## PESTICIDE PRIOR NOTIFICATION REQUIREMENTS

**(PLEASE COMPLETE ONLY IF YOU WISH TO BE NOTIFIED)**

As part of the Marshall Public School District’s integrated pest management program, pesticides are occasionally applied. According to Michigan law, a parent or legal guardian of a child enrolled in a school district has the right to be notified prior to the application of pesticides to that district’s buildings or grounds. In certain emergencies, pesticides may be applied without prior notice, but notice will be provided following such application in the affected area. Notice of pesticide application for weed control will be posted in the affected area 48 hours prior to application. Pesticide application in the interior of buildings is only utilized as a last resort and **occurs during non-student occupied time**. The district has contracted with Rose Pest Solutions for our building pest management service. Please consider the following list of scheduled service dates as written prior notification of possible building pesticide applications for the grounds of Marshall Public Schools for the 2022-2023 school year:
