Bonita Canyon Public Facilities Financing Authority

GOVERNING BOARD

MEMBER	PARTICIPANT	OFFICE
Mr. Scott Catlett	City of Newport Beach	President
Mrs. Julia Lammatao	Newport-Mesa Unified School District	Vice President
Mr. Jeff Trader	Newport-Mesa Unified School District	Secretary/Treasurer

ORGANIZATION

The Bonita Canyon Public Facilities Financing Authority was established December 9, 1997, under a joint powers agreement for the purpose of approving the issuance of bonds for the financing of certain public improvements and the imposition of the special tax and the method of apportionment thereof. The Bonita Canyon Public Facilities Financing Authority consisted of the Irvine Unified School District, Newport-Mesa Unified School District, and the City of Newport Beach. On July 1, 1999, Irvine Unified School District withdrew from the Authority. Consequently, on March 18, 1998, the Governing Board passed the Resolution of Formation to establish the Community Facilities Agency and called for an election for the purpose of approving the issuance of bonds for the financing of certain public improvements and the imposition of the special tax and the method of apportionment thereof.

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the Bonita Canyon Public Facilities Financing Authority (the Authority) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of the Authority, as of June 30, 2022, and the respective change in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States *(Government Auditing Standards)*. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Authority and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Management has omitted management's discussion and analysis and budgetary comparison information that the accounting principles generally accepted in the United States of America requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board,

who considers it to be an essential part of financial reporting for placing the basic financial statement in an appropriate operational, economic, or historical context. Our opinion on the basic financial statement is not affected by the missing information.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 2, 2023 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

Note 1 - Summary of Significant Accounting Policies

Financial Reporting Entity

The Bonita Canyon Public Facilities Financing Authority (the Authority) was formed on December 9, 1997, by a Joint Powers agreement among the following Orange County Government Agencies: Irvine Unified School District, Newport-Mesa Unified School District, and the City of Newport Beach. On July 1, 1999, Irvine Unified School District withdrew from the Authority. The purpose of the Authority is to finance the costs of certain school facilities, public parks and recreation facilities, and street improvements and facilities.

On March 18, 1998, the Governing Board passed the Resolution of Formation to establish the Community Facilities Agency and called an election for the purpose of approving the issuance of bonds for the financing of certain public improvements and the imposition of the Special Tax and the method of apportionment thereof. On March 18, 1998, qualified electors within the Community Facilities Agency, being The Irvine Company, voted to incur bonded indebtedness in the maximum aggregate principal amount of $45,000,000 with interest at a rate or rates established at such time as the Bonds were sold in one or more series to finance the facilities, secured by a pledge of, and are payable solely from, the proceeds of the annually levied Special Tax. The Special Tax is levied and collected according to the rate and method of apportionment as described in the Resolution of Formation. A notice of Special Tax levy was recorded on April 1, 1998, with the County Recorder.

The Authority is governed by an appointed Governing Board. The Governing Board is comprised of two members selected by each participant agency. The Authority is fiscally responsible for its own operation, major financing arrangements, and contracts. Its significant accounting policies, as described below, are the same as for any independent Joint Powers Authority.

Basis of Presentation – Fund Accounting

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The Authority's funds are identified as governmental funds and fiduciary funds.

Governmental Funds Governmental Funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following is the Authority's major governmental fund:

Capital Projects Fund The Capital Projects Fund is used to account for and report financial resources that are restricted, committed, or assigned to the acquisition or construction of major capital facilities and other capital assets (other than those financed by proprietary funds and trust funds).

Fiduciary Funds Fiduciary funds are used to account for resources held for the benefit of parties outside the County and are not available to support the County's own programs. Fiduciary funds are split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and custodial funds. The three types of trust funds are distinguished from custodial funds by the existence of a trust agreement or equivalent arrangement that has certain characteristics.

Trust funds are used to account for the assets held by the Authority under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the Authority's own programs. The Authority does not have any trust funds. Custodial funds are used to account for resources, not in a trust, that are held by the Authority for other parties outside the Authority. The Authority's custodial fund accounts for the receipt of special taxes and assessments used to pay principal and interest on related bonds with no liability to the Authority.

Basis of Accounting – Measurement Focus

Government-Wide Financial Statements The financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting, which is different from the manner in which governmental fund financial statements are prepared.

Since the Authority does not have program revenues, the Statement of Activities presents all revenues as general revenues. Expenses are reported on a functional basis.

Net position should be reported as restricted when constraints placed on net asset use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

Fund Financial Statements Fund financial statements report detailed information about the Authority. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. The Authority only has one fund, of which is a major governmental fund.

- **Governmental Funds** All Governmental Funds are accounted for using a flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide financial statements and the statements for the governmental funds on a modified accrual basis of accounting and the current financial resources measurement focus. Under this basis, revenues are recognized in the accounting period in which they become measurable and available. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable.

- **Fiduciary Funds** Fiduciary Funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. Fiduciary funds are excluded from the financial statements because they do not represent resources of the Authority.

Revenues – Exchange and Non-Exchange Transactions On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. The Authority considers revenues to be available if they are collected within one year after year-end, except for property taxes, which are considered available if collected within 60 days. The following revenue sources are considered to be both measurable and available at fiscal year-end: State apportionments, interest, certain grants, and other local sources.

Non-exchange transactions, in which the Authority receives value without directly giving equal value in return, include contributions from property owners. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred. Principal and interest on general long-term debt, which has not matured, are recognized when paid in the governmental funds.

Investments

Investments, with original maturities greater than one year are stated at fair value. Fair value is estimated based on quoted market prices at year-end. All investments not required to be reported at fair value are stated at cost or amortized cost.

Fund Balances - Governmental Funds

As of June 30, 2022, fund balance of the governmental fund is classified as follows:

Restricted – amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislations or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Spending Order Policy

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the Authority considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the Authority considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the governing board has provided otherwise in its commitment or assignment actions.

Net Position

Net position represents the difference between assets and deferred outflows or resources, and liabilities and deferred inflows of resources. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Authority or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The Authority applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available. The government-wide financial statements report $23,331 of net position restricted for capital projects.

Budgets and Budgetary Accounting

Annually, the Authority's Governing Board adopts an operating budget. The Board and Treasurer revise this budget during the year to give consideration to unanticipated revenues and expenses partially resulting from events unknown at the time of budget adoption.

Income Taxes

The Authority's income is exempt from Federal and State income taxes under Internal Revenue Code Section 115 and the corresponding section of the California Revenue and Taxation Code.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 2 - Investments

Policies and Practices

The Authority is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

Investments as of June 30, 2022, are classified in the accompanying financial statements as follows:

Governmental activities	$ 23,331
Fiduciary funds	2,902,010
Total investments	$ 2,925,341

General Authorizations

Limitations as they relate to interest rate risk, credit risk, and concentration of credit risk are indicated in the schedules below:

Authorized Investment Type	Maximum Remaining Maturity	Maximum Percentage of Portfolio	Maximum Investment In One Issuer
Local Agency Bonds, Notes, Warrants	5 years	None	None
Registered State Bonds, Notes, Warrants	5 years	None	None
U.S. Treasury Obligations	5 years	None	None
U.S. Agency Securities	5 years	None	None
Banker's Acceptance	180 days	40%	30%
Commercial Paper	270 days	25%	10%
Negotiable Certificates of Deposit	5 years	30%	None
Repurchase Agreements	1 year	None	None
Reverse Repurchase Agreements	92 days	20% of base	None
Medium-Term Corporate Notes	5 years	30%	None
Mutual Funds	N/A	20%	10%
Money Market Mutual Funds	N/A	20%	10%
Mortgage Pass-Through Securities	5 years	20%	None
County Pooled Investment Funds	N/A	None	None
Local Agency Investment Fund (LAIF)	N/A	None	None
Joint Powers Authority Pools	N/A	None	None

Specific Identification

Information about the sensitivity of fair values of the Agency's investments to market interest rate fluctuation is provided by the following schedule that shows the distribution of the Agency's investment by maturity:

Investment Type	Amount Reported	Average Maturity in Days
Goldman Sachs Financial Square Governmental Mutual Fund #465	$ 2,925,341	8

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The Authority does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The Authority manages its exposure to interest rate risk by investing in short-term money market funds for cash flow requirements.

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The investment in the Goldman Sachs Financial Square Governmental Mutual Fund #465 has not been rated.

Note 3 - Fair Value Market

The Authority determines the fair market value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value. The following provides a summary of the hierarchy used to measure fair value:

- Level 1 - Quoted prices in active markets for identical assets that the Authority has the ability to access at the measurement date. Level 1 assets may include debt and equity securities that are traded in an active exchange market and that are highly liquid and are actively traded in over-the-counter markets.

- Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, or other inputs that are observable, such as interest rates and curves observable at commonly quoted intervals, implied volatilities, and credit spreads. For financial reporting purposes, if an asset has a specified term, a Level 2 input is required to be observable for substantially the full term of the asset.

- Level 3 - Unobservable inputs should be developed using the best information available under the circumstances, which might include the Authority's own data. The Authority should adjust that data if reasonably available information indicates that other market participants would use different data or certain circumstances specific to the Authority are not available to other market participants.

The Authority's fair value measurements are as follows at June 30, 2022:

Investment Type	Reported Amount	Fair Value Measurements Using Level 2 Inputs
Goldman Sachs Financial Square Governmental Mutual Fund #465	$ 2,925,341	$ 2,925,341

All assets have been valued using a market approach, with quoted market prices.

Note 4 - Fund Balance

Fund balance is composed of the following:

	Capital Projects Fund
Restricted	
Administrative expense	$ 23,331

Note 5 - Non-Obligatory Debt

Summary

These bonds are authorized pursuant to the Mello-Roos Community Facilities Act of 1982 as amended and are payable from special taxes levied on property within Community Facilities District No. 98-1 according to a methodology approved by the voters within the Authority. Neither the faith and credit nor taxing power of the Authority is pledged to the payment of the bonds. The Authority acts solely as an agent for those paying taxes levied. As a result, this debt is considered non-obligatory debt of the Authority. During the 2018-2019 fiscal year, the outstanding obligations of Community Facilities District No. 98-1's Special Tax Bonds, Series 2012 were refunded through the issuance of Community Facilities District No. 98-1’s 2017 Special Tax Refunding Bonds. At June 30, 2022, Community Facilities District No. 98-1’s 2017 Special Tax Refunding Bonds had a remaining balance of $18,675,000.

The Special Tax Bonds mature through 2029 as follows:

Year Ending June 30,	Principal	Interest	Total
2023	$ 2,620,000	$ 460,173	$ 3,080,173
2024	2,755,000	388,954	3,143,954
2025	2,910,000	313,893	3,223,893
2026	3,060,000	234,790	3,294,790
2027	3,210,000	151,713	3,361,713
2028-2029	4,120,000	74,465	4,194,465
Total	$ 18,675,000	$ 1,623,987	$ 20,298,987

Independent Auditor's Report
June 30, 2022

Bonita Canyon Public Facilities Financing Authority

EideBailly

CPAs & BUSINESS ADVISORS

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Board of Directors
Bonita Canyon Public Facilities Financing Authority
Costa Mesa, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the Bonita Canyon Public Facilities Financing Authority (the Authority) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated March 2, 2023.

Management has omitted management's discussion and analysis and budgetary comparison information that the accounting principles generally accepted in the United States of America requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statement in an appropriate operational, economic, or historical context. Our opinion on the basic financial statement is not affected by the missing information.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Rancho Cucamonga, California
March 2, 2023

EideBailly

CPAs & BUSINESS ADVISORS

March 2, 2023

To the Board of Directors
Bonita Canyon Public Facilities Financing Authority
Costa Mesa, California

We have audited the financial statements of Bonita Canyon Public Facilities Financing Corporation (the JPA) as of and for the year ended June 30, 2022 and have issued our report thereon dated March 2, 2023. Professional standards require that we advise you of the following matters relating to our audit.

Our Responsibility in Relation to the Financial Statement Audit under Generally Accepted Auditing Standards and *Government Auditing Standards*

As communicated in our engagement letter dated June 1, 2022, our responsibility, as described by professional standards, is to form and express an opinion about whether the financial statements that have been prepared by management with your oversight are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America. Our audit of the financial statements does not relieve you or management of its respective responsibilities.

Our responsibility, as prescribed by professional standards, is to plan and perform our audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control over financial reporting. Accordingly, as part of our audit, we considered the internal control of the JPA solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are also responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

We have provided our comments regarding internal controls during our audit in our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* dated March 2, 2023.

Planned Scope and Timing of the Audit

We conducted our audit consistent with the planned scope and timing we previously communicated to you.

Compliance with All Ethics Requirements Regarding Independence

The engagement team, others in our firm, as appropriate, our firm, and other firms utilized in the engagement, if applicable, have complied with all relevant ethical requirements regarding independence.

Significant Risks Identified

As stated in our auditor's report, professional standards require us to design our audit to provide reasonable assurance that the financial statements are free of material misstatement whether caused by fraud or error. In designing our audit procedures, professional standards require us to evaluate the financial statements and assess the risk that a material misstatement could occur. Areas that are potentially more susceptible to misstatements, and thereby require special audit considerations, are designated as "significant risks". We have identified the following as significant risks.

- Management Override of Controls – Professional standards require auditors to address the possibility of management overriding controls. Accordingly, we identified as a significant risk that management of the organization may have the ability to override controls that the organization has implemented. Management may override the organization's controls in order to modify the financial records with the intent of manipulating the financial statements to overstate the organization's financial performance or with the intent of concealing fraudulent transactions.

- Revenue Recognition – We identified revenue recognition as a significant risk due to financial and operational incentives for the organization to overstate revenues.

Qualitative Aspects of the Entity's Significant Accounting Practices

Significant Accounting Policies

Management has the responsibility to select and use appropriate accounting policies. A summary of the significant accounting policies adopted by the JPA is included in Note 1 to the financial statements. There have been no initial selection of accounting policies and no changes in significant accounting policies or their application during ended June 30, 2022. No matters have come to our attention that would require us, under professional standards, to inform you about (1) the methods used to account for significant unusual transactions and (2) the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

Significant Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's current judgments. Those judgments are normally based on knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ markedly from management's current judgments. There are no significant estimates reported for the JPA.

Financial Statement Disclosures

Certain financial statement disclosures involve significant judgment and are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the JPA's financial statements relate to significant accounting policies (Note 1).

Significant Difficulties Encountered during the Audit

We encountered no significant difficulties in dealing with management relating to the performance of the audit.

Uncorrected and Corrected Misstatements

For purposes of this communication, professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that we believe are trivial, and communicate them to the appropriate level of management. Further, professional standards require us to also communicate the effect of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures, and the financial statements as a whole. Uncorrected misstatements or matters underlying those uncorrected misstatements could potentially cause future-period financial statements to be materially misstated, even though the uncorrected misstatements are immaterial to the financial statements currently under audit. There were no corrected or uncorrected misstatements detected as a result of our audit procedures.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter, which could be significant to the JPA's financial statements or the auditor's report. No such disagreements arose during the course of the audit.

Circumstances that Affect the Form and Content of the Auditor's Report

For purposes of this letter, professional standards require that we communicate any circumstances that affect the form and content of our auditor's report.

Modification of the Auditor's Report

We have made the following modification to our auditor's report.

Other Matters

Required Supplementary Information
Management has omitted management's discussion and analysis and budgetary comparison information that the accounting principles generally accepted in the United States of America requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statement in an appropriate operational, economic, or historical context. Our opinion on the basic financial statement is not affected by the missing information.

Representations Requested from Management

We have requested certain written representations from management that are included in the management representation letter dated March 2, 2023.

Management's Consultations with Other Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing and accounting matters.

Other Significant Matters, Findings, or Issues

In the normal course of our professional association with the JPA, we generally discuss a variety of matters, including the application of accounting principles and auditing standards, significant events or transactions that occurred during the year, operating conditions affecting the entity, and operating plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition to our retention as the JPA's auditors.

This report is intended solely for the information and use of the Board of Directors and management of the JPA and is not intended to be and should not be used by anyone other than these specified parties.
