Locks we recommend the following type of locks since they do not break as easily. Please avoid key locks or digital locks. It must be a **combination lock** that can be closed even if the combination is not set.

- ☐ Please leave the combination sticker on the back of the lock so that we can record the combination
- ☐ Practicing with your child how to open and close the lock is a good idea; we will also do this at school
- ☐ Avoid TSA locks as the keys are widely available
