Health Care Provider _____ Date _____

Student _____ Date _____

(Sign after instruction has been given by the school nurse)

School Nurse _____ Date _____

PARENT INFORMATION

The signatures on this document verify that this student has been instructed in and understands the purpose for the medication and its appropriate method of administration, and has demonstrated proper and responsible self-administration. The medication shall be packaged in the original container and supply a single day's needs (except inhalers). **A duplicate inhaler kept in the school health office as a backup is strongly recommended for students with asthma or any emergency medication. Controlled substances may not be self-administered.** School personnel do not provide documentation or supervision of self-administered medication, and shall not be held liable for any injury resulting from self-administration of medication or if the student distributes his/her medication to another student.

STUDENT INSTRUCTIONS

- Keep emergency medication with you at all times (inhalers, epi-pens, etc)
- Keep non-emergency medication with you at all times
- **NEVER** let anyone use your medication (even if you know they use the same one)
- The pharmacy label must be attached to prescriptions; nonprescription medication must be kept in its original package
- Follow manufacturer/physician instructions for administration

Failure to comply with these expectations may result in the immediate loss of self-medication privileges.
