

APRIL 2023

OSHKOSH AREA SCHOOL DISTRICT PROJECT PROGRESS REPORT

CONSTRUCTION UPDATE

At Vel Phillips Middle School, construction pushes forward in all aspects of the project as the end of the project is within sight. Because it is a large masonry building, the site is in many different stages, with the last of the roofs to go on this upcoming month. The exterior of the building continues to make great improvements, while the stone, brick, metal panels, and glazing installation will continue over the next three months. Meanwhile, cabinetry and finished flooring are being installed in the center areas. On the Secure Entry Projects, construction started at Oakwood Elementary for their new addition. Demolition of the old canopy, layout of the addition, and now excavation and the addition's footings are complete. As a reminder, four buildings within the district are receiving the last wave of secure entry upgrades. The remaining buildings of Read Elementary School, North High School, and West High School will start construction in June once school has been let out for summer.

PLANNING & DESIGN UPDATE

Looking back at the November 2020 referendum that resulted in the Oshkosh community investing in the School District, most of the planning is complete. Planning for the Menominee Elementary School mascot design and site design for the current Merrill site will take place this summer. There are many things to coordinate regarding the next steps to empty the Webster Stanley building so that Miron Construction can start work on the New Menominee Elementary School project.

Looking ahead to the eventual construction of Menominee Elementary School, the School District is looking at a potential August groundbreaking ceremony. Please keep an eye out in future communications for the exact date and time.

WHAT'S NEXT?

- » The Vel Phillips building will be watertight, allowing all trades to focus on finishing the inside and exterior of the building.
- » Walls will start to rise at the Oakwood Elementary School addition project.
- » Design meetings with the Menominee Nation and Bray Architects on identity and branding design for Menominee Elementary School.
