

TOOLS FOR read&write

This is a reminder that all students and teachers have access to the Text Help tools including Read & Write. This is an extension all students and staff already have in their google apps. It's the purple puzzle piece. It gives the students access to text to speech. Speech to text. Highlighters, a dictionary as well as a picture dictionary for low readers. Word prediction is also there. This gives students access to literacy tools. iQuatio is a math extension. Teachers can handwrite equations and the extension will make digital version.

Here is a link to a whole bunch of user resources for Read&Write for Google:
