

IMMUNIZATIONS

In order to minimize the spread of preventable illnesses in schools and provide students with a healthier learning environment, the Board requires immunizations in compliance with State law and the Ohio Department of Health for each student unless the parent(s) file an objection. The Board may also require tuberculosis examinations in compliance with law. The Board will not require students to receive any vaccine for which the United States Food and Drug Administration has not granted full approval.

Students eligible for kindergarten and students new to the District must present written evidence of similar immunizations, or written evidence to indicate that they are in the process of receiving immunizations, to be completed no later than the day of entrance. Students failing to complete such immunizations within 14 days after entering are not permitted to return to school.

The District maintains an immunization record for each student, available in writing to parents upon request.
