

## Assignment 3: Personified Object

Thoughts From An Inanimate Object –

1. Choose an inanimate object – a thing that is not alive. It may be common or exotic, familiar or unique.
2. Think about what thoughts that object might have if it were able to think. What would it say, do, think, or feel? What problems and solutions would be important to it. Be sure to give its unique perspective and point of view. It is essential that you become this thing and give it life. You might want to brainstorm and then write or you may simply sit down and write a stream of consciousness narrative.
- 3.. Write approximately two pages from the perspective of this object. **Be inventive, be creative.**
