala. The Club participates in the annual May Fair celebration.

The TASIS England International Festival
The TASIS England community joins together for an annual International Festival in October to celebrate its multicultural diversity. Lower School students begin the festivities with a colorful dress parade, dressed in colorful international costumes. The jubilant atmosphere continues inside a food marquee, where students, parents, and teachers sample the international treats on offer while being entertained by live musicians. A variety of nationalities serve their countries’ most authentic foods. Swedish candies, Canadian maple syrup treats, Panamanian rice, sushi, pasta, cakes of all kinds, plantain, curry, noodles, hot dogs, cured meats, and pastries are among some of the homemade treats on offer.

Flamenco in London
IB Spanish classes attend Flamenco performances in London as part of the cultural development or our Spanish Language students.

Art Exhibits in London
When the opportunity presents itself, French and Spanish students visit art exhibits at London museums which focus on the relevant cultures, and which help students to further their understanding of artistic elements in Francophone and/or Hispanic cultures.
The TASIS England Boarding Program

The TASIS England boarding program is centered on the idea that young people of all nationalities and backgrounds can live, work, and learn together in a structured environment and grow together in personal responsibility and maturity. The TASIS England boarder will learn to appreciate the cultures of others and will thrive in the diversity of backgrounds.

Interaction with adults and other students allows TASIS England boarding students’ great opportunities; at the same time, the structure of the boarding program requires them to take responsibility for much of their lives. In this environment they will grow in personal responsibility, intellectual curiosity, and intercultural awareness.

With more than 20 different nationalities and over 200 students in our boarding program, TASIS England provides a unique environment for learning and growth. Our boarders learn to make good choices in their daily lives, explore new areas academically, and accept and appreciate differences between people in our ever-shrinking world. These experiences are wonderful preparation for both future university and adult life.

Language Learning and Support Services

Language Lab
The EAL and Modern Foreign Language Departments use the Language Lab regularly to integrate IT skills into the language learning process. There are allocated weekly slots for individualized computer-based language learning activities, such as Clarity English (Mouth Gym), CD Roms connected to EAL (Intermediate), French and Spanish Glencoe textbooks, and DVDs of films for students to watch at their own pace while completing written tasks. Each department has a folder of useful websites archived, such as BBC Languages, TED Talks, TV 5 and BBC Mundo and La Uno for students to use as research resources. Language A and B IB and AP oral exam recordings also take place in the Language Lab.

The Samsung Center for Innovation, Inspiration and Exploration
The TASIS England Center for Innovation, Inspiration, and Exploration is the latest development on campus that reflects the school’s commitment to forward thinking and visionary education. Interactive whiteboards form additional learning spaces, where teachers from all disciplines can hold classes that focus on collaboration, inquiry based learning, and enhanced media production. The Center gives both teachers and students access to technologies that promote advanced levels of instruction and collaboration. By fueling creativity and supporting entrepreneurial initiatives, this state-of-the-art setting and its programs equips and empowers our students for success in a world where the ability to embrace change is vital.

The Innovation Studio is an ideal environment where students can learn to use a variety of digital tools available to them in order to improve their oral and visual presentations skills. They can use the collaborative space to work together on projects, such as an international news broadcast, using the interactive whiteboards as a backdrop to imitate a real news studio. They can learn how to use Adobe Illustrator, a software program available to them on the iMax computers to add special visual effects to their PowerPoint or Prezi presentations. They can learn how to transfer information from iCloud and edit with iMovie. Overall, they learn to be more digitally literate, while ultimately improving their language skills.

Learning Resource Center
The Learning Resource Center is a haven for language students with a documented learning assessment who may experience difficulties with time management, organizational skills or the acquisition of essential conceptual knowledge for language learning, such as grammar and phonetics.
Library
The Library is a place where students can have access to a multitude of resources in English and other home languages. Students are encouraged to ask for resources in their home language when this will enhance their learning in a particular subject area, such as History or Economics.

Glossary of Key Language Terms

**Cambridge KET** - Key English Test
**Cambridge PET** - Preliminary English Test
**Cambridge FCE** - First Certificate of English
**Cambridge CAE** - Certificate of Advanced English
**Cambridge CPE** - Certificate of Proficiency in English
**CALL** - Computer-Assisted Language Learning
**CLIL** - Content and Language Integrated Learning
**EAL** - English as an Additional Language
