COMMUNITY WORKSHOP

# "UNDERSTANDING IMPLICIT BIAS"

Over the past several decades, social science research has revealed that even the most well-intentioned people experience some degree of "implicit bias," the unconscious and often subtle associations we make between groups of people and stereotypes about those groups.

This workshop will guide participants through a journey of personal exploration for an awareness of the shortcuts and subsequent perceptions we make about people and our surroundings. It will also provide basic skills, through transformative learning, to increase awareness about our cognitive biases and offer intervention strategies.
