

Board of Trustees

Douglas County School District CERTIFICATED STAFF

SELECTING STUDENT TEACHERS

The Board encourages cooperation with the University of Nevada and other university systems in the training of student teachers because the public school offers the essential ingredient of direct experience with pupils and teachers at work in the classroom. Therefore, the schools of this District will consider entering into agreements with divisions of the University of Nevada system and other university systems for assignment of university students for training purposes.

The Board delegates the authority to select and assign student teachers to the Superintendent. The principal, with the agreement of the cooperating teacher, shall recommend such selections and assignments.
