ALUMNI CORNER

**Amy Dall
Porter, '04**

My favorite memory of March Madness was 2010. I was in Lawrence at my brothers cheering on the Jayhawks in the final four with my sorority. We then went down on Mass St. to celebrate. This was a day I'll never forget. I'll be cheering on the jayhawks! Go KU!

**Allison Darby
Boddicker,
'01**

Growing up, my brother, sister, and I would go to the old Coach's on 103rd and Wornall on Saturday mornings before the restaurant would open. We would eat muffins, play Nintendo on the big screen, and fill out our March Madness brackets! We just assumed this was how most kids spent their Saturday mornings! I'll be rooting for K-State this year in the tournament!

**Stephen
Radetic, '11**

My favorite memory would be having friends over and having multiple TVs to watch all the games on the opening Thursday and Friday. I am cheering for K-State.

**Caitlin Lee
Flourney, '04**

When I am not cheering for Villanova, I am cheering for K-State - my husband's alma mater. My favorite march madness story was watching Villanova win the tournament in 2016. About 100 or so Villanova alumni and friends gathered at Grandfalloon in the plaza to watch the game together. The last second buzzer beater to win the game is something I will never forget.

**Abigail O'Hara,
'00**

I'm always rooting for KU as my number one. I grew up watching Jacque Vaughn and the Jayhawks in the 90s & never stopped loving them. My favorite memory has to be the 2008 Championship run. I went to Texas to watch the tournament. We bet on the KU vs NC game & it was sweet to not only win that game but go on to beat Memphis with the 3-pt shot by Mario Chalmers with 3 seconds left to go to overtime and eventually win. Rock Chalk!

Alumni Speaker Series

JANINE DIVITA, '03

This is a challenging career, and I have had so many kind and supportive people who encouraged me along the way. I decided to be a speaker because I think it's especially important to give back to Aquinas. Aquinas gave me so much I want to pay it forward to the next generation. This is how I can help and I encourage others to get involved too!
