## Executive Director's Report September 25, 2014

### PROGRAM SPOTLIGHT

#### Training and Consultation Services

Training and Consultation, part of the Comprehensive System of Personnel Development (CSPD), is authorized by the Federal Government (Individuals with Disabilities Education Act, IDEA) to provide professional development and consultative services to administrators, consultants, teachers and parents. These services are an integral part of broad school and district-wide accountability planning. Professional education activities are aligned with national, state and local initiatives, and support the strategically identified needs of our constituent school districts. While these services are not designed to focus on ongoing individual student interventions, they are intended to provide staff with professional development and resources to build capacity within the school to improve the education of all students. The Pennsylvania Department of Education outlines six initiatives, **Autism, Inclusive Practices, Positive Behavior Support, Response to Instruction and Intervention (RtII), Secondary Transition, and Assistive Technology**, which are the focus of this team's work with local education agencies.

### NEWS

Congratulations to **Alice Womer**, CAIU Speech Language Pathologist, who has been selected to be a Guest Lecturer as part of the 2014-15 Outstanding Teacher Program sponsored by the Shippensburg University School Study Council. She will have the opportunity to work with Dr. Kelly Carrero, Assistant Professor of Special Education at Shippensburg University, in teaching an undergraduate class.

#### Technology Services – E-Rate

Julie Tritt-Shell, Pennsylvania's E-rate Coordinator, presented to the Technology Advisory Committee, on September 11. Julie shared the current status of E-rate and provided an overview of the substantial changes to E-rate for the 2015-16 school year. Some of the changes will include the elimination of phone and cell phone services and web hosting and a decrease in reimbursement for schools receiving the 90% discount. However, schools will be eligible to receive funding for infrastructure equipment. Julie will be providing a detailed training session on E-rate on October 31 at the CAIU.

#### Early Intervention – Preschool

The CAIU Early Intervention Program and the Penn State Hershey Children's Hospital entered an agreement to conduct evaluations for children with suspected Autism Spectrum Disorders. One day a month, Dr. Cheryl Tierney, Developmental Pediatrician (Associate Professor of Pediatrics; Section Chief, Behavior and Developmental Pediatrics) and a nurse join an evaluation team at the CAIU. Our team consists of Jen Yingling, Service Coordinator; Dr. Johanna Tesman, Licensed Clinical and School Psychologist; Michelle Straw, Speech Pathologist and Assessment Specialist; Tracey Knauss, Occupational Therapist and Assessment Specialist; and Sharon Kello, Speech Pathologist.

This clinic is scheduled monthly. Two children and their families come to Enola for a clinic evaluation. Over the course of several hours, the children and families rotate through the team members in order to conduct: a joint parent interview and intake by the CAIU and Dr. Tierney;

Cognitive and Gross/Fine Motor Testing; Speech/Language and the Autism Diagnostic Observation Schedule standardized testing; and a physical examination.

At the conclusion, the entire team meets with each family individually and reports findings to the family. This will include recommendations for Early Intervention educational services by the CAIU, medical and Behavioral Health Rehabilitation Services by Dr. Tierney, and additional resources and services available from other agencies by the whole team. The child becomes a patient of Dr. Tierney and receives additional medical follow-up as requested by the family.
