

## Get care from anywhere you need to be.

Well360 Virtual Health is a digital experience that lets you connect – either online or via our app – with a health care expert.

Conveniently schedule telemedicine visits for services including:

- **Urgent care** – for conditions like pink eye, sinus infections, skin rashes, or strep throat.
- **Therapy** – for behavioral health concerns like anxiety, depression, or insomnia.
- **Psychiatry** – scheduled psychiatric assessments, prescription refills, and treatment options.

Your health is important. Now you can take better care of it, anytime that's right for you.

Beginning July 1, 2023, register or schedule a virtual appointment at

[Well360VirtualHealth.com](https://www.Well360VirtualHealth.com).

Download the Well360 Virtual Health app by visiting Google Play or the app store.
