

2022-23 Professional Enhancement Grant I and II Information and Application

The Professional Enhancement Grants I and II are available to all NKEA members. Due to the limited availability of funding, it is less likely that applicants will be approved in consecutive years.

Interests

The purpose of the Professional Enhancement Grant is to provide an avenue for NKEA members to enhance their individual and collective professional skills. Some of the benefits will be: 1) increased professional skills, 2) enhanced student learning, and 3) increased attraction and retention of staff. To support these interests, professional enhancement opportunities are offered through a grant process.

What constitutes a Professional Enhancement Grant (PEG) I and II?

Professional Enhancement Grants may be as unique and individualized as you and the students you serve.

- ✓ **Professional Enhancement Grant I** includes grants of up to \$2,500.
- ✓ **Professional Enhancement Grant II** includes those proposals of \$2,500 or more.

Examples of approved grant proposals include assistance with costs of advanced degrees, individualized coursework, cost of progressing from Residency to Professional certification, international exchanges (distinct from overseas job assignments), National Board Certification, internships and instructional improvement projects.

Examples of non-qualifying requests: classroom materials and/or technology items

What level of release time and/or other financial support might I expect?

If release time is requested as part of the professional growth proposal, it must be pre-approved by the Supervisor and the Superintendent (or designee). **Funding for release time (if needed) must be included in the grant request unless that expense will be covered by the applicant's building or department and will be specific to each proposal.
