2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

# General Information about the School Accountability Report Card (SARC)

# SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at https://www.cde.ca.gov/ta/ac/sa/

For more information about the LCFF or the LCAP, see the CDE LCFF web page at https://www.cde.ca.gov/fg/aa/lc/

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### **DataQuest**

DataQuest is an online data tool located on the CDE DataQuest web page at https://dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

# The California School Dashboard (Dashboard)

https://www.caschooldashboard.org/ reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### **Internet Access**

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

#### 2022-23 School Overview

Wilson School is located at 801 W. Wilson Street in the City of Costa Mesa. Wilson Elementary serves 360 students in Transitional Kindergarten through sixth grade with an additional 30 students in our preschool. Students from diverse backgrounds attend Wilson Elementary, including 64% English learners and 100% free lunch offered to students. The staff, parents, and students foster the acceptance and celebration of diversity and work collaboratively to instill a lifelong love of learning.

Wilson provides a learning environment that supports students through academic and social-emotional excellence through the shared vision that all students will achieve academic and personal success as they become responsible and productive lifelong learners. In order to help our students attain academic goals, teachers and support staff analyze assessment data, have monthly professional learning communities where teachers discuss and share best practices, and monthly professional development focused on academics and social-emotional growth. Students have 1:1 technology in grades Kinder through sixth to provide accessibility to the Internet, online curriculum components that support our literacy program, and additional programs that support academics and language development. All K-2 students receive supplemental reading instruction and targeted 3-6 students receive additional instructional support. K-2 students also engage in daily Heggerty phonemic awareness lessons and utilize Lexia to enhance foundational skills development. Students in grades 2-6 utilize the Accelerated Reader program to monitor and encourage independent reading growth. We hold high expectations for all students and provide a comprehensive and challenging instructional program that supports all of our unique learners. All students participate in differentiated Academic Language Blocks (ELD) to support school-wide language development. Students participate in weekly music, science lab, library, and 3-6 work weekly with PE specialists. Students in PK-2 participate in Healthy Habits curriculum. All students have access to dance and STEM enrichment opportunities. All students also participate in art enrichment with the Art Masters program four times per year.

In addition to ensuring the academic achievement of our students, we foster positive and collaborative relationships among teachers, students, staff, parents, and the community. Wilson implements Positive Behavioral Implementation and Supports, that supports positive behaviors and expectations at our school. Students demonstrate ROARS (respects, ownership, attitude, responsibility, and safety) while on campus and are able to earn Wildcat Tickets for positive displays of behavior. Classes also earn Super ROARS points for demonstrating ROARS choices. Each Friday we have a Wildcat Rally and invite parents to attend, where we recognize students who demonstrate appropriate ROARS behaviors. This is also shared with our community during the weekly Wilson Connections News. Our school is focused on ROARing and kindness to ourselves, to others, and to

#### 2022-23 School Overview

the community. Social emotional learning is also a priority at Wilson. Each class prioritizes morning SEL time and implements the RULER curriculum tools (e.g., mood meter, class charter). Our SAIL team also provides Tier 1 SEL lessons as well as individual and small group counseling support for students. SEL themes are focused on each month school-wide and in classrooms and students are recognized monthly for their character choices.

Our school community is supportive of our school and also prioritizes our children first. We have a very strong partnership with a local organization that provides opportunities enrichment for students, assemblies for students, and supports staff activities. The PTA raises funds for enrichment learning (Art Masters), supplemental supplies, field trips, assemblies, and special events, including events for the entire family (i.e., Trick or Trunk). All stakeholders at Wilson Elementary demonstrate wildcat pride and help to ensure that our students have an enriching and positive school experience to establish a foundation of preparedness for college and careers.

2021-22 data was not included as part of the initial release of data on 1/13/23. The CDE has indicated that the data will be available after the 2/1/23 SARC deadline. The data will be populated when it is published by the CDE.

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

# 2022-23 Quality, Currency, Availability of Textbooks and Other Instructional Materials

The Newport-Mesa Unified School District follows the state's curriculum cycle to adopt/approve updated, high quality textbooks/instructional materials. Students are provided with an adequate supply of Board-approved textbooks/instructional materials for all subject areas. The reading/language arts and mathematics curricula are aligned with district and state content standards. Teachers also select supplementary instructional materials to meet the specific needs of their students. History/Social Science and Science curriculum instruction are aligned with district and state content standards. Individual schools support instruction by providing a library/media center and technology resources in the classroom including computers, CD-ROM, and instructional television. Internet access is available in the library/media center and in all classrooms. Teachers and administrators have been trained to use technology and the internet as an instructional tool in the classroom. Each school continues to develop a way of integrating technology into curriculum and instruction.

# **B. Pupil Outcomes**

# **State Priority: Pupil Achievement**

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

#### **Statewide Assessments**

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- Smarter Balanced Summative Assessments and CAAs for ELA in grades three through eight and grade eleven.
- 2. Smarter Balanced Summative Assessments and CAAs for mathematics in grades three through eight and grade eleven.
- 3. California Science Test (CAST) and CAAs for Science in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
- 4. College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

#### SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

#### **Options**

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

#### Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
English Language Arts/Literacy (grades 3-8 and 11)	N/A	31	N/A	58	N/A	47
Mathematics (grades 3-8 and 11)	N/A	20	N/A	47	N/A	33

#### 2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

#### 2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

#### 2022-23 Opportunities for Parental Involvement

Wilson has provided many opportunities for parents and the community to become involved:

- PTA
- ELAC
- School Site Council
- Positive Parenting Classes and School Readiness Classes (Grupo Crecer and Olive Crest)
- Family Curriculum Events
- Counseling
- Back to School Night
- Open House
- Wildcat Rallies
- Volunteer Opportunities
- School Events (Movie Nights, Family Night, Trunk or Treat)

For more information about opportunities to become involved in the school, please contact the School Community Facilitator, Ms. Claudia Catoia at (949) 515-6995.

# **State Priority: School Climate**

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

#### Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Subject	School 2019-20	District 2019-20	State 2019-20
Suspensions	0.95	1.55	2.45
Expulsions	0.00	0.00	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

#### 2022-23 School Safety Plan

State education code requires schools to review and update the Comprehensive School Safety Plan (as needed) at least once each year. These plans must be submitted to the local Board of Education for adoption by March 1st. In Newport-Mesa Unified School District, plans are evaluated and revised October through January, then submitted to the Board of Education in February. By following this cycle, schools open each August with a fully approved Comprehensive School Safety Plan in place for fall-winter and allows for training and adjustments through mid-year. Wilson School was constructed in 1957. There are 20 regular classrooms and 13 relocatable classrooms. Some classrooms are used by the after school program Project Kidz Connect. The campus is inspected regularly to ensure safe conditions. One full-time day custodian, one PT day custodian, two night custodians, and students and staff help maintain the cleanliness of the campus. Walking through our school, one can see that all areas are utilized for a variety of small and large group instructional settings. As part of our commitment to a safe, orderly, and caring campus, we have implemented Positive Behavior Interventions and Support (PBIS) to ensure accountability, positive relationships, and restorative practices. All students wear uniforms daily that contribute to positive student behavior and a school climate that prioritizes learning and positive behavior. We have implemented a single access point of entry at our front gate for students, families, and all visitors. Visitors are also required to utilize the Raptor Identification system to screen and identify visitors to campus with badges.

Wilson has developed a Comprehensive School Safety Plan. Our plan is evaluated yearly and amended, as needed, by the school safety planning committee. As part of the plan, emergency supplies are maintained both in the classrooms and in a central location, and evacuation drills are conducted regularly throughout the year. Ingress and egress routes are outlined. Emergency procedures and the school site's emergency response team structure is outlined as well as roles and responsibilities. Parents and community are informed of the components and procedures of the plan and have the opportunity to provide input via a yearly Interest Survey and through input during SSC and PTA/ELAC meetings. The plan was reviewed, updated, and discussed with the faculty on December 1, 2021 and SSC on January 27, 2022. It was approved by the Local Board of Education on February 8, 2022.
