Commonwealth of Kentucky

Parent or Guardian's Declination on Religious Grounds to Required Immunizations

The Centers for Disease Control and Prevention (CDC) and Kentucky Department for Public Health (KDPH) recognize immunization as one of the most effective tools in preventing disease and reducing the risks associated with exposure to certain diseases. KRS 214.036 requires parents who object to immunization of their child to provide a written sworn statement objecting to immunization of the child on religious grounds.

	unization of their child to provide a written sworn statement objecting to immunization of the child an "X" in a box or boxes to the left of each disease, listed below, for which you object to your child receiving the		on the right	
Hepatitis B: According to the CDC and KDPH, serious symptoms and effects of this disease include: jaundice (yellow skin or eyes), life-long				
П	liver problems, such as scarring and liver cancer, or death.		Initials Date	
	-			
	Diphtheria (DTaP, DT, Tdap, Td): According to the CDC and KDPH, serious symptoms and effects of this disease include: heart failure,		Initials	
Ш	paralysis (can't move parts of the body), breathing problems, coma, or death.	eath.		
]	Tetanus (DTaP, DT, Tdap, Td): According to the CDC and KDPH, serious symptoms and effects of this disease include: "locking" of the jaw, difficulty in swallowing and breathing, seizures (jerking and staring), painful tightening of muscles in the head and neck, or death.		Initials	
Ш			Date	
	Pertussis (Whooping Cough) (DTaP, Tdap): According to the CDC and KDPH, serious symptoms and effect	cts of this disease include: severe	Initials	
Ш	coughing fits that can cause vomiting and exhaustion, pneumonia, seizures (jerking and staring), brain damage, or death.			
			Date	
_	Haemophilus influenzae type b (Hib): According to the CDC and KDPH, serious symptoms and effects of this disease include: meningitis (infection of the brain and spinal cord covering), pneumonia, severe swelling in the throat that makes it hard to breathe, infections of the blood, joints, bones, and covering of the heart, or death.			
Ш				
	Pneumococcal: According to the CDC and KDPH, serious symptoms and effects of this disease include: chest pain with rapid breathing or			
	difficulty breathing, a high fever, shaking, chills, excessive sweating, fatigue, confusion, and a cough with phlegm that persists or worsens, pneumonia, brain damage, or death.
