

Center Grove School Counseling & Mental Health Department

CENTER GROVE SUPPORTS

1. SCHOOL COUNSELORS

- Education level: Masters degree in school counseling
- Specialized knowledge of post secondary readiness including academic, social, emotional, and behavioral supports.
- Promote safe learning environments for all members of the school community and regularly respond to behavior issues that impact school climate, such as bullying, student interpersonal struggles, and student well-being.

2. SCHOOL SOCIAL WORKERS

- Education level: Masters degree in social work with an Indiana school service license.
- School social workers' training includes specialized preparation in prevention strategies, risk assessment and intervention, consultation and collaboration, and clinical intervention strategies to address the mental health needs of students.
- They work to eliminate barriers to academic success.

3. SEL COUNSELORS

- Education level: Masters degree in social work or school counseling.
- Main role is to provide Tier 1 explicit social-emotional instruction on the following employability skills (regulation, connection, and collaboration).
- They work to promote healthy physical, emotional, and social development and assist in planning and coordinating wellbeing activities.

4. COMMUNITY SCHOOL BASED SERVICES

- Education level: licensed or license-eligible and hold a minimum of a masters degree as either a social worker, mental health counselor, or marriage and family therapist.
- Center Grove partners with Community Health to provide school based services which are billed through family insurance provider.
- School based therapists can provide individual, family, and group therapy in the school setting and in the home or community.
- School based life skills clinicians are bachelor's level clinicians who provide added support to the therapist's caseload.
