Welcome to Summer 2023 at Minnehaha Academy! If you are new to our camps, we are happy you will be joining us; if you have attended our camps before, welcome back!

Minnehaha Academy's Summer Day Camps are designed with families in mind; we offer flexible camp options that serve Pre-K through 12th grade, and just like our classes during the school year, we integrate christian faith into our learning and activities.

We are excited about the new camps offered this summer: Glow in the Dark Art, Coding, Knitting, and a new Costumes, Hair & Make-Up Theatre Camp. In addition to new enrichment camps, two of Minnehaha Academy's varsity coaches are leading basketball and soccer camps.

Check out the catalog to see the wide variety of camps we offer. We want your children to have the best possible summer.

Summer Academy

Summer Academy provides a summer academic boost in a small-group tutoring format. Since the groups are small, the teachers are able to tailor the instruction to the needs of the students in the group.

This course is designed for continuation and general support of academic skills in a group setting, rather than remediation of significant academic need which requires 1-to-1 skilled intervention.

Teachers will help students build upon their strengths, while also addressing areas needing improvement. Each experienced, licensed teacher will work with a group of five or fewer students in the areas of reading, writing, and math.

A variety of methods and activities will be utilized, including practice drills, projects, games, and discussions. The morning will be divided into three sections, focusing on one subject during each section, with a short break between sections. Parents/guardians are required to complete an information sheet that needs to be turned in prior to the start of the session.

This course is appropriate for:

Students who are performing below grade level and need some help to meet expectations in the upcoming school year.

Students who are performing at grade level and would like to maintain their skills over the summer.

Students who are performing above grade level and would enjoy enriching their skills over the summer.
