WCUUSD Policy Committee Unapproved Minutes 6.2.20 4:30-6:30 pm

Via Video Conference*

Present: Chris McVeigh (Chair), Marylynne Strachan, Jody Emerson, Jaiel Pulskamp, Aaron Boynton, Dorothy Naylor, Townes DeGroot

1. Call to Order: Chris McVeigh called the meeting to order at 4:38 p.m.
2. Approve Minutes of 5.19.20: Jaiel Pulskamp **moved to approve the minutes from May 19, 2020. Seconded by Marylynne Strachan. This motion carried unanimously.**

Marylynne Strachan would like to have another discussion of the attendance policy. She is concerned about the start of the new school year. What is the truancy model from DCF going to look like? Will there be changes due to COVID19? She worries that families won't go to physicians as frequently, and how does that align with the truancy requirements? She would like to discuss this with more information from administrators.

3. School Choice Survey Update: This survey has not yet gone out; the committee still wants to review/ discuss this.

Dorothy Naylor stated that she wonders if we are trying to get this out too quickly; she does not like the wording of the first question. She thinks the concept of "school choice" needs to be explained further so that people have a better understanding. She wonders if, during this time when we are having to meet by Zoom, in light of wanting to involve the community in this discussion, should we hold off on this?

Committee members discussed this topic. Chris McVeigh - would like to find the balance between providing more detail so people have a better understanding of what we mean by "School Choice" in this context, and making it brief enough so that people will respond. There was agreement that at this time it would be helpful to share the survey and at least gather information.

Chris McVeigh had at one time gathered policies from neighboring districts who offer school choice. Marylynne Strachan would like to look at some policies from rural districts. The committee agreed to postpone this discussion for the next three meetings, to provide time to gather and consider policies from other districts.

4. Review Existing Policies

4.1 Section C – Students

4.1.1 Current (C9, C20/C45, C34, C46, C47/C48, C49)

C9: Nutrition and Wellness: Jaiel Pulskamp would like to include something about supporting local food sources. Committee members discussed topics around food service at WCUUSD. Aaron Boynton suggested talking with the foodservice staff at each school. Marylynne Strachan stated that she would like to add language about sourcing locally and collaborating district-wide, but not to mandate it in the policy.

Chris McVeigh suggested adding item “H” to address local purchasing.

Committee members discussed Nutrition Guidelines in the policy.

Marylynne Strachan moved to accept C1 and strike 2, under Section IV Nutrition Guidelines, on C9: Nutrition and Wellness Policy. Seconded by Dorothy Naylor, this motion carried unanimously.

C20: Student Conduct and Discipline: Some discussion about the details around in-school or out-of-school suspension. The committee discussed this update. Chris McVeigh is going to send some suggested edits to Jody Emerson.

The committee considered language around Department of Education Rule 4500, for inclusion in the handbook. Discussion followed around restraint and seclusion. Marylynne Strachan stated that she feels it is very important that communication is clear to parents when restraint or seclusion occurs.

C46: Interrogation or Searches of Students by Law Enforcement or Other Non-School Personnel: Chris McVeigh asked whether we should include in this policy that any interview shall be recorded. (To protect from potential overreach, he suggested.) Discussion followed about this. The committee members discussed giving the right to student, parent, or staff, to video record. Marylynne Strachan is going to add language to this policy to this effect, for the committee to consider at the next meeting.

4.2.1 Additional

5. Future Agenda Items

6. Adjourn: The meeting adjourned by consensus at 6:27 p.m.

Respectfully submitted,

Lisa Stoudt, Committee Recording Secretary

Policy

It is the policy of the Washington Central Unified Union School District to set high expectations for consistent student school attendance in accordance with Vermont law in order to facilitate and enhance student learning. Legal pupils between the ages of 6 and 16 and who are residents of the school district and non-resident pupils who enroll in school district schools are required to attend school for the full number of days that school is held unless they are excused from attendance as provided in state law. Students who are over the age of 16 are required to attend school continually for the full number of the school days for which they are enrolled, unless they are mentally or physically unable to continue, or are excused by the superintendent in writing.

Annually, the superintendent shall ensure that the school board appoints one or more individuals to serve as the truant officer, and shall ensure that appointment is recorded with the clerk of the school district.

The superintendent shall develop administrative rules and procedures to ensure the implementation of this policy.

Administrative Rules and Procedures

The procedures will address the following issues and may include others as well:

- written excuses;
- tardiness;
- notification of parents/guardian;
- signing out of school;
- excessive absenteeism;
- homebound and hospitalized students;
- early dismissals;
- homework assignments;
- making up work.

Administrative Responsibilities

The principal is responsible for maintaining accurate and up-to-date records of student attendance.

The principal is responsible for assuring that the school has the appropriate family information that allows the school to contact the parent(s) or guardian(s) of all students whenever necessary.

STUDENT EXCHANGES

Exchanges of students between school districts can provide educational and personal benefits for the students involved. In many cases, such exchanges also benefit the school as a whole, as the participants make valuable contributions to the schools they attend.

In the acceptance of foreign or domestic exchange students, Washington Central Unified Union School District students and staff find unique opportunities to learn and understand people and cultures different from their own.

WCUUSD encourages such exchange programs and similarly encourages the providing of programs which allow WCUUSD students an opportunity to travel, live, and study in other cultural settings.

PROCEDURES

Area Schools Student Exchanges

The principal is authorized to approve one-for-one exchanges of WCUUSD resident students with students who reside in other school districts providing that the principal of the non-resident's school has similarly approved the proposed exchange. In approving such proposed exchanges, the principal shall follow the procedures as listed below:

1. Only one-for-one exchanges may be made. For every non-resident student accepted under this program a resident student must be accepted at the school that the non-resident students would have otherwise attended.
2. An application for an exchange must be made in writing to the principal of the receiving school with a copy to the principal of the sending school.
3. Applications must be made annually. Number of years in the program will be considered in determining priority for renewal. Renewal requests must be received on or before May 1st prior to the year of the requested attendance. Renewal applications received after May 1st will be treated on the same basis as new requests.
4. All new requests will be considered according to the order in which they are received.
5. Special education students will be considered only if the proposed exchange is approved by the student's I.E.P. team and the receiving school determines that the student's special needs can be met without added burden of cost or resources to the school system.
6. Students will not be accepted who have a history of behavior or attendance problems unless it is mutually agreed by the two principals that the change in schools shows genuine promise of correcting the problem(s).

7. Transportation of the student will be the sole responsibility of the parent or guardian.
8. Students accepted under this exchange program will be entered on the school register as tuition non-resident students (for whom tuition payment is waived by the board) thereby making them eligible to represent WCUUSD on all activities under the sponsorship of the Vermont Headmasters' Association.
9. No students will be approved for exchange after September 30 each year unless the circumstances are extenuating and beyond the control of the student.
10. Once a student has been notified of acceptance, ~~his/her~~their place is assured for the forthcoming school year.

Foreign and Domestic Exchange Programs

Application from a student applying for admission to WCUUSD under the sponsorship of an approved foreign or domestic exchange program will be screened by the principal to determine whether all of the below listed guidelines have been met and/or agreed to by all parties. Upon completion of said screening, the principal shall make a recommendation to the superintendent regarding the acceptance of the student. The superintendent shall in turn inform the board of accepted students.

Once enrolled, if an exchange student's proficiency is found to be insufficient to succeed in regular instructional programs without special professional assistance, the sponsor or exchange organization must assume all financial responsibility for any educational support deemed necessary by the school. The sponsor or exchange organization also assumes all financial responsibility for a student's withdrawal from school, for any reason.

WCUUSD will allow up to three foreign students per academic year to attend the school under the following criteria:

1. The student must be sponsored by a recognized and approved (as per the Vermont Headmasters' Association) agency or organization whose prime purpose is to provide pupil exchange programs, such as CSIET (Counsel on Standards on International Educational Travel).
2. The student must have approved arrangements to reside with a family living within the school district for the entire term of enrollment.
3. The student must demonstrate a level or proficiency in written and spoken English sufficient to enable him/her to benefit from the academic program of the school without undue hardship to the instructors and other students.
4. The student will not be granted a U-32 High School diploma although the student, if a senior, will be allowed to participate in the graduation exercises and may be granted an honorary diploma at the discretion of the principal.
5. The students will not receive an official transcript or be granted any academic credit from a WCUUSD school, although, at the student's request, the school will supply the student with a statement indicating the student's program of study and level of achievement. The awarding of actual academic credit for work completed at a WCUUSD school will be solely at the discretion of the student's home school.

6. The student will not be enrolled in driver education.
7. Students will be admitted to WCUUSD based on the first three legal district residents who submit a tuition waiver.
8. Students must not have graduated from high school or its equivalent.
9. Students will only be accepted under full-time academic status.

Exception

Students who do not meet all of the stated conditions, but who are worthy of special consideration in the judgment of the principal, may be granted admission by the board upon the recommendation of the principal.

Any person(s) wishing to sponsor and enroll a foreign exchange student in WCUUSD will be subject to the following guidelines:

- The WCUUSD Board of Directors will review all requests by the Guidance Department for placement of foreign exchange students no later than the second regular board meeting in August for placement in the upcoming academic year.
- To enhance cultural diversity, WCUUSD will generally not accept more than one exchange student from the same foreign country in the same academic year. Exceptions may be allowed if all slots are not filled.
- Sponsoring organizations must give assurances at least two weeks prior to the start of the academic year that an exchange student will be placed with a WCUUSD host family.

Exchange students will generally be treated as all other students enrolled in WCUUSD:

- They will be expected to follow all policies and procedures of the district and will be subject to the same disciplinary action as all other students for any infraction of those policies and procedures.
- They must meet all academic standards to maintain full-time student status.
- They and their host family are subject to all fees including but not limited to:
 - a) School meals.
 - b) Curricular and co-curricular materials, books, and equipment not regularly provided by the school.
 - c) All activity fees.
 - d) All cost related to lost or damaged school property while in their possession.

KINDERGARTEN ENTRANCE AGE

The Washington Central Unified Union School District recognizes that a successful beginning school experience fosters good self –concept and positive attitude toward school. Research has shown that children who are fully five (5) when they enter kindergarten are more likely to be physically, emotionally, socially, and intellectually ready for that school experience. The intent of setting the standard age of admission into the kindergarten program at five years of age on or before September 1 of a given year is to help ensure the success of children through the advantage of maturity.

Children who are five (5) years of age on or before September 1 are eligible for enrollment in kindergarten. Children whose birthdays are between September 1 and September 30 will be considered for enrollment in kindergarten upon written parental request to the principal. Readiness for, and enrollment in kindergarten for these children will be determined by procedures set by the administration. The procedures will include input from the parent, teachers, principal and others as appropriate. If consensus cannot be reached the principal will make the final decision.

STUDENT ACTIVITIES (ELEMENTARY)

Policy

The school will maintain a student activity program appropriate to the maturity of students and as varied as staff and facilities permit. The program will be designed to offer for the greatest number of students worthwhile leisure time interests, wholesome recreational and social activity, and opportunities to develop skills in democratic and cooperative management for these activities.

Implementation

The following criteria for eligibility for participation in school sponsored activities are intended to set standards for academic eligibility.

1. Students should have passing grades in ___ courses taken during the previous marking period.
2. Students should be in good disciplinary standing as determined by the principal.
3. Students should be in regular attendance and should be in attendance on the day of the activity unless excused by the principal.
4. The rules and regulations of the Vermont Principals' Association will be followed for the activities of seventh and eighth grade students.

The board will approve new requests for co-curricular activity sponsorship based on the following considerations.

1. The level of student interest in the activity;
2. The fiscal ramifications of sponsorship;
3. The availability of qualified personnel to supervise the activity;
4. The impact of adding or eliminating the activity on the balance of types of activities available in the total activity program;
5. The potential of the activity to help participating students meet the goals of the school's curriculum; and
6. The recommendation of the superintendent.

All school sponsored activities will be under the ultimate control of the school district and will comply with all policies and procedures of the school.

STUDENT CLUBS & ACTIVITIES (SECONDARY)

Policy

The school will maintain a student activity program appropriate to the maturity of students and as varied as staff and facilities permit. The program will be designed to offer for the greatest number of students worthwhile leisure time interests, wholesome recreational and social activity, and opportunities to develop skills in democratic and cooperative management for these activities.

Clubs and activities may be (1) school-sponsored and related to the curriculum, (2) student-run and not related to the curriculum, or (3) community-sponsored and not related to the curriculum. This policy addresses the first two categories. The third is addressed in the school district policy on Community Use of School Facilities¹

I. School-Sponsored Curriculum-Related Groups

- A. Curriculum-related groups are the only type entitled to school sponsorship. The controlling factor in deciding whether an activity will be sponsored by the school will be whether that activity is directly related to the school's curriculum. No activity that is not directly related to the curriculum or educational mission of the school will receive sponsorship, regardless of whether it meets the other criteria for sponsorship.**

- B. Activities or clubs which meet at least one of the following criteria will be considered curriculum-related.**
 - 1. The subject matter of the student group or club is actually taught or will be taught in a regularly scheduled course.**
 - 2. The subject matter of the group or club is such that it concerns the body of courses as a whole.**
 - 3. Participation in the group is required for a particular course.**
 - 4. Participation in the group results in academic credit.**

- C. The principal [or superintendent] will approve new requests for activity sponsorship based on the following considerations.**
 - 1. The potential of the activity to help participating students meet the goals of the school's curriculum.**
 - 2. The level of student interest in the activity;**
 - 3. The fiscal ramifications of sponsorship;**
 - 4. The availability of qualified personnel to supervise the activity; and**
 - 5. The impact of adding or eliminating the activity on the balance of types of activities available in the total activity program.**

- D. All school-sponsored activities will be under the ultimate control of the school district and will comply with all policies and procedures of the school. The principal [or superintendent] may set standards for academic eligibility for participation in these activities.

II. Student-Run Noncurriculum-Related Groups²

- A. A student-run noncurriculum-related group, or “student group” is one that is created by students, run by students, and provides activities for students. If a group or club is organized or run by adults, even if students attend its meetings, then it is a community-sponsored group and must comply with Policy E2.
- B. Student groups, clubs or activities may use school facilities and have access to such things as the public address system, bulletin boards, and publications³ provided that an equal opportunity is given to all student groups. If the district opens its facilities to any student group, then it must provide the same opportunities to all other student groups.⁴ A fair opportunity will be provided to non-sponsored student groups wishing to conduct meetings on school premises during non-instructional time provided that:
1. any such meeting is voluntary and student initiated;
 2. there is no sponsorship of the meeting by the school, the government, or its agents or employees;
 3. employees or agents of the school or any governmental entity are present at religious meetings only in non-participatory capacities;
 4. the meeting does not materially and substantially interfere with the orderly conduct of educational activities within the school; and
 5. non-school persons do not direct, conduct, control or regularly attend activities of student groups.⁵
- C. Listings and notices referring to non-sponsored clubs or activities will include a disclaimer of school sponsorship or endorsement. District faculty and staff may only be present at activities of student groups as monitors for keeping order.
- D. The superintendent [or principal] may do the following with respect to student groups, as long as the same rules are applied to all student groups:
1. adopt rules to prohibit lewd and obscene speech
 2. prohibit student groups from using school facilities if they are likely to cause material or substantial disruption of school operations
 3. impose time, place, and manner restrictions, and
 4. require parental permission for student participation.

University of Virginia*, 515 U.S. 810 (1995), held that university could not limit funds to student group due to its religious viewpoint where group ran newspaper with Christian view on news while other newspapers were funded. Funds were from mandatory student activity fee and not from public funds.

⁴ Even allowing only one noncurriculum student group to meet in school facilities is enough to create a limited open forum and trigger the application of the Equal Access Act. *Board of Education of Westside Community Sch. v. Mergens*, 496 U.S. 226 (1990).

TUITION PAYMENT

The Washington Central Unified Union School District will provide tuition for students attending grades _____ in accordance with state law and the criteria outlined below.

1. Tuition will be paid to schools attended by legal pupils who are residents of the Washington Central Unified Union School District as defined by 16 V.S.A. §1075. Tuition payments will be made according to a schedule developed by the superintendent or their designee, taking into consideration any payment schedules established by receiving schools.
2. Tuition will be paid only to schools approved by the State Board of Education. In the case of a school with a religious affiliation, the board shall perform two steps. First, the board shall determine whether the school is approved by the State Board of Education. If the school is approved, the board shall make a determination as to whether payment to the school would violate state or federal law, including the Establishment Clause of the First Amendment to the United States Constitution.
3. Tuition payments will be made as follows:
 - A. Tuition payments will be made to approved receiving schools when preceded by a written application from the student and/or their parent or guardian. The application must be made prior to a date determined by the **board/superintendent** of the school year for which such payment is requested. Requests for retroactive tuition payments will not be granted unless received by a date determined by the **board/superintendent** of the school year for which retroactive payment is sought.
 - B. If an eligible pupil becomes a resident after September 1, an application for tuition will be considered by the board at its first special or regular meeting following receipt of the application and, if approved, payments will be prorated from the date of the pupil's enrollment to the end of the then current school year.
4. All tuition payments will be made directly to approved schools attended by qualified pupils.
5. The superintendent shall make recommendations to the board prior to board action on applications for tuition assistance made in compliance this policy. If the board denies tuition assistance for a student, written notification of the denial shall be sent to the student if over the age of majority, or the parent or legal guardian of a minor student, by the superintendent or their designee within seven days of the decision. Unless otherwise provided by law, the board's decision shall be final.¹

transgender students identify as gay, lesbian or bisexual, and not all gay, lesbian and bisexual students display gender nonconforming characteristics.

Privacy

All students have the right to privacy. Consistent with those rights provided under the Family Educational Rights and Privacy Act of 1974 a transgender or gender nonconforming student will be able to discuss and express their gender identity and gender expression openly and to decide when, with whom, and how much of their private information to share with others.

In addition, school staff will respect any requests to use a name and pronoun that corresponds to the student's gender identity that the student asserts or wishes to assert at school. Students will not be required to obtain a court ordered name and/or gender change or to change their pupil personnel records as a prerequisite to being addressed by the name and pronoun that corresponds to their gender identity⁴.

There may be times when disclosure to school staff or employees of a student's transgender status is necessary in order to fulfill a school's obligations to the transgender student with respect to safety and health, education and anti-discrimination efforts. In all cases the school will work closely with students and families in devising an appropriate plan regarding the confidentiality of a student's transgender status that works for both the student and the student's family while meeting competing legal requirements. To the extent possible and consistent with all competing legal requirements, school personnel will endeavor throughout to maintain the confidentiality of the student's transgender status⁵.

Student Records

The superintendent will adopt procedures that ensure that all students' personally identifiable information is maintained in compliance with FERPA⁶ and state and federally mandated reporting requirements.

To the extent that the school is not legally required to use a student's legal name or gender on school records and other documents, the school will use the name and gender preferred by the student⁷.

⁴ Under Title IX, a school must treat students consistent with their gender identity even if their education records or identification documents indicate a different sex. The Departments of Education and Justice have resolved Title IX investigations with agreements committing that school staff and contractors will use pronouns and names consistent with a transgender student's gender identity. (From *Dear Colleague* letter of May 13, 2016).

⁵ Even when a student has disclosed the student's transgender status to some members of the school community, schools may not rely on this FERPA exception to disclose PII from education records to other school personnel who do not have a legitimate educational interest in the information. Inappropriately disclosing (or requiring students or their parents to disclose) personally identifiable information from education records to the school community may violate FERPA and interfere with transgender students' right under Title IX to be treated consistent with their gender identity. (From *Dear Colleague* letter of May 13, 2016).

⁶ Family and Educational Rights and Privacy Act, 34 CFR Part 99.

⁷ There is no medical diagnosis or treatment requirement that students must meet as a prerequisite to being treated consistent with their gender identity. Because transgender students often are unable to obtain identification documents that reflect their gender identity (e.g., due to restrictions imposed by state or local law in their place of birth or residence) requiring students to produce such identification documents in order to treat them consistent with their gender identity may violate Title IX when doing so has the practical effect of limiting or denying students equal access to an educational program or activity. (From *Dear Colleague* letter of May 13, 2016).

Where a student's record(s) may not be changed absent court order due to state and federal law, efforts will be taken to maintain those records in strictest confidentiality in order to preserve the student's transgender status and, where appropriate, for an amended version to be maintained which preserves the confidentiality of that transgender status where a review of the record is required for educational purposes by either school personnel education the student or personnel who will be evaluating the student (for eligibility purposes for example).

A student (or parent in the case of minor student) who is currently enrolled may request retroactive changes to that student's record including name and gender. Such requests will be handled on a case by case basis with consideration of the need to maintain legally accurate records consistent with state and federal mandated reporting requirements with the school's ongoing efforts to maintain internal student confidentiality regarding a student's transgender status.

Former student permanent pupil records will be changed by request of a parent of a minor student, or former students who have reached the age of majority, upon receipt of documentation⁸ that such legal name and/or gender have been changed pursuant to applicable state law.

Use of Gender Segregated Facilities

A transgender student should not be required to use a locker room or restroom that conflicts with the student's gender identity.⁹

Any student who expresses a need or desire for increased privacy will be provided with reasonable alternative arrangements. Reasonable alternative arrangements may include the use of a private area, or a separate changing schedule, or use of a single stall restroom. Any alternative arrangement will be provided in a way that protects a student's ability to keep their transgender status confidential.

In all cases the use of restrooms and locker rooms by transgender students requires schools to consider numerous factors, including, but not limited to: the transgender student's preference; protecting student privacy; maximizing social integration of the transgender student; minimizing stigmatization of the student; ensuring equal opportunity to participate; the student's age; and protecting the safety of the students involved.¹⁰

School Activities

As a general rule, in any other circumstances where students are separated by gender in school activities (i.e. overnight field trips), students will be permitted to participate in accordance with their gender identity consistently asserted at school. Activities that may involve the need for accommodations to address student privacy concerns will be addressed on a case-by-case basis considering the factors listed above.

⁸ See, 18 V.S.A. § 5112 for Vermont law governing the process for obtaining a new birth certificate following a sexual reassignment.

ADMISSION OF RESIDENT STUDENTS

Policy

Any legal pupil who is a resident as defined in 16 V.S.A. §1075 shall be eligible to attend school in this district.

Residence Criteria

For purposes of determining residency, the board will apply the definitions contained in 16 V.S.A. §1075(a). Criteria for proving permanent residency shall include voter registration, automobile registration, employment, postal address, property ownership and other indications of intent to reside permanently within the district. The burden of proving residency or any other basis for entitlement to school enrollment or tuition assistance shall be on the student and/or their parent or guardian.

The residency of pupils under the care and custody of a state agency or child placement agency, children of homeless parents, and independent children shall be determined in accord with the requirements of 16 V.S.A. §1075 (c)-(h)

Change of Residence

Parents or guardians of students who are residents of the district and enrolled in school for days in a school year, and who move from the district before the school year ends, may apply to the superintendent for permission to finish the school year on a pro-rated tuition basis or with a tuition waiver. The superintendent shall consider the student's age, attendance record during the year, progress in school and other relevant factors when considering requests to remain enrolled in school for the remainder of the school year, and shall make recommendations to the board accordingly.

Decisions and Appeals

Decisions regarding student residency or continued enrollment except for state-placed students will be made by the board. An interested person or taxpayer may appeal a residency decision of the board to the Secretary of Education as provided in 16 V.S.A. §1075(b).

STUDENT ASSESSMENT

Policy

It is the policy of the Washington Central Unified Union School District to maintain an assessment system that continuously evaluates student learning and links curricular, professional development, and budgetary decisions directly to the need for increased student performance.

The goal of student assessment is to understand how students are performing in relation to local and state standards. Based on student assessment information, teachers, administrators and parents will work together to design and implement strategies to meet the needs of individual students as well as the district's overall goals for student achievement.

Implementation

The superintendent will appoint an assessment committee consisting of administrators and professional staff, a board member, parent, other community member and student(s) when appropriate. The role of the committee will be to develop a long-range plan that identifies the types of local assessments in which the school will participate. This long-range plan will be integrated with the school action plan and, where appropriate, link with the recommendations of the district strategic plan. The work of the assessment committee will be directed by the principal with oversight from the superintendent, and will report progress and resource needs to the school board (**specify when**).

Based on the district's plan, the superintendent, in collaboration with principal(s) and teachers, will develop a schedule by (**indicate completion date**) to assess student performance regularly throughout the school year and from year to year. Assessments will measure student performance against standards outlined in the Vermont Framework of Standards and Learning Opportunities or comparable standards. The results of student assessments will guide schools in:

1. making decisions about instruction, professional development, educational resources and curriculum; and
2. reporting to the public on student performance measures and progress in the standards outlined by the Vermont Framework.

State Comprehensive Assessment System

The principal will administer the assessment instruments included in the Vermont Comprehensive Assessment System. All students in the school district will be assessed except for those students with a disability or limited English proficiency whose education plans exempt them. Students who are unable to participate in state assessments will be given an alternate assessment. The school will account for the assessment of 100% of its students.

Local Comprehensive Assessment System

The superintendent will oversee the development and implementation of a local comprehensive assessment system that includes the state-level assessments, is aligned with the Vermont Framework as amended from time to time or comparable standards and is consistent with the current Vermont Comprehensive Assessment System. Students will be assessed in those standards associated with the Fields of Knowledge, the Vital Results, the arts, health and safety education, physical education, foreign language and applied learning. Local assessments may include a number of instruments and techniques such as standards-based, national norm referenced, local curriculum criterion- referenced, portfolio assessment, exit interviews, senior projects and related school district assessment processes and systems.

The expectations and performance criteria of the system will be clear and be communicated to teachers, administrators, students, parents and other community members. The local system will employ a balance and variety of assessment strategies, both classroom-based and school-level assessments, in order to develop useful information on student achievement. The district will also provide students with the opportunity to evaluate their own work. The local assessment plan will be fully implemented by (specify locally determined date).

1. School administrators and staff will use the assessment system to determine the answers to questions which include the following and will report to the board annually in (specify month or date):
 1. How are the students performing in relationship to local and state standards?
 2. Why are the students performing at the level they are?
 3. What could the school do differently in order to increase the number of students meeting or exceeding local and/or state standards?
 4. How can educators, parents and students monitor progress?

The superintendent will oversee the development of a comprehensive computerized assessment database that includes all assessment results for each individual student, for each grade, for the school, and the district. This database will include information that tracks progress over time. Individual assessment information will be reported to parents in a format that outlines results and implications clearly. Parent-teacher communication about assessment results and implications will be encouraged.
