Don Blue

Project Description:

This project started using funds from the 1999 bond authorization. The florescent light fixtures are being replaced across the district as part of an energy savings plan to aid with power consumption. The 2005 schools include Ehrhardt and Nitsch. The 2006 schools included Kuehnle, Eiland and Roth. The 2007 schools include Mittelstadt, Klein Forest commons and Klenk.

Schedule:

Design: December
Scheduled Construction Start: June
Scheduled Completion: August

Status:

2005 and 2006 are complete; 2007 is in progress

Construction Contracts:

\$1,157,825

1. Turn off lights in all areas that are empty for more than 30 minutes.
2. Turn off all computers at the end of each day.
3. Remove small electrical appliances from personal offices and classrooms.
4. Keep outside doors closed at all times.

Along with our lighting replacement project, Klein encouraged campuses to save electricity by giving back a percentage of the savings.
