

# Mathemania

## Rising 5th and Rising 6th Graders

Don't let those math skills slide over the summer. Send your child to Mathemania to help keep his or her math skills in tip-top shape. This ENRICHMENT program aims to aid students in the retention of math facts and the basic operations, to increase number sense, improve critical-thinking skills, and deepen problem solving strategies. It is intended to help students keep current math skills sharp, so they are ready for the coming school year. These goals will be accomplished through a wide variety of games, a few drills, and fun group activities. Register your child today!

- WHO? Rising 5th and Rising 6th graders
- WHEN? June 13, 14, and 15 (Tuesday-Thursday) and July 5, 6, and 7 (Wednesday-Friday)
