

**Board of Trustees
Douglas County School District**

STUDENTS

HEALTH EXAMINATIONS

The Board shall require that students of this District submit to health examinations as required by law to protect the school community from the spread of communicable disease; to ensure that the student's participation in health, safety, and physical education courses meets his individual needs and to ensure that the learning potential of each child is not lessened by a remediable physical disability.

Any student shall be exempt from the examination if his parents or guardian file with the school, a written statement objecting to the examination.

In addition to those examinations required by law, each candidate for a place on a school interscholastic athletic squad or team shall be given a health examination by a physician in accordance with rules of the Nevada Interscholastic Activities Association.

See Administrative Regulation related to this Policy
