

**Board of Trustees
Douglas County School District**

PROGRAM

INFORMATION TECHNOLOGY

The District requires employees to use information technology (computer systems, telecommunications, and other devices, and electronic information/communication) responsibly, and in a manner which is not detrimental to the mission and purpose of the District. To maintain a level of professionalism, any publication through any means (electronic or otherwise) which is potentially adverse to the operation, morale, or efficiency of the District will be deemed a violation of this policy.

See Administrative Regulation related to this Policy

Adopted: November 9, 1999
Revised: June 10, 2014
