

MARLIN

Bond Update April 21, 2023

- 01** We are pleased to formally announce the successful bid award to Symmetry Sports Construction for our upcoming project at Legion Field. The installation of a track and turf field is expected to significantly enhance the quality of our stadium and offer a superior experience for all stakeholders, including students and visitors. The selected contractor, Symmetry Sports Construction, is a highly regarded and reputable firm with an impressive track record in the sports construction industry.
- 02** We are pleased to make a formal announcement regarding the commencement of our upcoming project at Legion Field, entailing the installation of a track and turf field. The facility will be designed to support a variety of sports, including football, soccer, track, and field events. It is our expectation that this development will contribute significantly to the advancement of athletic performance and excellence within our academic community.
- 03** We take this opportunity to apprise you that a comprehensive survey of our facilities at Legion Field was recently conducted by a qualified engineer. The survey encompassed an analysis of various aspects, including utilities and seating capacity, to acquire valuable information that will serve to advance the quality of our facility. We are optimistic that this in-depth assessment will furnish us with critical insights to enhance the stadium's functionality and overall experience for our students.
