

SCHS 6-Year Action Plan

Moving forward with a Culture of Collaboration

Goal 1:

Increase communication among all stakeholders in order to increase parental, staff, and student engagement

Student Engagement

Increase student engagement through student centered curriculum; adding more elective classes and semester classes

Closing the Achievement Gap

Continue to identify underrepresented and/or underperforming students while disseminating and communicating our achievement data to all stakeholders, involve students, parents, and staff in our revision of our Mission, Vision, & SLOs

Promoting Wellness

Improve awareness of wellness services through stakeholder presentations designed to improve student wellness.

Implementing Technology

Increase trainings for students, parents and teachers on technology such as School Loop, Google Classroom and digital citizenship

Parent Engagement

Improve communication to parents through workshops for School Loop and through teachers regularly using School Loop to communicate about students' assignments and grades

Goal 2:

Improve curriculum and instruction through collaboration and data analysis

Use structured departmental / interdepartmental collaboration time to share creative instructional strategies and promote peer-to-peer teacher observation to improve student engagement and support,

Research, identify and implement a data-driven collaboration framework at the department/course level to improve consistent standards-aligned curriculum & instruction, refine essential assignments, and analyze common assessments within a cohesive data inquiry cycle

Determine, provide, and integrate social and emotional components across every curriculum and content area in order to support students well being

Provide students with consistent use of technology in classroom through increased teacher training on a variety of instructional technology tools

Improve communication about student data and progress, grading timelines, and equity of access between faculty/staff & families

Goal 3:

Engage and support our diverse student population by improving equity and access

Create more opportunities for students to access teachers and staff during and outside the school day

Strengthen student academic skills by continuing to implement AVID strategies schoolwide and provide equity-focused PD to help teachers identify and support students' individual needs

Encourage various student-driven activities that promote inclusivity, engagement, and community connections

Ensure all students have Wi-Fi & Wi-Fi enabled devices at school and at home through outreach

Help students connect with school by increasing outreach to parents through a variety of approaches
