RE: New Location for Information Technology and PCOA

This memo is to inform the School Board and Superintendent that the District has leased a building located at 1992 Saint Street in Richland to house the IT department on a temporary basis to meet the needs of their department.

This building is roughly 16,000 square feet of office space with an attached warehouse space at approximately 4,000 square feet. The additional warehouse space will help relieve some of our overcrowded warehouse. The building is zoned light industrial and sits on 1.53 acres fenced.

With the move of the IT department to this facility, this will afford us with the opportunity to move PCOA out of the Wright building and into the Snow location to give them a better home for their program.

Please let me know if you would like any further information.

Thank you,
Richard Krasner
