Moore, OK 73160

December 13, 2020

Northmoor Families,

As we prepare to launch our first Virtual Learning day due to inclement weather, I've written a letter to help guide you. Monday, December 14th will be a Virtual Learning Day for all Moore Public Schools students. Your child's teacher will be reaching out to you with specific details. I hope you find this additional information helpful.

- A Zoom link will be sent to you from your child's teacher soon. Each homeroom teacher will be meeting with their class virtually through this link on Monday morning. These meetings will be between 20-30 minutes and will be between the hours of 10:00-12:00. If your child is unable to attend during the time your teacher schedules, reach out to your child's teacher for a resolution.
- During the Zoom meeting, teachers will go over the assignments for that day that are uploaded to their Canvas pages.
- Teachers will share what their office hours will be for the day and how they can be contacted during those hours to answer any questions you or your child may have.
- If your child does NOT have a device they can use for this Virtual Learning Day, they will be given one school day to make up the assignments missed when we return. When inclement weather arises during days we are not in school, devices will not be distributed ahead of time. If we were to ever need to go virtual for other reasons or were in school the day before an inclement weather day, devices would be distributed to those needing them based on information you shared on our most recent survey.

Although we believe in person instruction is best practice, we are thankful to be able to provide effective instruction through interactive Zoom meetings, Canvas instruction and the support of our patrons during times we are unable to meet in person. If I can be of service to you during Virtual Learning Days, please email me at vernonadecarlo@mooreschools.com.

Respectfully,
Vernona DeCarlo/ Principal
