

# Klein Forest High School: Addition

Architect: RWS  
KISD Contact: Don Blue  
Contractor: Marshall Construction

## Project Description:

This instructional addition at Klein Forest High School will relieve the over capacity situation and provide for the division of the school into smaller learning community as described in the *Findings and Directions*. There will be five learning communities throughout the building. The addition also includes a major remodel of the food service area and additional cafeteria seating capacity. The special education and clinic spaces are also being remodeled.

## Schedule:

Design: November 2004
