

Mamaroneck Union Free School District
Mamaroneck, NY 10538

Dear Parent/Guardian of _____ Date _____

All students entering or attending school in NYS must be immunized. Students who are entering 6th grade for the 2023-2024 School Year will require a Tdap vaccine. Your child is missing this immunizations (shot) for school entry or attendance.

Please share this notification with your child's health care provider (MD, NP, PA) so they can provide the immunization your child needs. The age at which vaccines (shots) are given must match the NYSDOH Immunization Requirements for School Entrance/Attendance Chart.

The Tdap requirements are:

- Students in grades 6 - 9 will need a Tdap no earlier than 10 years of age and no later than 11 years of age.
- Students in grades 10- 12 doses will need a Tdap no earlier than 7 years of age.

Schools can accept the following immunization records as proof of immunization:

- An immunization record from your health care provider or health department.
- An official copy of the immunization record sent directly from your child's previous school with the dates given.
- A NYSIIS/NYCIR Immunization Registry record.
- A blood test (titer) lab report that proves immunity to Measles, Mumps, Rubella, Varicella, Hepatitis B.
- A note from your health care provider with the date your child had Chicken Pox (varicella).

The only exemption from the above vaccine requirement is a medical exemption written by a New York State Physician

Your child will not be permitted to attend school without the necessary immunizations.

Please return your child's immunization record to the Hommocks Middle School Health Office.

Thank you,

Jacqueline Sheppard RN

New York State Public Health Law, Section 2164 requires that schools will not permit a child to attend school unless the parent provides the school with a certificate of immunization or proof from a physician, nurse practitioner or physician's assistant that the child is in the process of receiving the required immunizations. All health care providers that give immunizations to children are required to enter the immunizations they provide in NYSIIS or NYCIR within 14 days.
