

Chapter 1

Section 1.1: Points, Lines and Planes

[Language of Geometry](#)

[Line, Line Segments and Rays](#)

[Identifying Planes](#)

Section 1.2: Measuring and Constructing

[Measuring Line Segments](#)

[Congruent Line Segments](#)

[Segment addition postulate](#)

Section 1.3: Using Midpoint and Distance Formula

[Distance Formula](#)

[Midpoint Formula](#)

Section 1.4: Perimeter and Area

[Perimeter and Area in Coordinate Plane](#)

[Rise Over Run to Determine Slope](#)

Section 1.5: Measuring and Constructing Angles

[Naming Angles](#)

[Measuring Angles with a Protractor](#)

[Constructing Angles with Protractor](#)

Section 1.6: Pairs of Angles

[Complementary and Supplementary Angles](#)

[Vertical Angles](#)
