

## FUNDING PROPOSALS AND APPLICATIONS

The Board directs the Superintendent/designee to apply for any state or federal grants for which the District is eligible, at his/her discretion. The Superintendent/designee evaluates federally funded programs and state grants, including their possible benefits to the students in the District, appraises the Board of the worth of each, and makes recommendations accordingly.

The District participates to its limit of eligibility in the use of funds provided by the state for the educational benefit of its students.
